

WOMAN EDITOR REFORMS A MICHIGAN VILLAGE

Following scathing criticism of the police of Chebaning, Mich. in the columns of her newspaper, Miss Blanche Ingalls has been put in charge of the Chebaning police department by the village council. The position was offered in a spirit of sarcasm. But Miss Ingalls accepted before the offer was withdrawn. For a long time Miss Ingalls had not been in sympathy with what she termed "tax law enforcement," and she threw the light of publicity on every flaw in the village government which she could uncover. Since she has been in office she has put into effect many reforms. In about six months, she says, Chebaning will be the model village of the country.

THE DOUBLE WORK OF THE BLOOD

The circulation of the blood is one of the most perfect pieces of mechanism in the universe. Besides carrying nourishment in every part of the body the blood collects the waste products and passes through the kidneys in order that these poisons may be eliminated. Hence you see the tremendous importance of keeping the kidneys in healthful working order so that they free the blood of these impurities before they find lodgment in some weak spot and set up serious disease. Aching back and aching head, troubles with the digestion, deposits in the urine, constipation and biliousness—such are the symptoms which indicate the need of Dr. Chase's Kidney-Liver Pills. The liver is awakened to action, the bowels regulated, and the kidneys made vigorous in their work of purifying the blood. In the great majority of homes Dr. Chase's Kidney-Liver Pills are kept at hand for use in just such cases. They save many doctor bills, and by keeping the digestive and excretive systems in health do much to prolong life and bring comfort in old age.

Consumption Takes Hundreds of People every day in the year and the deadly germs claim more victims in cities than in rural districts, due no doubt to the increased number of indoor workers in confining quarters and their lack of sunshine. Tubercular germs always attack when the system is weakened from colds or sickness, overwork, overstrain, confining duties or any drain which has reduced the resistive forces of the body. But nature always provides a corrector and the best physicians emphasize that during changing climate our blood should be kept rich and pure and active by taking Scott's Emulsion when the body is eriching the blood—its peculiarly strengthening the lungs and upholds the resistive forces of the body to avoid colds and prevent consumption. If you work indoors, tire easily, feel languid or nervous, Scott's Emulsion is the most strengthening food-medicine known; it builds energy and strength and is totally free from alcohol or any stupefying drug—every druggist has it. 45-56 Scott & Bowne, Toronto, Ont.
