WEBB ADMITS HE KILLED W. A. JOHNSON

Prisoner Declares He Was Attacked and Acted in Self-Defence

(Times Leased Wire.)

Portland, Ore., June 22.-Following what became of the \$25,000 which John-son secured by the sale of his farm

The police suspect that Johnson was lured to Portland from Spokane for the purpose of robbery, and that Webb and his female companion had deliberated on the matter before she came to Portland with Johnson.

Detectives are not satisfied with Mrs. Kersh, that Johnson drew a slugshot from his pocket and struck at Webb and that Webb, being the stronger, took the shot away from him, and heat Johnson to death.

The police believe that robbery, not jealousy, was the motive. They declare that Webb and the woman planned the robbery just as they planned for the disposal of the body. as Webb stated in his confession. In jail to-day Mrs. Kersh continued

to tell conflicting stories of her actions with both Webb and Johnson. She said that Johnson spent money lavishly on her, but the police assert that he could not have possibly expended \$22,000 in six months, if her stories of the manner in which Johnson spent his money and lived are to be given any credence at all.

The detectives admit that they are baffled concerning the whereabouts of Johnson's money, although they de-clare that they are sure that he had more than \$1900.

Bert Kersh, husband of the woma

under arrest here with Webb, is expected to arrive to-day from Seattle to claim possession of his seven-year-old son William, who was stolen from him by Mrs. Kersh at Seattle the day Webb is supposed to have left town.

The Liberals are openly declaring that Madero was arrested simply be cause he is a candidate for the presidency. Meetings to denounce the government's action are to be broken up by the police and rurales and govern ent troops are patrolling the border and guarding border cities.

Every Liberal leader that could be has been banished and the authorities are searching for others connected with the party.

In Nuevo Leon, the home of Modero, excitement is most intense. General Bernardo Reyes, who was named as a candidate for the vice-presidence against Ramon Corral, administration candidate, was formerly governor of Nuevo Leon, and was a man of wonderful popularity. He was deposed and virtually exiled, though ostensibly he went to Europe to study military or-ganizations. His exile caused great excitement throughout the state and his followers flocked to the Madero standard when he was nominated for the presidency. The people of Nuevo Leon are particularly bitter against Diaz for having exiled Reyes and jailed Madero.
