**FEW SARDINES AT EASTPORT**  
An Eastport dispatch of Thursday says that the sardine business, the principal industry in the city, is just now causing considerable uneasiness among the several hundred employes of the factories, who have been idle for the greater part of the time since last December. They had been looking forward to a busy season, owing to the increased demand for domestic sardines, but the little fishes have failed to put in their appearance along the coast in the usual large schools and about all the plants are idle for the greater part of the time. They have only an occasional since the season opened on April 15. The cannery workers feel the lack of work and there is much distress in consequence.

**THE GATLIN TREATMENT**  
EST. 1900

**For Drink and Drug Habits**  
Endorsed by

**PINKERTON**

Famous throughout the world as head of the greatest detective agency

IN his career of crime detection and civil investigation, involving many historic cases and covering a period of two score years, this noted character has had better opportunities to observe and appreciate the terrible effects of alcoholic liquor and drugs upon men and women than the average person. In a personal, signed statement to the Gatlin Institute he says:

**THE GATLIN INSTITUTE CO.**  
Within the past three years I have recommended four patients for treatment at the Gatlin Institute, all of them suffering from Alcoholism, and in every instance a cure was effected which was simply miraculous, and none of these have ever returned to their old ways.  
(Signed) WM. A. PINKERTON.

This splendid endorsement of the efficacy of the Gatlin Treatment and the permanency of its effects merits your most earnest consideration more especially if you number among your friends or relatives one burdened with the craving for alcoholic liquor or drugs.

The Gatlin—the original 15-day treatment—consists of harmless vegetable medicines taken internally without hypodermic injections or any other strenuous method—a quick, certain and lasting in its effect. Treatment may be had at any of the Gatlin Institutes established throughout the world or may be taken in the privacy of home, club or hotel under direction by Gatlin physicians sent with the treatment.

Capacities—1, 1 1/2, 2, 3, 5 and 7 1/2 tons.

"What kind of service may I expect from the manufacturer after I have purchased a motor truck?" An important question to consider.

Mack service begins with an analysis of your delivery problems, the furnishing of accurate and interesting data regarding the experiences of business men whose transportation problems are similar to yours.

And Mack service ends when the truck wears out—how long this will be we do not know, for the first Mack Truck built, 14 years ago, is still doing reliable work at Tucson, Arizona.

The strength of the company behind the truck should be as carefully investigated as the strength of the truck itself. Address Dept. 35
