HOPE ABANDONED

Boston Advertiser: Hope has been practically abandoned for the safety of the four-masted Boston schooner, R. W. Hopkins, which sailed from Baltimore on March 30 for San Juan, P. R., with a cargo of coal and has not been heard from since. It is believed by some that an unidentified four-master which was seen to founder off Diamond Shoal Lightship during a gale on April 3 was the R. W. Hopkins. The latter should have been about in that position at the time. No clue to the identity of the unknown has been found. The missing schooner carried a crew of nine men. The R. W. Hopkins was built at Thomastown in 1896 and was 186 feet long and of 829 tons register. She was valued at about \$25,000.

ARRIVED WITH SUGAR

This School Girl Had Bad Fainting Spells

Was Weak and Run Down, but Dr. Chase's Nerve Food Made Complete Cure.

The most critical time in a girl's life comes during the school age, when she is impelled by rivalry to put forth her best efforts in studying for examinations. At the time she should have healthful outdoor exercise and abundance of fresh air, to keep the blood pure and rich, she is confined by her studies. Is it any wonder that she becomes run down in health and suffers from headaches, indigestion, loss of appetite and spells of weakness or fainting?

The case described in this letter is a good illustration and you can read here the splendid results of using Dr. Chase's Nerve Food to help through this critical period.

Mrs. H. Houston, Highland Grove, Ont., writes:

"While attending school my daughter became weak and very much run down. She was frequently troubled with bad fainting spells and nothing we tried seemed to do her any good. We were advised to try Dr. Chase's Nerve Food and did so with most sat-

isfactory results. I am pleased to tell you that after using five boxes of the Nerve Food she was completely cured and has no return of the fainting spells."

This statement is certified to by Mr. Hamilton Houston, Justice of the Peace.

The reason Dr. Chase's Nerve Food is so effective in cases of this kind is because of its extraordinary blood-forming influence. By creating an abundance of rich, red blood, it strengthens the action of the heart, revitalizes the exhausted nerves and builds up the system in every way.

The appetite is restored, digestion improves, you rest and sleep well, and the new vigor and energy is felt in every organ of the human body. Dr. Chase's Nerve Food is doing wonders for men, women and children whose systems have become weak and run down. 50 cents a box, for \$2.50, all dealers or Edmanston, Bates & Co., Limited, Toronto.

LONDON SUBURBAN STREET RY. MEN ON STRIKE FOR MORE PAY

London, May 16 (9.37 p.m.)—The London County Municipal Railway street car system is tied up by a strike of its men, who are demanding a fifteen per cent. war bonus, owing to the increased cost of living. The demand has been refused by the county council.

Only forty cars out of 1,500 are running. These are chiefly on the Woolwich Arsenal line. Great inconvenience in the southern section of the city is being caused by the strike.

RUM FOR AFRICA

Considerable rum must be consumed on the west coast of Africa judging from the fact that following the recent sailing from Boston of the schooner Orleans with 200,000 gallons, the four-masted schooner Charles Whittemore has also been engaged to load at Boston for west African ports with a full cargo of rum, tobacco and general merchandise.
