THE FUTURE OF THE  
LIVE STOCK INDUSTRY.  
The arrival of peace has created new  
conditions in the export of meat and  
produce, and some uncertainty in the  
minds of Canadian farmers as to future  
markets. Information in the hands of  
the Hon. T. A. Crerar, minister of agri-  
culture, convinces him that the export  
market will continue to absorb at least  
prices, as compared with the prices for  
all other agricultural products, every  
pound of beef, bacon and other animal  
products that Canada can supply. In  
discussing the situation the Hon. Mr.  
Crerar said: "In view of the great scar-  
city of cattle and live stock of all kinds  
in Europe, and because of the great de-  
mand for live stock and live stock prod-  
ucts of all kinds sure to continue for  
some years at least, I am going to ask  
the farmers and live stock men of Can-  
ada to maintain their breeding opera-  
tions on a war time scale, to properly  
finish all feeding stock, and to conserve  
all good breeding females, and to still  
further improve their herds and flocks  
by using even greater care in the selec-  
tion of the sire."

FORMER ST. JOHN MAN.  
The following from the Cambridge,  
Mass. Chronicle will be read with re-  
gret by many in St. John: "John A.  
Alcorn for thirty-two years an em-  
ployee of the firm of Barbour, Stockwell &  
Company, and for a long time superin-  
tendent of the railroad department, died  
Tuesday at his home, 24 Banks street,  
West Somerville, aged fifty-seven. He  
leaves his wife and aged mother. The  
funeral was held yesterday afternoon  
from the Pentecostal Church of the  
Nazarene, Rev. John N. Short officiat-  
ing. There was a large attendance of  
employees of the Barbour, Stockwell &  
Company, and heads of departments, the pall-  
bearers being from the latter officials.  
The floral tributes were numerous and  
beautiful. Burial was at Mount As-  
burn." Mr. Alcorn was formerly of  
St. John but left here some years ago.  
There are relatives in the city.

produce, and some uncertainty in the  
minds of Canadian farmers as to future  
markets. Information in the hands of  
the Hon. T. A. Crerar, minister of agri-  
culture, convinces him that the export  
market will continue to absorb at least  
prices, as compared with the prices for  
all other agricultural products, every  
pound of beef, bacon and other animal  
products that Canada can supply. In  
discussing the situation the Hon. Mr.  
Crerar said: "In view of the great scar-  
city of cattle and live stock of all kinds  
in Europe, and because of the great de-  
mand for live stock and live stock prod-  
ucts of all kinds sure to continue for  
some years at least, I am going to ask  
the farmers and live stock men of Can-  
ada to maintain their breeding opera-  
tions on a war time scale, to properly  
finish all feeding stock, and to conserve  
all good breeding females, and to still  
further improve their herds and flocks  
by using even greater care in the selec-  
tion of the sire."

Wayagamack—10 at 51.

Second War Loan—2,000 at 98.  
Third War Loan—1,000 at 96 1/2.

THE FUTURE OF THE  
LIVE STOCK INDUSTRY.  
The arrival of peace has created new  
conditions in the export of meat and  
produce, and some uncertainty in the  
minds of Canadian farmers as to future  
markets. Information in the hands of  
the Hon. T. A. Crerar, minister of agri-  
culture, convinces him that the export  
market will continue to absorb at least  
prices, as compared with the prices for  
all other agricultural products, every  
pound of beef, bacon and other animal  
products that Canada can supply. In
