ELEVEN CARS DERAILED; SOME GO OVER BANK ON C. P. R. IN MAINE

No One Reported Hurt—Trains Bound Here are Delayed.

A serious derailment occurred on the Madawaska sub-division near Guilford, Me., caused by a broken axle on one of the freight cars, which was loaded with condensed milk. Eleven cars were derailed and a considerable portion of the rails and roadbed was torn up. There was a thirty-foot embankment at the place where the accident occurred and some of the cars went over it and carried away a couple of telegraph poles, snapping off the wires and cutting off all communication. Fortunately no one was injured. When the accident was reported, steps were immediately taken to have the wreckage cleared up and arrangements were made to have the Montreal train, which was en route to the junction at Northern Maine Junction over the Bangor and Aroostook railway and thence to Madawaska via the Maine Central.

Trains Late
It was estimated that the regular Montreal train and a special with passengers for the Canadian Pacific steamship Minnedosa would be about two hours late arriving in the city.

WALKS STREETS IN PALM BEACH SUIT

Geo. Parker Loses Bet on Charlie Gorman; He Pays Today.

George Parker, a popular Fairville barber, was due this afternoon to start for Fairville and return to the Union Station, Mill street, wearing a Palm Beach costume, which was to consist of white slacks, white shirt and trousers, light coat, a straw hat, a cane and a monocle. The reason for this unreasonable rig-out was the outcome of a bet made recently in connection with the skating races at Chamonia, France. When Charlie Gorman called for France Mr. Parker made a bet with a friend, Frank Whiting, that Gorman would win at least one event. His friend took the field against him and won. They decided to make some friends bet and originally intended to harness a rooster and drive it from the bridge over the Bevering Falls to the corner of Douglas avenue and Main streets. The authorities, however, refused to countenance this and the mid-summer sporting costume was substituted. It was recalled that following the Fippo Dempsey book, Mr. Whiting had to roll a peanut from the bridge to the corner of the avenue. Mr. Parker was the winner that time and had the laugh. It is the other way round now.

Ebb, chief of the pathological department of the Children's Hospital in Toronto; Col. J. L. Miller and Col. W. H. Hildreth, children of Bransby Williams, a famous English actor, who are returning to England with nine members of their father's company; George H. Woodgate of Minneapolis, head of the Woodgate Telephone Systems; C. P. Stegall and family and twenty-one members of a missionary band, who are en route to Congo, Africa; G. J. Chaplin of Montreal, G. E. Pasquiel, wife and daughter of Ottawa; Miss Mary Evelyn of Ottawa; and Dr. D. Hartin of Nelson, B. C.

SHIPS PARTY ENTERTAINS WELL

The Minnedosa Concert Party in the Empress Theatre, West End, gave an excellent concert last evening, under direction of Ralph P. Bolton. The Concert Party made a decided hit in a first class programme. Harry Watson was at the piano. Miss Marie Lehman sang with good effect. Bert Daniels was given a hearty reception in his character songs, and Harry Hammond, Scotch comedian, was at his best, and was recalled to sing "Stoney Broke in No Man's Land." Roy Walker was just as good as ever and caused much amusement. Charlie Olden, who has visited this city many times, was in good form. Mr. Kerr sang several songs with good taste, and the Minnedosa Jazz Orchestra gave several very good selections. The Minnedosa will be back about March 29, when it is hoped they will give another opportunity of hearing some more of their talent.

WILL GIVE CITY BIGGEST BOOST

New Hotel Great Drawer of Tourist Traffic, Says Dr. Doolittle.

"The new hotel which is to be erected in St. John will be the biggest boost the city ever had," Dr. P. E. Doolittle, Toronto, the noted traveler, lecturer and efficiency expert, predicted on Tuesday in an interview with The Times following an address before the local Gryo Club. Dr. Doolittle voiced pleasure at the announcement that Admiral Beatty is soon to be built and expressed the opinion that its construction would benefit the whole province. Will Draw Tourists. The majority of tourists like luxuries, he said, and will go where there are good hotels, even should there be no other outstanding attractions. John is in a special measure favored with natural attractions, he pointed out, and instances that here is one of the wonders of the world in the Bevering Falls. This province should derive from tourists a revenue of \$40,000 a year, in the opinion of Dr. Doolittle, who referred in glowing terms to New Brunswick's wonderful scenic beauty and remarkably attractive summer and winter advantages for healthful, entertaining recreation out of doors. Fishing, hunting, boating, bathing, skating and other sports could be indulged in under most advantageous conditions. The climate and environment, while there is variety of choice to suit every reasonable taste and inclination. A great central hotel such as will be provided in the Admiral Beatty at St. John, which is the chief centre of ocean transportation and the terminus of several railways, supplemented by smaller hotels in the other provincial centres, is suggested by Dr. Doolittle as the best method of handling the tourist traffic. That combination, together with the province's natural beauty and other advantages, would prove a tourist incentive of the highest type and bring here the most desirable classes. Speaking at a meeting of the Halifax Board of Trade, Hiram Ricker, president of the Automobile Association of the State of Maine, chairman of the Maine Tourist Association and director of the Poland Springs Hotel, said tourists brought to Maine last year \$50,000,000 in new money. Mr. Ricker estimated that in the past ten years Maine has benefited financially to the extent of \$100,000,000 through the tourist trade. He pointed out that many of the tourists, going to Maine merely for a brief visit, had built camps; later they erected more commodious dwellings, and today, from the tourist trade, Maine has many beautiful, elaborate summer homes owned by people residing outside the State. All this represents a real estate investment. In recalling the statement of Mr. Ricker, Dr. Doolittle pointed out that New Brunswick has attractions superior to those of Maine, and more varied. He also drew attention to the fact that the American likes, as do people of other nationalities, to travel in foreign countries; hence, New Englanders would naturally prefer to come to this province rather than to stay in their own country. That is all subject to good hotel accommodation. Dr. Doolittle stressed the point that Maine has a population of 25,000,000 million people within a few hours of motoring from the border of this province.

As Hiram Sees It

"Well, sir," said Mr. Hiram Hornbeam to The Times reporter, "I want to say a word about the feller that loads himself up with a speech and goes to a meeting to get it off whether it does any thing to do with what they're talking about or not." "I have met the gentleman," said the reporter. "With a club?" queried Hiram. "There were always ladies present," said the reporter, "and one he talked to so he heated up some strong arm methods." "That's so, too," said Hiram, "but I tell you something 'ort to be done to them." "There are several of him," said the reporter. "Too darn many," said Hiram. "But the chairman would die of shock if he failed to turn up," said the reporter. "You must consider the life of the chairman." "Some day," said Hiram, "a man'll be elected chairman that'll walk right straight down the aisle an' grab the feller by the windpipe and shut off the gas. Then the crowd'll get a hero medal an' the papers'll be full of it, an' the thing'll be done. I want to be there when it's done." By Herp
