

Roll of Attornies and Barristers.

The publisher regrets that he has not been able to give place to the Roll of Attorneys and Barristers of the Province ; but for the information of the curious, will state, that there are 122 Attorneys and Barristers on the Roll ; 32 of this number practice in Halifax, and the remaining 90 are scattered over the Province. The proportion which this class of the population bears to the rest, is as follows :—In the City, estimating the population at 17,000, 1 to 500—and in the Country, estimating the population at 180,000, the proportion is 1 to every 2000. The calculation is a rough one, but will be found nearly right.

Officers of Her Majesty's Customs.
