Walter Hume Long, in behalf of the government, expressed great sympathy with the object of the amondment, but thought the minorities should rely on the protection of the promised second chamber, which would have to be con-stituted in a special way. For this pur-pose the government had formulated two new clauses, which would be pre-sented in the report stage, and which the government believed would afford the necessary protection in the event of the southern parliament defying the crown, or if that parliament was not properly constituted.

Even the most modest sock, minus ornaments, cost \$1 per pair. The minister should remember that dry feet were the foun-dation of good health. Sir Henry said that he doubted silk socks had much to do with dry feet, and the item passed. Morgan Lang (Humbold) / protested that the proposed tax on underwear was too low. J. M. Douglas (Strathcona) and A. R. McMaster (Brome) supportee him, the latter asserting that the health of the people was seriously menaced. Sir Henry Drayton then amended the resolution so that it taxes underwear, in excess of \$4 per garment, or \$8 for combinations. The figures proviously stood at \$3 and \$5 respectively. The following taxes were adopted without amendment: Fans, at any price; pocket books and purses in excess of \$2 each, and shopping bags over \$6 each. Mr. McMaster thought \$4 was too low a price for an umbrella, but the item passed. John Harold (Brant) wanted the rates on fur raised, contending that the proposed axemptions were much too low. This item also passed. Glassware came next. Mr. McMaster wanted other kinds of glass besides cut glass taxed. The minister said he had decided to tax "etched" glassware. Sorting goods causad ones.

The minister said he had decided to tax "etched" glassware. Tax on Sperting Goods. Sporting goods caused some comment. Mr. McMaster thought it a most in-tolerable piece of petty legislation to tax boys' skates or hockey sticks and did not believe the proposal came from the finance minister. Hon. W. S. Fielding wanted billiard tables and fishing rods distinguished from the smaller items. Sir Henry Drayton agreed with I. E. Pedlow that the word "cushions" might as well be taken out of the resolution, as it would be impossible to distinguish between cushions sold for verandah chairs and those used in cances. It was decided to insert skis and toboggons in excess of \$3 as taxable. R. J. Manion (Fort William) objected to taxing snowshoes, baseballs and bats and lacrosse goods. W. S. Loggie called attention to the fact that snowshoes were used by jum-bermen in their business. The minister was agreeable to exempting snowshoes sticks was increased to \$2; formerly they had been taxed where in excress of fifty cents each. The item carried with these changes.
