RADICAL CHANGES IN SHIPPING ACT ASKED BY CANADIAN SEAMEN

Exclude Vessels That Do Not
Carry British Flag From Trading in Canada?

(Montreal Mail)
At the last meeting of the Building Trades Council an address was delivered by C. H. Sherman, of the Seamen's Union. Mr. Sherman went into the details of the trouble on the steamship *Asheville*, from the side of the crew, and said that a branch of the National Sailors' and Firemen's Union would be opened here very soon, so that the members of that organization could be fully looked after. On his recommendation the Building Trades Council appointed a committee of three to go into the following matters in connection with marine affairs—amendment to the shipping act to exclude all but vessels under the British flag and register from trading between Canadian ports; to prevent the granting any certificate as pilot ship's officer or engineer to any one not a British subject; also alterations in the food scale and accommodations. It was explained that many of the foreign vessels chartered purchased all of their heavy supplies in the country from which they came, and stored them under bond, using them only as required. When any large job of repairing or overhauling was necessary the ship almost always returned to her home country to have the work done on the ground that it was cheaper, thus depriving Canadian workmen of employment. The crews were usually but little more than boys in most of them, and what little money they did get was drawn in their own country, and of no benefit to Canada. In time of war, officers of foreign shipping trading on the coast, especially in the lake and river districts, could carry information home as to the conditions of every port and were a danger otherwise. At the present time German and other foreigners sailing out of the fishing ports of Hull and Grimsby had deliberately sailed trawlers into German ports. It was said, although the trawlers were flying the British flag.

BULLETIN OF AGRICULTURAL AND COMMERCIAL STATISTICS

The September number of the Bulletin of Agricultural and Commercial Statistics, published by the International Institute of Agriculture, gives forecasts or preliminary data of the harvests in the Northern Hemisphere for the year 1913-14.

For cereals, new data of particular importance are the following forecasts of the harvest in Canada:
Wheat—48,433,066 quintals, against 68,064,000 in 1913, or 68.8 per cent.
Rye—512,546 quintals, against 584,228 in 1913, or 87.8 per cent.

Barley—6,058,080 quintals, against 10,000,018 in 1913, or 76.6 per cent.
Oats—50,542,929 quintals, against 61,460,000 in 1913, or 81.0 per cent.

On adding these data to the ones published in the preceding Bulletin, modified and completed according to the latest information received by the Institute, the following totals are obtained:

Wheat. The production is estimated at 708,708,004 quintals, corresponding to 94.8 per cent of last year's production.

For the following group of countries: Hungary, Belgium, Denmark, Spain, Great Britain and Ireland, Italy, Luxembourg, Netherlands, Russia in Europe, Switzerland, Canada, United States, India, Japan, Algeria (Department of Constantine) and Tunis.

Rye.—The production is estimated at 877,653,658 quintals or 94.1 per cent of last year's for the following group: Prussia, Hungary, Belgium, Denmark, Spain, Ireland, Italy, Luxembourg, Netherlands, Russia in Europe, Switzerland, Canada and United States.

Barley.—The production is estimated at 238,292,295 quintals or 90.9 per cent of that in 1913, for the same countries as in the case of wheat, but excluding India.

Oats.—The production is estimated at 408,516,824 quintals or 87.1 per cent of that in 1913, for the same countries as in the case of wheat, but excluding India and Japan.

Regarding other products, the production of linseed in Canada is estimated at 2,296,738 quintals, against 4,445,081 in 1913 or 51.6 per cent.

There is also a notable decrease in the maize crop forecast in United States which is now given at 695,917,980 quintals (108.2 per cent of the 643,000,000 quintals given last month).

An important decrease occurs also in India.

NEURALGIA OF THE HEART

This Letter Tells of Wonderful Change Effected by Dr. Chase's Nerve Food.
Mr. James G. Clark, Fosterville, York County, N. B., writes: "I have been a great sufferer from what the doctors said was neuralgia of the heart. The pain started in the back of the neck and worked down into the region of the heart. Though I had taken a lot of medicine of one kind and another, I could not get anything to help me until I used Dr. Chase's Nerve Food."

"When I began this treatment I could not rest in bed, except by sitting upright, on account of the dreadful pains about the heart and the quick, loud beating. The change which Dr. Chase's Nerve Food has made in my condition is wonderful. It has entirely overcome these symptoms, and is making me strong and well. If this statement will help to relieve the suffering of others, you are at liberty to use it."

Dr. Chase's Nerve Food is a true tonic and the greatest of nerve restoratives. 50 cents a box, 6 for \$2.50; all dealers, or Edmondson, Bates & Co., Limited, Toronto.

HALL STOVE COAL

You need good coal to get real satisfaction from your stove this winter. Coal that is good, solid, burnable, matter to start with, well sized and well screened to remove all slack and dust. In fact, you need Consumers' Coal Co. Anthracite, and NOW, before the fall rush sets in, is the time to order.

THROUGH THE AIR AT 150 MILES AN HOUR

British Air Craft Proving Superior to the Germans

London, Oct. 14.—"The English aeroplanes have proved to be more than equal to those of the Germans," says the Paris correspondent of the Times.

"Special success has been scored with the new type of English aeroplane called the 'cruiser' which is capable of developing a speed of 150 miles an hour, and which can rise from the ground at a very sharp angle."

"The German anti-airship guns are so effective that it is unwise for the British or French aviators to fly lower than 6,000 feet from the ground. An airman when under fire has to keep up continual glides, sharp turns and evolutions in order to prevent the enemy from getting an accurate aim. Looping the loop, however, is strictly forbidden."

Y. M. C. A. ESTABLISHED IN BRITISH ARMY CAMPS

London, Oct. 2.—(Correspondence of the Associated Press.)—The Y. M. C. A. now has in complete operation some 200 recreation centres where the soldiers may write letters, play dominoes or checkers, drink temperance beverages, sing and play songs. Some of these centres are in circus tents seating a thousand men and some in renovated row sheds.

The organization is throwing all of its energies into the war, says W. A. Yapp, secretary of the National Council of the Y. M. C. A. In the great London branch thousands of young men have availed themselves of the free gymnasium where their physiques are being built up to army standard. But it is mainly on the social side, on being the friend of the men in the ranks, that the Y. M. C. A. expects to be of greater use.

On the religious side, when men are given testimonials and also pamphlets dealing in part with military duties. Every evening there is a general sing-song of the social side, on being the friend of the men in the ranks, that the Y. M. C. A. expects to be of greater use.

The Y. M. C. A. is doing an equally important work among the women, particularly the foreign refugees. Employment and homes are found for them. Work guilds have been formed also in 600 of the Red Cross and the various hospitals.

The first Y. M. C. A. home in London was started by Lady Kinnaird to receive nurses bound to or returning from the front.

URGENT APPEAL MADE TO AID THE BELGIANS

The plan to raise \$1,000,000 for the relief and compensation of Belgian sufferers from the war is being supported by the Toronto Board of Trade, who are now considering methods by which they can.

CANADIANS ARRIVE SAFELY; MORNING WAR SUMMARY

Ottawa, Oct. 14.—A brief cable was received by the government this afternoon from Hon. George H. Perley, acting high commissioner in London, announcing the safe arrival today at Plymouth of the Canadian troops.

No details were given in the cable, but the fact of the landing at Plymouth taken here to mean that the Canadians will march straight to the training camps at Salisbury Plain. Previous detailed announcements as to the arrival of the Canadian troops at Southampton were unauthorized and, as events have shown, decidedly imaginative.

Paris, Oct. 15, 12.01 a. m.—The exact positions of the bulk of the allied armies are being kept strictly secret, but it is believed that the forces in France and Belgium have joined hands since the fall of Antwerp.

The German cavalry around Harebrouck, France, which masked a movement of the infantry, had already suffered a rude check from the allies before the battle at Ypres, because the Germans were unable to operate freely in masses, owing to the nature of the ground, where they were virtually at the mercy of the allied infantry and artillery.

A few days ago the German cavalry were fighting as far west as Harebrouck and Cassel, but today according to the French official communication issued this afternoon, the front of this battle extends from La Basses through Estaires to Bailloul on the Belgian frontier, while across the border the Allies have occupied Ypres. This is a very distinct gain for the Allies, and shows that the German attempt to work around their left has failed, the German right being sent back toward Lille and Courtrai, both of which places the invaders hold with strong forces.

Vienna makes the claim that the Russians have evacuated Lemberg, while the Russians yesterday denied a "far report" that they had given up the siege of Przemyśl. It would not surprise military men if the Russians withdrew from Galicia, to concentrate all their forces for the supreme struggle which, with the advance of the Austro-German armies into Poland, is now upon them along the Vistula river, from south of Warsaw to their southern boundary.

There was every indication today that Turkey and Portugal would be drawn into the war. Portugal has not declared war on Germany, as was reported earlier in the day, but a partial mobilization of her forces will be ordered tomorrow, and martial law has been declared in Portuguese Congo.

The former German cruisers Goeben and Breslau, which sought refuge in Turkish waters, when driven out of the Mediterranean by the British and French warships, may be responsible for the involvement of Turkey. Although these ships were ostensibly sold to Turkey, they are still officered and manned by Germans, and have been cruising off the Romanian and Bulgarian coasts, where the Russian Black Sea fleet has been for some days, and should the Russian warships sight the Goeben and Breslau an engagement would be possible.

General Botha, the premier of the Union of South Africa, has sent a force to deal with Colom Maritz and the rebels under his command. According to an official telegram from the South African government the rebellion is not as serious as was feared. It is said that the men under Maritz do not exceed 500, including Germans, and that, as the Dutch farmers are flocking to General Botha's standard, Maritz is not likely to receive any large acquisitions.

WOULD-BE RECRUIT HAD GERMAN FLAG INDELIBLY STAMPED ON HIS CHEST

But it Wasn't Because Joe Connolly Did Not Take Strenuous Measures to Have it Removed—His Wrath Caused Senior Bolosi Hurriedly to Leave Town

(Montreal Mail)
Military in all its phases has lost all its charm for one Senior Juan Bolosi who has acquired a considerable reputation among the sailors who visit Montreal for his skill in making tattoos of unique designs on their breasts and arms. Senior Bolosi is now on his way to New York, swearing vengeance on all Britishers, and sailors in particular. The cause of his sudden departure and hatred of those from whom he obtained the wherewithal for his daily bread is a certain Joe Connolly, a deck hand on one of the lake steamers. Joe, though short and "stubby" in build, has a certain record for coming out first in fist-fights along the wharves.

The trouble can be traced back to last spring, when a German vessel was in port, and Connolly was in the city at the time and also, being a hospitable chap, invited one of the German sailors to have a few drinks with him.

By midnight he had sworn eternal friendship, and to cement the oath, he woke up Senior Bolosi and had a German and British enigma tattooed on his chests. The next day, when the German vessel left port, and Connolly sailed away on a lake steamer.

Connolly arrived in Montreal a couple of days ago, and his first move on landing was to hurry to Senior Bolosi's boarding house, 88, Paul street. There he commanded the Senior to remove the German flag so conspicuously pictured on his swarthy breast.

That it had been a continual annoyance for himself and a source of ridicule for his mates, particularly when he was in the street, he tried in vain to scrape it off with a knife. The navigator explained that he had decided to join the second contingent, and it was therefore absolutely necessary to rid himself of the enemy's emblem.

The Senior explained that the tattoo was indelible; that it could not be erased.

It was some time before Joe understood, but when he did there was trouble. Arguments, futile, he began to "talk with his fists."

There were lively things in the Spaniard's room for a few minutes, and when the landlord came up later, a disorderly scene met his eyes. There was not an unbroken piece of furniture in the room. Over in one corner was Senior Bolosi, among the debris of two chairs, nursing two black eyes, a bloody nose and a few other such injuries.

The Spaniard, who is of pronounced embolism, was cursing England, Germany, Canada and Montreal, in a weak voice.

The landlord explained that, as he was a poor man, he must ask the Senior to pay for the damages; anyway, as he was a noisy boarder, he had better find some other place to hang his hat.

The Spaniard, who has amused somewhat of a small fortune while in Montreal, paid and packing up what was left of his belongings, then took the first train for New York.

Meanwhile, Joe was at a drug store buying a preparation which, though it will leave a large black scar, will effectively erase the hated emblem.

ASSASSINS OF AUSTRIAN CROWN PRINCE ON TRIAL

Sarajevo in a State of Terror Owing to Military Precautions.

Rome, via Paris, Oct. 14.—Despatches received here, by way of the frontier from Sarajevo, Bosnia, say that the town is virtually in a state of siege, owing to the circumstances surrounding the trial of Gavrio Princip, the assassin of Archduke Francis Ferdinand and his wife, and Princip's twenty-one accomplices. The men are being tried on a charge of high treason in connection with the assassination.

Terror reigns everywhere in Sarajevo, it is said. The police have taken extraordinary precautions, and the whole garison is being kept in readiness for any emergency. According to the laws, the trial is open to the public, but in reality the space reserved for the public is being entirely occupied by police agents in civilian clothes. Telegraphic reports of the trial are prohibited, except those of the official agency.

JEALOUS WINNEPEG MAN KILLS WIFE AND SELF.

Winnipeg, Oct. 14.—After charging his 22-year-old wife with going around with other men, Frank Ward, a teamster, aged 27, shot her dead this afternoon in the retail butcher shop of the Gibson, Gage Company, 322 Notre Dame avenue, at which place she was employed. He then turned the revolver on himself and ended his life.

Mrs. Ward was formerly Miss May McFayden, of Manitowish, Manitoba. They had been married eighteen months.

Real Struggle is Beginning, Declares Viscount Haldane

Newcastle-on-Tyne, Oct. 14.—Viscount Haldane, the Lord High Chancellor, who, it may be recalled, has been sometimes

Microbes in Your Scalp
Authorities say that a microbe causes baldness. If you are losing hair try our remedy at our risk.

Professor Unna, of Germany, and Dr. Sabouraud, the great French Dermatologist, claim that a microbe causes baldness, and their theory has been verified by eminent scientists. This microbe destroys the hair follicle, in time causing the scalp pores to close and the scalp to become shiny. Then, it is believed, nothing will revive the growth. If treated before this occurs, baldness may be overcome.

We know of nothing that has given such universal satisfaction in treating the scalp and hair as Rosell's "66" Hair Tonic. It has been designed after long study to overcome the cause of falling hair as discovered by Prof. Unna, Dr. Sabouraud and other scalp and hair specialists, and we believe it will do more than anything else can to remove dandruff and stop falling hair, and if any human agency can promote a new growth of hair it will do that, too.

We want you to make us prove it. We will pay for a month's treatment of Rosell's "66" Hair Tonic used during a trial, if you will use it according to directions and are not thoroughly satisfied. When we will do this, you surely should not hesitate to at least try it.

Start the treatment today. Your money back if you want it. Two sizes, 50c and \$1.00.

You can buy Rosell's "66" Hair Tonic in this community only at our store:

SERVED AT EXHIBITION
Marven's Social Tea and Fancy Wine Biscuits were served by the Daughters of the Empire during our recent exhibition, you can also procure these biscuits at your grocers.

Charlotte, Oct. 14.—At the quarterly meeting of the Charlotte Board of Trade tonight, E. T. Higgs, president of the board, announced that after a canvass of all the boards it was decided, in view of conditions caused by the war and the possibility of delegates being unable to attend at a busy season, that the annual meeting held for this year at Summer-ville be cancelled.

\$1,200,000 VERDICT AGAINST HEINZE

New York, Oct. 14.—A verdict in favor of Edwin Gould in his suit against F. Augustus Heinze for the recovery of \$1,200,000, a part of the purchase price of stock in the Mercantile National Bank with interest thereon, was rendered by a jury in the United States District Court here today. While the jury was out Justice Page sent in instructions that the jury must bring in a verdict for the whole amount, or nothing.

WHEN THE LIVER GETS TORPID

There is Nothing Like Dr. Chase's Kidney-Liver Pills to Set it Right.

Mrs. C. L. Cook, 248 Tenth street, Beaumont, Man., writes: "I have used Dr. Chase's Kidney-Liver Pills for the last four years for liver trouble, and can say that I have had great satisfaction and help from them. I find that I do not need any doctor if I use them when the liver gets torpid, and believe that they are exactly suited for my case. My husband has used them for kidney trouble with good results, and my daughter in Winnipeg has been helped a great deal by the use of these pills. We say we can't keep house without them, and have cheered the doctors here out of a good many visits. I think Dr. Chase's medicines are just the thing, and have recommended them to many people who have used them with good results."

By keeping the liver active and the bowels regular Dr. Chase's Kidney-Liver Pills prevent and cure such disorders as biliousness, constipation, chronic indigestion and headache. One bottle, 50c; a box of 6 for \$1.00; all dealers, or Edmondson, Bates & Co., Limited, Toronto.

Your Liver is Clogged up
