

TWO

THE STAR ST. JOHN N. B., FRIDAY, JUNE 19 1903

COAL, American and Scotch Anthracite in all sizes. Old Mines Sydney and Reserve Soft Coals delivered in bags or in bulk. R. P. & W. F. STARR, Limited. 49 SMYTHE ST. 14 CHARLOTTE ST. Telephone 9-115.

LOCAL NEWS

The beauty of Dugar's laundry work is not at all on the outside. It goes right through. Tel. 55.

To cure a headache in ten minutes use Kumfort Headache Powders, 10 cents.

New York Dressmaker. Finest work. Latest modes. Prices reasonable. Inspection invited. Telephone 124-51. 151 Mill St.

I silk tie for 25c. At the Union Clothing Company, 25 Charlotte St., opposite City Market.

Marriage licenses and wedding rings. Buy them together from Walter H. Irving, the Jeweller, 55 King Street.

The Every Day Club life and drum band will give a band concert this evening at the depot two o'clock this evening.

Troubles are easy found and not always easy to overcome. The best way for you to overcome troubles with your furniture is to call on Sinclair, 71 Princess.

Naturally your clothes need cleaning, pressing and repairing. Have them done at McParland's, the Tailor, Clifton House block, Princess Street. Phone 113-11.

Three dozen hats for 25c, at the Two Barkers, 109 Princess Street, 111 Brussels, 41 Main Street.

Last night when the Boston train arrived at the depot two suspicious looking characters alighted, and going into the yard fired several shots from revolvers.

Twenty milk vendors have been reported by the Board of Health for selling milk without a license. They will appear before Judge Ritchie on Monday, when Colonel J. R. Armstrong will prosecute for the board.

The public is requested to attend the great half-price sale at the Parliament Store, 47 Brussels Street, of reasonable clothing and furnishings for ladies, gents and children. See ad. on page 4, 47 Brussels Street.

At the annual commencement of University of Michigan yesterday, the degree of Doctor of Philosophy was conferred on Rev. W. O. Raymond, Jr. (U. N. B. 1902), of St. John, for his special studies in the philosophy of religion, metaphysics and Hebraic.

Word has been received from Springfield that Lady Hingen (214-1-4) of the Springfield Stables, injured herself while in her stall which caused her to let up in her work. That made it impossible to enter her in the 215 class race and race at the Springfield meeting on Dominion Day, and that race has been declared off.

The St. Joseph won their first game of the season by defeating the St. John Baptist team on the Shamrock grounds last evening to the tune of 13 to 2. The boys in purple and white certainly played championship ball, having thirteen hits and making but three errors.

No. 8 detachment, Canadian Ordnance Corps, and No. 7 company, Canadian Army Service Corps, leave this city for camp Sussex at seven o'clock tomorrow morning. The C. O. C. detachment will also go at full strength, one officer and five sergeants and men. The Army Service Corps will take the usual number of men from St. John. Its teamsters and butchers, eighteen in number are recruited in Sussex and vicinity. The cooks and a few men will come from Stanley, York County. The advance party of No. VIII. field ambulance unit will go to camp Monday morning. The main body of the unit will go to Sussex on Tuesday.

At a meeting of the grounds committee of the Every Day Club last evening a resolution was adopted to the effect that all applicants for the use of the grounds must apply in writing to the secretary of the committee, E. L. Sheppard, 55 City Road. It was decided to grant the ground next Thursday evening to the M. R. A. and Brock and Patterson teams. Through an unfortunate oversight the grounds were promised to two different parties last evening. The president, who was at fault, apologized, but as a result of the ill-feeling that had been aroused he asked the grounds committee to adopt the resolution referred to. A record will thus be kept and no further mistakes made.

SHOE POLISH. The Perfect Dressing for Ladies' Shoes. Preserves the finest leather and gives a brilliant gloss that will not rub off or wear the polished garments. No dealer careful of his reputation will sell anything else so good. At all Dealers. 10c. and 25c. tins.

A large meeting of Northumberland Liberals was held at Chatham yesterday afternoon and unanimously nominated W. S. Logie, M. P., as the Liberal standard bearer for the county in the Federal contest.

Ora M. Reynolds of Springfield, Missouri, and Miss Stella F. Loudbear of this city were united in marriage last evening at the Tabernacle parsonage by Rev. J. W. Kierstead. Mrs. Jennie McDonald was bridesmaid and Gordon McDonald, best man. Mr. and Mrs. Reynolds will reside on Erin Street.

A. B. Foster, C.E., of the Transcontinental Railway, is at the Victoria. Mr. Foster was at Chippman yesterday interviewing Commissioner of Police L. P. Parrie concerning matters affecting the railway. Mr. Foster reports that the construction work on the line of the Transcontinental is proceeding satisfactorily and that order is being well preserved.

The death occurred about four o'clock yesterday afternoon of Mrs. Margaret Vincent, relict of the late John Vincent. Mrs. Vincent was 73 years of age and death was chiefly due to old age. She lived in the city for a long time. Deceased is survived by four children. The funeral will be held from her residence, 125 Metcalfe Street, on Saturday afternoon at 2:30 o'clock.

Prentice Boys of the West End, North End, Fairville and Lorneville will hold a church parade on Sunday to the Church of the Good Shepherd, Fairville. The sermon will be preached by Rev. L. E. D. Reid. The boys will assemble in the rooms of the King Edward Lodge, Gilbert Street, W. E. at 1:30 o'clock. The Carleton Cornet Band will lead the parade.

There was talk of a game in the Inter-Society League this evening, but no match has been arranged. The league endeavored to bring an outside team here for tomorrow afternoon and evening, but no agreement could be made. It is quite certain that an outside team will play here Saturday and tomorrow afternoon, the St. Josephs and St. John the Baptists will meet. In the evening St. Peter's and St. Ross will play.

For unquestionable bargains in furniture, the sale to be commenced in M. R. A.'s Market Square building tomorrow offers some interior furnishings that are without doubt the finest in Eastern Canada. Scores of pieces of the most exclusive furniture are to be included in this grand bargain clearance and those who take advantage of the sale will secure more for their money than has ever before been possible in St. John. The advertisement in this issue tells the whole story.

John Jennings, who leaves today for Plaster Rock to work with the Transcontinental Railway, was dined by a number of his friends in the Metropolitan Hotel on Wednesday evening. Fred Fuller presented Mr. Jennings with an address and a fine set of pipes. The address told of the editor, in which the young man was held and the regret felt at his leaving the city. About fifty young people were present. Dancing was indulged in and the gathering broke up at an early hour Thursday morning. Mr. Jennings carries with him the best wishes for success from hosts of friends.

The Republican National convention was held in Chicago yesterday and Wm. H. Taft, of Ohio, was the unanimous choice of the convention as president of the United States. The convention session was an enthusiastic one and the vote taken as follows: "For Theodore Roosevelt, 3 votes; for Joseph B. Foraker, of Ohio, 18 votes; for Charles W. Fairbanks, of Indiana, 4 votes; for Joseph G. Cannon, of Illinois, 61 votes; for Robert La Follette of Wisconsin, 22 votes; for Charles E. Hughes, of New York, 52 votes; for Philander C. Knox, of Pennsylvania, 63 votes; and for William H. Taft, of Ohio, 702 votes."

The Canadian Geological Survey will undertake this year an examination of the mineral deposits in the vicinity of Bathurst. Dr. G. A. Young of Ottawa will be in charge of the party, which will consist of six or more members. Although there has been in other years geological work done in New Brunswick it has never previously been conducted on such an extensive scale. The deposits of iron and manganese near Bathurst have attracted much attention during the past year in Canadian mining circles, and it is likely that this year's work will consist of the examinations and mapping of this mineral region. One of the members of the party will be Dr. Douglas Trueman of this city.

The 52nd band have just received a number of new instruments, which will replace those burned in the recent fire in the Sutherland building on Union Street. The instruments are splendid and great credit is due to F. H. Jones, the bandmaster, for the prompt manner in which they were secured. The instruments were purchased from Hawkes and Son of London, England, through the Nordheimer Piano and Music Company, Ltd., with headquarters at Toronto. Following is a list of the instruments and fittings received: One F flute with leather case, 1 Bb cornet with wood case, 2 F and Eb tenor horns with cases, 1 Bb slide trombone with case, 1 pair Turkish cymbals, 1 snare and beater, 1 set of cymbal bells, 1 pair cymbals, 1 bass drum with sticks, brown leather carcase, 1 snare drum complete with cymbals and belt, 2 E2 circular basses, 1 triangle and tambourine, 1 leopard skin bass drummers apron, 6 sections A Z stands. All of the above are brand new instruments except the two saxophones. The 52nd band has now a membership of about thirty.

ANOTHER POSITION. Miss Leota Dixon, of North End, has been selected from the Employment Bureau of the Currie Business University to fill the position of stenographer for H. Horton and Son.

WILL O' THE WISP IS A SPLENDID PLAY. Miss Emerson and Her Company More Than Repeat Triumph of Monday

With the presentation of "His Majesty and the Maid," Miss Mary Emerson and her company gave St. John theatregoers a clean, wholesome play admirably staged and interpreted. With the performance of "Will O' the Wisp" at the Opera House last evening, Miss Emerson and her company excelled their achievement of the earlier half of the week, and that is saying something. "Will O' the Wisp" is a stronger play than the other. Moreover, it is written better and perhaps acted with greater finish.

In "Will O' the Wisp" the superstition is just touched upon, and does not form the main idea of the story. The plot concerns the fortunes of a young girl, Rose, played by Miss Emerson, who, with an old man, supposedly her grandfather, lives the life of a wanderer until she comes into her own. Rose, a girl of moods, is a character who seems eminently suited to the talents of Miss Emerson. In short this part, Miss Emerson is thoroughly at home. No better character could have been conceived to have won for Miss Emerson the enviable friendship and admiration of the theatregoers of St. John. Miss Emerson had excellent support. Mr. Young Rodin and Mr. Sylvester as Lord Rothwell were particularly good, as was also Mr. Roy as the Marquis of Lorne, whose quaint bits of humor pleased the audience immensely. There is a refined, sweet atmosphere about the play and a touch of good play, capably presented, who failed to see it last night should see it tonight.

DEGREES CONFERRED AT KINGS COLLEGE

Three St. John Law School Graduates Among Those Receiving Them

It was Encenia day at King's College, Windsor, yesterday, and the sermon was preached by the Rev. Dean Farthing, Dean of Ontario. In the afternoon, owing to the illness of Chancellor, Justice, Hodgson, D. C. L., the Rev. J. H. Reed, D. D., conferred the degrees upon the candidates, who were presented by the public orator, the Rev. Mr. Bambrick.

The following is the list of degrees conferred: Bachelor of Arts, A. B. Mudd, St. John; Rev. G. H. How, Toronto; G. E. Tobin, St. John; E. A. Bettis, Shelburne; W. R. Martell, Windsor; L. H. Martell, Louisburg; Miss Knowlton, St. John; J. E. F. Reed, St. John; A. C. Wilson, Sorinville; G. Bullock, Halifax; W. Morris, Shelburne. Bachelor of Science, W. C. Robert, Windsor.

Rev. S. Howard, B. A., St. John; J. P. Linnay, St. John; Rev. E. Parry, St. John; Rev. T. C. Duffness, maritainant 1890; P. C. Scott, M. A., Windsor (honoris causa).

The law students were presented by the dean of the St. John Law School, Dr. Silas Alward. In addition to the above the following degrees were also conferred: Master of Arts (in course), Rev. Henry deBols, M. A., (Oxon); Rev. H. W. Sangster, M. A., LL. D., (ad eundem); Rev. E. Parry, St. John; Rev. G. R. Martell, Windsor; Rev. Mr. Cady, B. A.; Doctor of Divinity (honoris causa), Rev. T. C. Duffness, maritainant 1890; Doctor of Civil Law (honoris causa), Chief Justice Township.

The very Rev. the dean of Nova Scotia, Geo. Farish, M. A., M. D., Liverpool. The president then announced that the following members of the university had died during the past year: Rev. T. C. Duffness, maritainant 1890; B. A. 1885, M. A. 1888; Edwin Gilpin (dean of Nova Scotia), maritainant 1887; B. A. 1874, M. A. 1876; H. Rev. T. Kingdon (Arthur of Fredericton), D. D. 1899; Rev. E. P. Cloutier, D. C. L. 1881; Hon. Arthur Peters, maritainant 1889.

Judge Forbes gave the annual oration which was very interesting and intensely listened to. The following announcements were made: Governor general's medal for highest average in graduating class—Won by W. C. Bober, Windsor; Atkin's historical prize—Won by Rev. E. B. Spurr, B. A.; The Binney exhibition—Stephen Joffrey, P. E. I.; The Almon-Welshford scholarship for 1899—Won by Hans Bober, Windsor.

The Stevenson scholarships (2), value \$60 a year for two years, open to all matriculated students in their second year—Won by L. A. Forsyth, Windsor, and M. K. Parrie, Auburn, N. S.; Bishop Binney response prize—This prize, which was founded by Mrs. Binney in memory of her husband, was late Bishop Binney, is given to the undergraduate who passes the best examination in response to a question by M. K. Parrie, Auburn, N. S.; Alumni prizes—Prizes given by the Alumni Association annually to be competed for by the pupils of the Collegiate School; \$40, senior boy—H. W. Jones, Halifax; \$20, junior boy—G. H. Morrison, Amherst; \$5, 1st class, French—H. W. Jones, Halifax; \$5, 1st class, mathematics—A. G. Lawson, Oak; \$5, 1st class, classics—H. W. Jones, Halifax; L. H. Martell, Louisburg, was class valedictorian, and his address was of

DEPENDENCE OF THE WORLD ON CARBON

There is one element in Nature on which the life of every living thing, whether plant or animal depends; that element is carbon. The work we do, indeed, every movement we make, is the result of energy stored up in the organism, the energy being proportionate to the amount of carbon consumed. In its free state carbon forms charcoal, coke, coal, blacklead, and diamond. In its combined state it is a necessary part of flesh, blood, bone, and sinews. It is the main constituent of plants, the percentage of other elements of which wood is built, and it is also the constant component of the four scarce elements—the union being called a compound—where forms of carbon, the "element of life."

PRIMARY MATERIALS. The physical world is made up of about eighty different substances, and carbon is one of them. These substances are the foundation stones, the primary materials or elements, of all matter, whether animate or inanimate. It is the union of two or more of these four scarce elements—the union being called a compound—where forms of carbon, the "element of life."

THE MAJOR PART. Everybody knows that coal has all been vegetable matter which one grew on the earth's surface. The lump of coal that we burn in our stoves, millions of years old. Its formation began with decomposition—the decomposition of the dead roots, stems, and leaves of plants under water, the result being the constitution of peat with its woody fibre, and containing from dried, about fifty per cent of carbon.

It is easy to picture the vegetable refuse of all general periods undergoing the same changes—first becoming peat, then lying for ages hidden underground, subjected to the action of water, and then, as a result of the new strata formed above it, the woody structure disappearing as the peat becomes bituminous. The carbon atoms, which are the major part of the average composition of a lump of coal (leaving out its residual ash when burnt) consists of eighty-four per cent of carbon, eight per cent of oxygen, five of hydrogen, two of sulphur, and one of nitrogen.

CARBONIC ACID. If a lump of coal burns on a brick fire, its carbon atoms, which are the major part of the average composition of a lump of coal (leaving out its residual ash when burnt) consists of eighty-four per cent of carbon, eight per cent of oxygen, five of hydrogen, two of sulphur, and one of nitrogen.

In the foregoing phenomena there is one atom of carbon linking itself to two atoms of oxygen, the product of the triple alliance being a molecule of carbonic acid gas. We can imagine this molecule taking its flight through the air, and a plant seizing upon it; breathing in the carbon for the growth of its tissues, and breathing out a great portion of the oxygen which is returned again to the atmosphere.

Instead of following the capture of the carbon atom by a plant or a high quality. The president, Rev. C. T. Boulden, M. A., D. C. L., reported the attendance at Kings this year was the largest in the history of the university, and the prospects even larger.

TWO REACTIONS. Instead of following the capture of the carbon atom by a plant or a high quality. The president, Rev. C. T. Boulden, M. A., D. C. L., reported the attendance at Kings this year was the largest in the history of the university, and the prospects even larger.

mineral, let us follow its effect in the production of iron and steel. Iron, from which the iron is derived, is a compound of iron and oxygen mixed with other substances, and is not so used in its natural state. Only when the oxygen is removed from it does the ironstone become iron. This is done in the blast furnace, where charcoal, or coke, is mixed with the ironstone and strongly heated. Two different reactions occur.

First, as air enters the furnace from beneath, the oxygen which it carries along with it burns some of the charcoal, or coke, to carbonic acid; the oxygen which is being withdrawn from the oxide of iron in the ironstone also helps the burning process. Second, as the carbonic acid gas escapes it has to pass through the red-hot fuel, and the fiery ordeal robs it of half its oxygen.

Having lost one of its oxygen atoms, the carbonic acid now becomes carbon monoxide, a gas composed of one atom of carbon and one of oxygen. This gas is most eager to combine with oxygen on the slightest provocation, and removes the oxygen from various metallic oxides when heated in the furnace, and so the desired result is achieved.

Iron thus made is called pig-iron, and contains a considerable quantity of carbon. Its conversion into steel necessitates the removal of more than half of its carbon, and the leaving of only a certain percentage of carbon in the product. This is done by blowing air into the melted pig-iron, and burning the whole of its carbon to carbonic acid. It is not possible to stop the sufficient carbon has been burnt out. But a change in the appearance of the burning is done indicates the exact point at which the last vestige of carbon is consumed. The air is then stopped, and sufficient carbon added to turn the molten, almost pure, iron in the vessel into steel.

WAGNER DIDN'T AMOUNT TO MUCH. FREDERICTON, N. B., June 18. — George Wagner, of Perth, Ont., Lame Corporeal in H. Company, R. O. R., stationed in this city, lasted only 2 minutes and 33 seconds with Dan Littlejohn in the flag contest of the Military Tournament in the Armory at the military depot tonight. The referee, John P. Power, of St. John, stopped the bout as Wagner was too groggy to continue.

The first round saw lots of nice boxing, the product being dug up as Wagner started leading, but Littlejohn got in the first good blow, a short left swing to the jaw. Then Wagner started sparring, and they again had a close exchange, followed by a lot of sparring at a distance. Dan sent in a couple of Wagner's jaw and body, just as the bell rang they came together, both hitting straight. Wagner's gloves did not land, but Littlejohn's did, and Wagner went with his corner looking about all in and with blood flowing from the nose.

In the one minute rest that followed Wagner received a lot, but that blow as the gong sounded was the telling one. He came back for the second round, but looking sick, and after some sparring of questionable value with more straight arm punches, and Wagner went down after his nose started bleeding freely again.

Before Power then stopped the bout and declared Littlejohn the winner. As the crowd of 500 people were filling out of the building the men came to the centre of the ring and shook hands. Littlejohn clearly showed his superiority over Wagner, although in the first round Wagner frequently did some pretty boxing that brought forth plaudits from his friends, but Littlejohn was the better man, and his physical condition was better, he being in the best shape of his long ring career. He had it at an angle side in action, also had the necessary punch, as he showed.

Wagner has a good record as a boxer, having defeated Elly Armstrong of Montreal, Harry Snelling at Quebec and others. His period of strict training lasted less than two weeks, however, and was apparently too short, where the men fought under the Marquis of Queensbury rules with clean break-aways, and Referee Power had no difficulty with the men whatever. Six-ounce gloves were used and in Littlejohn's corner were Billy Savage and P. O'Brien of St. John. Wagner's seconds were Sergt. Wm. Morris and Sergt. Butler, EX-Alderman Stockford acted as official time keeper. Littlejohn gave out his weight as 130, while Wagner said he weighed 133. A good programme of preliminary bouts were put on, the features being a round between Sergt. Butler and Private Belcher, the decision in which was given to the former, and a wrestling bout with Lance Corp. Dickinson and Pte. Kris as contestants, the former taking two falls from his man with bar holds and a half Nelson.

A WORD ABOUT SAVING!

The people who have so much money that they don't care whether or not a piece of furniture costs more in one store than another, are in the minority, while the vast majority are loathe to buy in the cheapest store. Come here and we can prove to you we sell the best Furniture, Carpets, Oilcloths, etc., at the lowest prices.

English Oilcloths at 25c, 30c, 35c and 40c per square yard. IRON AND BRASS BEDS from \$3.00 up. CHINA CLOSETS, BUFFETS, SIDEBOARDS, LEATHER SEAT DINING CHAIR

Amland Bros., Ltd. Furniture and Carpet Dealers, 19 Waterloo Street.

AMUSEMENTS THE Princess THEATRE. AMUSEMENTS LIMITED, Proprietors.
