MORNING LOCALS

P. O'Rourke, general manager of the D. A. R. Company, was in the city yesterday. He said that no definite plans regarding the fast route between St. John and Halifax had been mapped out yet, but they were under construction.

Mrs. E. A. Smith delivered a very interesting lecture on A Trip Through Canada to a large audience in the Queen Square Methodist church last night. The lecture thoroughly covered the ground from St. John to Vancouver, and was much enjoyed.

The members of the City Cornet Band entertained those in the Mater Misericordiae Home with a fine concert of instrumental selections, last night. The concert was greatly enjoyed. Rev. J. O'Reilly, on behalf of the Sisters, thanked the members of the band for their kindness.

John W. Bruce, organizing secretary of the United Association of Plumbers and Gasfitters for Canada, arrived in the city yesterday. He said to a reporter yesterday that the drainage system in this city was unsanitary, antiquated and a serious menace to the public health.

Sterling Realty Ltd.

TO LET—Attic Flat 44 Elm Street, 3 rooms, Rent \$5.00 per month. Properties Bought and Sold.

J. W. Morrison, 85-1-2 Prince Wm. St.

How I Restore Nerve Force

Every organ of your body is governed by a network of nerves. These nerves convey the power which runs the human machine. This power is called nerve force. Nerve force is nothing but electricity. The reason any organ becomes weak is because the nerve which controls it lacks electricity, or nerve force, the motive power of your body. This lack of nerve force is shown by weakness of any kind, whether in the stomach, liver, kidneys, heart or other organs.

If your memory is poor, confidence and nerve all gone; sleep restless; if you suffer frequent headaches and your eyes are dull and heavy; if you are not getting on by then, by any means, you are lacking in nerve force. It is impossible. What the nerve requires is a nourishment—nerve food. If there was any nourishment in drugs, they might do some good, but you know there is not. Drugs are drugs, stimulants, narcotics, anti-dotes, poisons, not food. Electricity is nerve food—nerve life. It soaks into your nerve and gives it its life. Just as a sponge absorbs water, it soaks and vitalizes the parts which drugs cannot reach.

Every dose of drugs that you put into your stomach weakens your nerves. Every time you kill a pain or an ache by stupefying the nerves with poisonous drugs, you are hurting them, and any one can see that in time, by any means, your nervous system will be completely broken down.

Electricity is a relief from the old system of drugging. It does by natural means what you expect drugs to do by unnatural means. It gives back to the nerve and organs the power they have lost which is their life. Dr. McLaughlin's Electric Belt is easily, comfortably worn next to the body during the night, and gives out a continuous stream of that strength-building, nerve-feeding force which is the basis of all health.

Dr. McLaughlin—Dear Sir, I am writing to let you know that my Belt has done me a lot of good. My stomach is now able to digest food, and I can eat anything that I want. My bowels are stronger, and the rattling in them has stopped. I sleep better, and my back is better.

THOMAS DALEY, Herring Neck, Pikes Arm, Nfld.

Dr. McLaughlin—Dear Sir, I have worn your Belt for a month and find that it is doing me great good. My stomach trouble is better, and I also feel stronger in every way. I am well pleased with the Belt. Yours very truly, THOS. COPELAND, Lakefield, Que.

Every sufferer should try Electricity. It is far cheaper than a course of drugging.

I GIVE IT FREE

Get my 84-page book describing my treatment and with illustrations of fully developed men and women, showing how it is applied. This book tells in plain language many things you want to know, and gives a lot of good, wholesome advice for men.

If you can't call, I'll send this book, prepaid, free, if you will inclose this coupon.

Consultation free. Office hours 9 a. m. to 6 p. m. Wednesday and Saturday to 8.30 p. m.

DR. M. L. McLAUGHLIN, 237 Yonge Street, Toronto, Canada.

Dear Sir, Please forward me one of your books, as advertised.

ALL YEAR SCHOOLS; NEWARK'S SUCCESS

(Bradstreet's)

John Cotton Dana, librarian of the Newark (N. J.), public library, writes in the Independent that "Newark has made the first thorough test of the all-the-year school method. The test was most successful, and demonstrated, as far as such a test can, that cities can adapt the progress of children in their studies, improve rather than injure their health, increase the income of teachers without overworking them, increase by nearly 30 per cent. the use made of public school buildings, and, as a result, this promising efficiency without increasing the tax rate, and make it possible for children to cover in the six years from six to twelve the course of study and the training and discipline now taking the eight years from six to fourteen."

"Dr. A. H. Hild, Newark's superintendent of public schools, has been for several years studying the subject of all-year schools. He came to the conclusion, in 1910, that the present system of public school method, in which the children of the city are kept in school for twelve months, is not the best method. He had noted the great success of local summer schools, which Newark was the first city in the United States to adopt. Newark has today a larger summer school attendance than any other city in New York. He observed that they had steadily grown in importance, in the number of pupils they received, in the persistence of attendance, in the money spent upon them, and in the care and thought devoted to them by the management."

"Superintendent Poland felt that even in the rainy summer climate of Newark, the middle years of school in well-ventilated schools, than on the streets. He decided, of course, the great loss of time in the school year due to examinations and other functions in June and July, and the closing sessions before a ten or twelve weeks' vacation."

"Attendance was purely voluntary. Even after a pupil had chosen the all-year course he was not compelled to continue it. The high per cent. of attendance meant interest in education on the part of parents and pupils. The schoolroom all gave the impression of cheerfulness, good will and even enjoyment of the tasks in hand. The pupils were there at the request of their parents in most cases, of course; but the older ones seemed without exception to realize that they were making progress in education, that the schoolroom had some attractions not offered by hot city streets, and that five hours for five days each week were not too many from a day of twenty-four hours to give to school work."

"If the two schools in which the all-year plan was tried had had larger playgrounds they would probably have had an even larger summer attendance. Well-equipped park and public school playgrounds near by were attractions which equipped all-year seasons had to compete. This fact was not discovered. It shortens the elementary course by two years. If applied to the high school it will shorten the total course of twelve years by three years. It promotes good habits of industry, cleanliness and civility; it does away with the burden of long vacations, and precedes each long vacation and the trying re-adjustment which follows it; it adds twenty-five per cent. to the use made of the city's school plant; it increases the teacher's gross annual income and, while it lengthens her task, it lightens its nervousness."

"American public schools are not the failures that much recent criticisms of them would indicate; but they can be made better than they are, and the adoption of the all-year plan seems to be one of the most obvious ways to increase efficiency."

COMMON COUNCIL MATTERS

The postponed meeting of the Common Council was held yesterday afternoon. It was decided to apply for legislation to enable the commissioners to determine the class and character of any building hereafter to be erected in the city and to fix its location, height and other features.

The commissioner of public works was given authority to purchase a new street sweeper and two steam rock drills and was given authority to place a sidewalk on the western side of Mill street and a fence in front of the C. P. R. property there.

The provincial government will be asked for legislation enabling the city to proceed with their arrangements for a town planning commission.

The commissioner of ferries was authorized to accept the tender of the Maritime Lumber Co. for 20,000 feet of birch plans at \$9 a thousand for use in sheathing the piles at the ferry float approaches.

F. W. Whipple's application for a free site and exemption from taxation for ten years for a skate factory was referred to the mayor.

T. McAvity & Sons, Ltd., wrote saying that they would exhibit in detail their proposals under which they will erect foundries on the land which is to be reclaimed. Bills for printing in connection with the commission government election were ordered to be paid.

A letter was received from Hon. J. K. Plummer in which he said that objections to some of the regulations governing vehicle traffic in the city streets had been made by the St. John Railway Co. and the New Brunswick Automobile Association and suggested a conference by the three bodies.

For grease paints—fast colors benzine can be used. For dry paint stains rub with equal parts of turpentine and alcohol. The average wages per hour of the working classes in Belgium are little more than half those of the same classes in England.

A WEAK STOMACH BRINGS MISERY

Dr. Williams' Pink Pills Restore Despondent Sufferers to Health

Nothing is so distressing as a weak stomach—the victim of this trouble suffers from indigestion, biliousness, dizziness and frequent headaches. No food agrees with them—meal time is a time of misery; not a time of pleasure. Relief from this suffering can be found through the use of Dr. Williams' Pink Pills—they never fail to banish the distressing headaches; biliousness and dizziness. Mrs. C. S. Stevens, of Hillsboro, N. B., is one of the many who have been cured through the use of these pills. She says: "I suffered very much from stomach trouble and would often leave the table without tasting food. I got no relief worth speaking of till I began the use of Dr. Williams' Pink Pills. They gradually restored my health and strength and now I am as well as ever. I would earnestly recommend them to all those who suffer as I did."

It is the blood—bad blood—that is the cause of nine-tenths of the ailments from which both men and women suffer. The blood is the life-giving fluid of the body. When the blood is bad it is bound to poison some part of the human system and it is that rheumatism, kidney trouble, indigestion, headaches and backaches and a host of other troubles make their appearance. Dr. Williams' Pink Pills cure all these troubles—and they cure them thoroughly—because they fill the veins with red blood. The genuine Pills bearing the full name "Dr. Williams' Pink Pills for Pale People" are sold by all dealers in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

At present the excess of births over deaths in England and Wales is about 400,000 per annum. Therefore (says Harold Cox) we ought to aim at the emigration of at least 50,000 persons per annum.

If You Want to Save Money Buy Your Groceries at the 2 Bakers, 100 Princess St., 111 Brussels St., 443 Main St., 243 King St., West End.
