PROGRESS.

THE DOCTORS' CAMPAIGN. the committee will report against the election of Dr. Walsh or any other of the quartette and that freedom will be granted HARRIES AGAINST HER FATHER'S the St. John and Nashwaak. FOUR PHYSICIANS IN HALIFAX CANVASS FOR A SNAP.

Two of Them Combined to Beat the Third—Whether They Could do so or Not is Open to Question—Some other Matters to Come up with It.

HALIFAX, Oct. 26.—There has been a ble in the Halifax district of the Intercolonial railway employes relief Association. It was over the election of a physician for the 300 members of the district at Andilax. A sad state of affairs, the Mscrumptuousness of medical com-petition, was unfolded at an investigation hich was held during some days last week, Four Halifax doctors were anxious to get the work of the district,—and four Halifax doctors lett no stone unturned to secure the prize. Here is the hard working quartette:

Dr. McKay. Dr. Walsh. Dr. Somers. Dr. Hawkins. The annual fee payable by each member of the district to the physician who is selected is \$2.50. That amount from, say, 300 members, amounts to a nice little pile at the . If the year. And the work to carn it is no very hard, for, possibly, only onethird of the members ever call upon the doctor for a visit, but he gets his \$2.50 all the same. So the plum was worth seeking. But at the same time it was hardly worth the efforts made by some of the doctors to get it. There is such a thing as going too far to attain an object. That is what some of the members of the district charge Dr. Walsh and Dr. Hawkins with having

but the doctors' "plan of campaign" has leaked out. The physician who obtains the majority of votes of the district received the appointment for one year on the terms canvassed for them. It is not necessary that the members should be present at the meeting, when the election takes place, to vote, as they might be on duty upon the cal candidate, and taken round among ture. On this document the men express their preference for the doctor they wish to receive the appointment. It seems that 1)r. McKay had the greatest number of names, his paper being signed by 120; Dr. Walsh came next with about 95; Dr. Hawkins had 50 names, or so; and Dr. mers had only some 25. That seemed like a sure thing for Dr. McKay, and his stock went up. But there is many a slip between the cup and the lip. Drs. Walsh and Hawkins joined their

forces, Hawkins agreeing to allow his name to go for Walsh. That would give Dr. Walsh 145 votes. But, supposing that in like manner Dr. Somers joined with McKay, then McKay would also have 145. A few scattering votes, unsigned, might then turn it either way. The Walsh-Hawkins coali-The proposal was that Hawkins pretences. The proposal was that Hawkins should attend the members who had signed for him, to all intents and purposes doing the work as a substitute for Walsh. Dr. Walsh would draw the whole salary and he would pay Hawkins for whatever calls the latter was required to make on the hasis of the work as a component to the compone the two principal candidates. That possibility never arose, for Somers' names did not see the light of the meeting. They were about some mysterious means suppressed till after the three papers had been counted up. and Walsh declared elected by his own men's and Hawkins' men's votes—Mc-Kay's 120 being beaten. The men stuck to

ed an investigation. It certainly looked fight took place in the to the general meeting of the I. C. R. em- in November. ployees relief association at Moncton, and after a discussion, an investigating committee was appointed. It was before that committee that the facts as near as possible to those stated above came out.

The committee of inquiry has finished its work and will report to the executive at The members who have made the fight and who were the means of exposing the methods of the ambitious and fee-seeking doctors, are in favor of having no specially engaged physician. They claim that the proper way is to allow the members of the district to call in any physician they please providing that physician has agreed to the association's scale of fees Many of the medical fraternity in Halifax will not accept that scale, on the ground that it is too low, the probabilities are that

members to accept the services of any doc-tor who will do the work for the prescribed

The committee also had under consideration some other peculiar methods which have been practised in the Halifax district.

FOR ABSOLUTE DIVORCE.

A Marysville Citizen Asks to be Freed from His Runaway Wife.

One of the cases that came before Judge Fraser ,in the court for divorce, on Tuesday last, at Fredericton, was that of Dennison vs Dennison of Marysville. The

hearing was postponed till a later date. the conduct of the husband.

The husband, Charles Dennison, married Miss Goodspeed, daughter of Thomas
Goodspeed of Penniac She was considered when he married her, as one of the most

himself of causing his wife to act as she has largely blessed with this world's goods.

Sometime after they were married they going astray.

Manzer frequented the Dennison homestead in the absence of the husband, and as it appears totally unknown to his (Manzer's) wife. So it went on for years. Parties told Dennison the facts but he was powerless to prevent their daily escapades

One morning, about two years since, it was evident that Mr. Manzer and Mrs. started out on their canvass, or their friends Dennison had disappeared. They were traced to Fredericton where it was learned that they had purchased tickets for Boston Dennison made no effort to bring back his erring wife but sent the little four-me railway at the time, and thus, unable to be old baby to his mother-in-law and with the in attendance, be deprived of their franchise.

So papers are prepared on behalf of each years, took up the burden of life and it will be said by all who have known him that he has looked after his motherless family very

Pretty Evenly Balanced.

the executive of last year at the Agriculturtook occasion to comment, somewhat bit-terly, upon the fact that there had been a considerable change in the directorate the society. He seemed to be under the impression that the "sporting element" of the organization was under some compliment to the Agricultural end of it. As a matter of fact had the speaker consulted the list of the new directorate he would probably have found just as many farmers as horsemen on it. Another interesting fact in connection with it is that the grant given by the government is entirely devoted to agricultural interests while the trotting park has always been more than self-sustaining.
