HORSE THIEF, CHASED FROM WOODSTOCK, WAS CAUGHT AT FAIRVILLE

A chase for a horse thief, which began at Woodstock terminated at Fairville last night, the thief being arrested there by Policeman Stinson on instructions telephoned from Fredericton by Sheriff J. B. Hawthorne. This morning the man, who had stolen the horse and buggy from J. W. Gallagher, of Carleton county. The horse and buggy will be sent back by freight. The prisoner gave his name as Harry Carter, of Halifax, and said that he was a book agent. On Monday morning, last, Carter hired a bay mare and buggy from J. W. Gallagher, livery stable keeper of Woodstock, to drive six miles out of town, and he paid for the horse at the time. He did not come back on Monday and on Tuesday Mr. Gallagher began to look around and notified Sheriff Foster. The latter telephoned Houlton and other towns without getting any trace of the man wanted, but, on Wednesday, learned that a horse and buggy had passed through Hawkshaw on their way toward Fredericton. Efforts to locate the thief failed, however, and yesterday Mr. Gallagher, Sheriff Foster and Deputy Sheriff Moore left Woodstock by motor in pursuit. At French Village they learned that the man had passed through. In the meantime Sheriff Hawthorne of Fredericton had been notified of the theft, and learned that the man wanted had spent Monday night at the Riverside Hotel, Devon, and that the horse had been taken to the stable in the same town. The man had got away, however, before Sheriff Hawthorne was notified that he was wanted, and there was no other trace of him in that section.

The telephone was again called into action and last night word was received from Fairville that the man was there and had attempted to sell the horse and buggy at Reed's livery stable, where they were. The arrangement made, that Carter was to return to the stable at eight o'clock last night to get \$125 for the animal and carriage. He fell into the trap and was arrested. Sheriffs Hawthorne and Foster went to Fairville by rail last night and got their man. Mr. Gallagher and Deputy Sheriff Moore returned to Woodstock. Carter admitted stealing the horse and carriage. He appeared to be about twenty years of age. When arrested he had only seventy-five cents in his pocket.

SHOT HERSELF IN A DREAM

Pittsburg, Aug. 10.—Acting, it is believed, under the spell of a dream, Miss May Wilson, twenty-five, shot herself in the head, dying instantly, early today, in her home in Edgewood. Miss Wilson and her father, James R. Wilson, occupied the house alone, and the daughter kept a revolver under her pillow. No one heard the shot, and the tragedy was not discovered till noon, when Mr. Wilson entered his daughter's room. In her nightgown, she lay dead on the bed, the revolver containing one empty shell, beside her. Relatives of Miss Wilson said she was of a sunny disposition, had excellent health and had no trouble. She often told of strange dreams that affected her powerfully, they said, and they expressed conviction that, under the stress of a dream, she shot herself.

Too Much Food in Summer means clogged liver and sluggish brain; too little food means flabby muscles and starved nerves.

The man on the job must keep his brain clear and his muscles responsive. The way to do this is to eat Shredded Wheat Biscuit, the food that contains everything in the whole wheat grain prepared in a digestible form, including the outer bran coat which is so useful in keeping the alimentary canal clean and healthy.

Two or three of these crisp, little brown loaves of whole wheat with milk make a nourishing, strengthening meal. Ready-cooked and ready-to-serve.

CANADIANS TO MAINE TO HELP GET CROP

Bangor Commercial—Through the efforts of Senator Hale, Governor Milliken and the Bangor & Aroostook Railroad the United States department of labor has agreed to waive for a temporary period the requirements of the "immigrant law" for the purpose of enabling Canadian laborers to come into the state of Maine and help harvest Maine's gigantic potato crop. This is one of the most radical steps taken by the government since the war, but it also gives promise of being one of the most beneficial, for it will probably mean the salvation of the crop the nation needs so much to help in the fight against Germany and world famine.

Headquarters for the officials in charge of the work of passing Canadian laborers over the border will be in the Bangor Federal building, and there will be branches at all the official ports of entry, Eastport, Calais, Vanceboro, Fort Kent, Fort Fairfield, Van Buren, Houlton, Madawaska and Jackman.

KERENSKY'S HEALTH WORRIES HIS FRIENDS

London, Aug. 10.—The health of Alexander F. Kerensky, Russian minister of the hour, is a matter of grave concern to his friends and associates, according to members of an English delegation which has just returned from Petrograd. Premier Kerensky's health was none too good when he took office, and the strain of even duty has been constant. His tremendous will power and nervous energy have kept him going so long. Those who have seen the brilliant Russian leader in the last few weeks describe his face as being haggard and drawn, his figure emaciated, his voice hoarse and without but speech marred by frequent coughing, and his eyes brilliant, but not with the brilliance of ruddy health.

DYNAMITERS ARE STILL AT LARGE

Montreal, Aug. 10.—There were no developments of a sinister character today in the dynamic outrage, but in view of the fact that private detective agencies as well as the local and Dominion police are at work on the case it is believed a clue to the desperado's identity will soon be forthcoming. The reward of a thousand dollars offered by the Dominion police is expected to be an incentive for some one with a knowledge of the affair to come forward. The head of one of the local detective agencies said this morning that he had a line on a large gang which is believed to be involved in this and other outrages.

The Crop Outlook Is Very Bright

(Harland Observer.)

During May and early June the most optimistic people were compelled to admit that the crop outlook was blue enough. At July 1 the fields looked as though all vegetation was killed a month behind; but at Aug. 1 we behold fields promising to deliver the biggest crop in history promptly on time.

Potato fields everywhere are looking fine and have made a vigorous stand. Beetles and blights have been kept down in spite of the high cost and scarcity of Paris green, and continued spraying for three weeks longer will assure a bumper yield. Hills that have been opened show indications that the crop will be fully up to the average.

Oats were adversely affected by the prolonged rain, but were not killed or "scalped" they have made splendid growth and the past few weeks have been ideal for filling the heads.

What is not doing so well as it would in a dryer season, but the late July heat and sunshine has done wonders for it. Larger quantities of turnips will be produced this year.

In spite of the rainy spell that commenced early in May and continued unabated to July 15, farmers never had so good a season for hay—and never in the world so heavy a crop. Many farmers will not harvest all their hay, lacking storing facilities. In such cases the grass is cut to be ploughed under later on, or allowed to rot and enrich the earth.

MONCTON LAD VISITS THE ROYAL STABLES

Moncton Transcript—Rev. Norman A. MacDonald, B.A., B.D., pastor of the Salvation Army of United Baptist churches, whose two eldest sons are serving at the front, received a fine lot of photographs this week from his second son, Donald, who went across a few months ago. His eldest son, John, went across two years ago. When John enlisted he was a student at Acadia, and when Donald enlisted he was on the clerical staff of the Bank of Montreal, Moncton. Donald, at the time of writing, was enjoying a furlough in London, and by mere chance happened to see his brother there. Donald, who is a great lover of good horses, had the pleasure of a look through the royal stables at Buckingham Palace, and many of the photos he sent home are of the royal horses and equipages. He saw the famous six stallions, also used only at royal functions. Young Mr. MacDonald writes that of the scores of beautiful horses in the king's stables, the majority are beautiful bays. One horse that he was particularly pleased with was the famous horse Delhi. This horse, as his name implies, is from India, and was presented to King George at the great coronation celebration in Delhi.
