

# Protect Yourself Against Colds

HEAT is what your pain-racked system craves---it's the logical, commonsense first-aid to chill-caused aches and ills. Dry, even, persistent warmth, that GENERATES as it is used, is better far than wet, messy poultices that quickly grow cold and clammy.

## Fight Spanish Influenza With Thermogene

Thermogene is WARMTH in DRY, CONVENIENT FORM. Its principle is medically correct for the treatment and cure of

**Grippe Bronchitis Sore Throat Chest Cold Back Ache  
Rheumatism Neuritis Neuralgia**

or any of a hundred other complaints caused by chill, dampness, or vagaries of the weather.

—when you feel absolutely miserable and realize that one of these prevalent maladies has its grip upon you—

### Lay a Piece of THERMOGENE over the Aching Spot!

Illustration shows how simply THERMOGENE is used to treat Back Ache, Rheumatism, etc. A light bandage or clothing alone, holds it in position.

WARMTH is what it needs; and the active principle of THERMOGENE automatically generates heat the instant it is applied, acts upon the blood vessels through the skin and goes straight to the affected part. The joint that is

throbbing—the chest that is racked with coughing—the back, the head, or limb that aches with pain caused by damp or cold—will find immediate and certain relief when THERMOGENE is applied.

It is Ready as it Comes From the Box
