

DOM. GOVERNMENT HAS ESTABLISHED BIG TRADE CREDIT

Many Groups of Canadian Industries Have Organized for Export Trade.

Export trade credits to the value of \$150,000,000 have now been established by the Dominion Government.

Many groups of Canadian industries have organized for export trade, and an agreement has been reached between the Canadian Manufacturers' Association and the Federation of British Industries.

Since April 1, the Canadian Biscuit and Confectionery Export Company, Limited, has sold at least \$1,000,000 worth of confectionery to Great Britain.

A WOMAN IS AS OLD AS HER HAIR LOOKS

Unhealthy hair makes you look years older than you really are. Beautiful, fluffy hair makes you look years younger.

Women would do well to pay more attention to the hair. It is suggested that the scalp be kept perfectly clean and free from dandruff by means of regular shampoo and cleansing treatment with Parolan sage.

Parolan sage is a hair treatment which has been known to the profession for many years. From time to time specialists have attempted to improve on Parolan sage, but to the present day nothing has been found to take its place as a hair beautifier and healthful scalp treatment.

Parolan sage can now be secured in inexpensive form at good drug stores everywhere and most department stores with full directions for home use. This means that you can treat your own hair and scalp just as efficiently as a hair specialist would do it for you, and at a fraction of the expense.

Get a supply of Parolan sage (liquid form for home treatment) today and see the difference it makes in your appearance and in the health of your hair and scalp.

The Funniest Thing She Saw

"Well, Dorothy, what did you see in the country?" asked a father of his little five-year-old daughter who had just returned from a visit to her grandparents.

"Oh, lots of funny things," was the reply, "and the funniest of all was the hired man unmilking the cow."

Healthy, Happy Boys and Girls

Is your child healthy? Is he or she up to standard weight, of good color, with plenty of rich, red blood to nourish the growing tissues?

For children who are thin, pale, anemic, under weight, nervous, restless, sleepless, Dr. Chase's Nerve Food is of the greatest benefit imaginable.

Being mild and gentle in action, and yet wonderfully potent as a restorative, it soon makes the blood rich and builds up the feeble nerves.

50 cents a box, 6 for \$2.75, all druggists, or Eaton's, 55 St. John St., St. John, N. B.

Dr. Chase's Nerve Food

Red Cross Still Continues Work

Resignation of Lady Tilley Received With Much Regret—Meeting of Provincial Executive Held Yesterday—Soldiers Supplied With Comforts.

The resignation of Lady Tilley was most regretfully accepted at a meeting of the Executive Provincial Red Cross held yesterday afternoon in the Mayor's office.

The appointment of Miss Ethel Hazen as secretary was announced in her report Miss Jarvis read an appeal from Albert, N. B., for hospital supplies for the Governor McLaughlin Hospital.

The treasurer reported a balance in the funds. The secretary was asked to write a letter of thanks to the Board of School Trustees for the use of the Synagogue building as a storeroom.

C. B. Allan gave an account of the meeting of the Central Council at Winnipeg. The report of the hospital committee was read by Mrs. Frank Fulwath.

This showed that all industries were being benefited by the work of the Red Cross. The hospital committee was read by Mrs. Frank Fulwath.

There are now 43 patients at Lancaster; 25 at East St. John; 46 at River Glade. Ten patients were guests of the Red Cross at the Nina Morgan camp.

For the packing committee Mrs. E. T. Sturdee reported a large amount of clothing and supplies sent to Grenada. The resignation of Lady Tilley was most regretfully accepted.

Mrs. H. A. Powell reported that each five day the patients are sent home carrying soldiers or dependents. Lady Tilley's Farewell.

To the Chairman and Members of the Executive: Gentlemen—Over five years have elapsed since the beginning of the Great War and although the armistice was signed nearly twelve months ago peace has not yet come more with us, our war is a work which, of necessity, had to continue to a large extent for some time after the actual cessation of hostilities.

However, it is nearing its end, and the Central Council will meet early in the New Year to decide upon, and formulate a peace policy for the Canadian Red Cross Society and after this decision has been reached our New Brunswick Provincial Branch will meet again to consider what will be the aims and objects of the society in New Brunswick.

Whatever may be the future of the Red Cross in this province I know the work taken up will be well carried on. The records made by our branches during the years of war speak for themselves and represent indeed far more than mere money and supplies for underneath all was the unseen gift of service, which can never be estimated in concrete terms and this spirit will, I am sure, be ready to express itself in active endeavor when the need arises.

The time has come, however, when I must say farewell and give an active part in the work, and in presenting my resignation to you, as organizing president for the Province of New Brunswick, I want to express my appreciation for the support you have always given me in all my endeavors, and to thank you most sincerely for the hearty co-operation which means so much to the success of any effort.

The work has ever held for me the deepest and most heartfelt interest, and I shall always count it a privilege to have been able to help with the endeavors which brought comfort to so many thousands during the dark years of war.

Now that peace has come, the Red Cross will no doubt, still be needed for willing hands to do, and to those to whom will fall the task of carrying on this work, my heart will often turn with many a kindly thought, and sincere good wishes for their great success.

ALAN TILLEY, Late Organizing President. Mrs. Lawrence speaks very highly of Lady Tilley's work and hopes that she might be relieved of all care but still remain at the head of the Society. C. B. Allan moved that Lady Tilley's resignation be accepted, and that she remain Honorary President and a Life Member of the Executive.

Mrs. Kahring told of the prompt action and eager sympathy which Lady Tilley had shown in the work of the V. A. D. during the influenza epidemic. Lady Tilley asked that permission might be given her to name a special committee to act in emergencies. This was granted, and the following appointed: Mrs. John McAvity, from the Red Cross Society; Mrs. George F. Smith, representing the Victorian Order of Nurses; and Mrs. G. K. McLeod, of the St. John Ambulance Brigade.

A special resolution commending Lady Tilley on the part work, passed at the Central Council, was read. F. Myrland, editor of the Woodstock Sentinel, and Mrs. Myrland and guests of E. A. Young, West St. John.

IRON

WRONG WAY TO CHURCH UNITY

The Bishop of London's announcement—repeated in yesterday's Daily Express—was a surprise. It would, as from 1912, be ordained by Anglican bishops, in accord with a scheme for unity of the Churches, has been received with astonishment in Wesleyan circles.

"The whole Methodist world received the Bishop's statement with great surprise," said the Rev. Simpson Johnson, a former president of the Wesleyan Conference, to a Daily Express representative yesterday. "No body of ministers in the Wesleyan Church has been authorized to approach the bishop, neither has any responsible authority in Methodism made any overture in the direction suggested."

"We believe that a few Wesleyan ministers gave him informal and friendly conversations with a few Anglican dignitaries, but these conversations are altogether without authority from either church."

"What scheme the Bishop of London may have in his own mind, we cannot tell, but we are quite sure that this sudden and irresponsible expression of opinion is not likely to help forward the cause of Christian unity."

"The Wesleyan Methodist Church has its own view on questions such as ordination, confirmation and membership and the conference has never delegated to any person or persons the authority to approach the Anglican Church in the way that seems to be suggested by the Bishop of London's statement. The methods suggested would more likely create division than union."

"We are quite sure that the Bishop has no wish to create a deep cleavage in any church; much less would he desire to hinder at a time when all Christians should come into closer co-operation."

ACIDS IN STOMACH CAUSE INDIGESTION

Create Gas, Sourness and Pain How To Treat. Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, sourness, burning, gas, flatulence, nausea, etc., are due to an excess of hydrochloric acid in the stomach and not as some believe to a lack of digestive juices.

The delicate stomach lining is irritated, digestion is delayed and food enters, causing the disagreeable symptoms which every stomach sufferer knows so well. Artificial digestants are not needed in such cases and may do real harm. Try laying aside all digestive aids and instead get from any druggist a few ounces of Blurred Magnesia and take a teaspoonful in a quantity of warm water right after eating. This sweetens the stomach, prevents the formation of excess acid and there is no sourness, gas, pain, flatulence or indigestion.

Chloride in powder or tablet form—never liquid or milk—is harmless to the stomach, inexpensive to take and is the most efficient form of magnesia for stomach purposes. Used by thousands of people who enjoy their meals with no more fear of indigestion.

Blurred Magnesia is a natural mineral product, free from any harmful ingredients, and is the most reliable and most effective remedy for all cases of stomach trouble.

Blurred Magnesia is available in all drug stores and is sold in 10-cent and 25-cent packages.

Hebrew Women Plan For A Tag Day

Organized for Relief of Women and Children in Devastated Countries—The Ward Captains.

An organization meeting for the Tag Day to be held shortly for the relief of women and children in devastated countries was held last evening in the Jewish synagogue.

In the absence of the president, Mrs. Rudovitch, Mrs. Growlender acted as chairman. Mrs. L. Isaac was appointed general convener. Captains were selected for work as follows: Mrs. M. Marcus, Mrs. J. Goldman, Mrs. Sillman, Mrs. Cohen, Mrs. Jacobson, Mrs. Grosswiler, Mrs. Forelsky, Mrs. W. Webber, Mrs. D. Jacobson, Mrs. M. Jacobson, Mrs. J. Tanaman, Mrs. D. Basen, Mrs. I. Webber.

The following was appointed to the press committee: Mrs. M. Marcus and Mrs. S. K. Cohen.

LONDON TO HAVE STANDARD BOOTS

Scheme Launched by Federal Association of Boot and Shoe Manufacturers to Reduce High Cost.

Thanks to a national boot scheme launched by the Federated Association of Boot and Shoe Manufacturers, there will soon be on the market a serviceable man's boot at a standard price of 7s. 6d.

Mr. Gwan Parker, the president of the association, who imparted this information to a Daily Express representative yesterday, added the rather quibbling information, however, that even standard boot prices would probably be advanced before long.

The object of the manufacturers is to maintain a higher grade of reliability than was shown before the war, and to endeavor to regulate prices so that profiteering will be impossible. Action was taken because the Shoe Distributors' Association failed to come to any definite conclusion for the reduction of prices.

A NERVOUS BREAKDOWN

Miss Kelly Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Health.

Newark, N. J.—"For about three years I suffered from nervous breakdown and got so weak I could hardly stand and had headaches every day. I tried everything I could think of, and was under a physician's care for two years. A girl friend had used Lydia E. Pinkham's Vegetable Compound and she told me about it. From the first day I took it I began to feel better and now I am well and able to do most any kind of work. I have been recommending the Compound ever since and give you my permission to publish this letter."—Miss FLO KELLY, 478 So. 14th St., Newark, N. J.

The reason this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, was so successful in Miss Kelly's case was because it went to the root of her trouble, restored her to a normal healthy condition and as a result her nervousness disappeared.

Lydia E. Pinkham's Vegetable Compound is a natural mineral product, free from any harmful ingredients, and is the most reliable and most effective remedy for all cases of stomach trouble.

"SYRUP OF FIGS" CHILD'S LAXATIVE

Look at tongue! Remove poisons from stomach, liver and bowels.

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless laxative or purgative for the little stomach, liver and bowels.

Children love its delicious fruity taste. Full directions for child's use on each bottle. Give it without fear. Mother! You must say "California."

The grading of boots and shoes at fixed prices.

"It is said that our plan will destroy competition, but competition should be in the quality of the production rather than in the price," said Mr. Gwan Parker.

"Boots will bear the registered stamp of the association, price, and district of origin, with the manufacturer's identification number. Any complaint of inferiority of grade will be investigated by the association and the necessary steps taken."

Manufacturers have been instructed to proceed with the various grades, and some will be on the market in six weeks, but supplies in bulk cannot be guaranteed till the beginning of next year.

"Thirty to forty million pairs are to be turned out yearly, and all of them will be warranted all leather,"—London Express.

OBITUARY

Mrs. Emaline Lloyd. From her home at McDonald's Corner, in the early morning hours of October 15th, Mrs. Emaline Lloyd passed into the Great Beyond.

She was a daughter of the late Thomas E. McDonald, of McDonald's Point, and a sister of the late Mount McDonald, of St. John. Another brother, Dr. A. D. McDonald, of Hallsport, Mont., pre-deceased her by only a few months. Three sisters survive, Mrs. James Cox, Cambridge; Mrs. Harry Bealy, West St. John; and Mrs. John M. Wiley, of Fredericton.

Mrs. Lloyd was twice married, her first husband being David Gilchrist, of McDonald's Corner. All her children are living, Robert Gilchrist, with whom she made her home; Dr. W. R. Gilchrist, Dr. Harry A. Gilchrist, both of Calgary; Ernest J. Melchior, with the British Navy, who arrived in Montreal from overseas the day after his mother passed away; Dr. Wallace E. Lloyd, Chicago; Mrs. George Ross and Mrs. Harry Colwell, both of Vancouver.

Mrs. Lloyd's health had not been good for over twenty years, but she had a very keen mind and always took a great interest in affairs of church, community and country until the very last.

About a year ago she took a trip to the West to visit the sons in Calgary, and daughters in Vancouver. She was taken ill in Calgary in May but came well enough to come home in July, accompanied by one of her daughters.

Her health continued much the same until the last few days when she took a turn for the worse and passed quietly away on the morning of the 15th. She was a faithful friend and wonderful mother, and will be sincerely mourned.

Funeral services will be held at 10 o'clock on Saturday, October 18th, at the residence of her daughter, Mrs. Harry Bealy, West St. John. Burial in the cemetery.

IMPORTANT INDUSTRIAL NEWS FOR ALL CANADA

Lignite Utilization Board Hope to Have \$400,000 Plant in Operation Next Year.

In one of the most important industrial announcements in the history of Western Canada, Mr. R. A. Ross, Chairman of the Lignite Utilization Board, has declared that by August, 1920, the Board hopes to have a \$400,000 plant in operation, manufacturing briquettes from the lignite deposits of southwestern Saskatchewan and southwestern Manitoba. It is the intention of the Board to let all the contracts for construction and equipment during the coming winter. When completed the capacity of the plant will be 30,000 tons per year, and Mr. Ross believes that briquettes can be sold to dealers in Winnipeg at approximately \$9.40 a ton.

The decision to construct a \$400,000 plant is the result of extensive investigations and experiments initiated by the Honorary Council for Scientific and Industrial Research and later continued by the Lignite Utilization Board which was appointed jointly by the Dominion Government and the Governments of Saskatchewan and Manitoba to determine the commercial feasibility of utilizing the lignite of the Prairie Provinces as domestic fuel. It is now able to state that "our experiments have now reached the point where we have now a process for carbonizing and briquetting lignite which gives us a commercial product at a commercial price from lignite coal, practically equal in heating value to anthracite coal."

As long ago as June, 1917, a special committee of the Honorary Council for Scientific and Industrial Research reported that the necessary manufacturing processes had been carried out on a super-laboratory scale and "the feasibility on an industrial scale remains only to be demonstrated."

"The success of this project," declared the Honorary Chairman of the Council, declared, "is to be of great importance than the immediate objects of it. It will induce private and public to go into this enterprise, and eventually several plants may be erected which will supply the half a million tons that will be required to supply the anthracite hitherto imported in Manitoba and Saskatchewan from Pennsylvania, thus retaining in the country about five millions of dollars annually which are at present sent out of the country. It will blaze the path for the utilization not only of the 37 billions of tons of lignite of Saskatchewan, but also of the vast greater quantity of the better grade of this fuel in Alberta. It will eventually lead, eventually, to a process of utilization of the vast quantities of the by-products which result, by-products which now are not highly valuable in the years to come will be the raw materials of great and flourishing industries. Finally, it will constitute the first step in the systematic, scientific utilization of the vast stores of energy locked up in the lignite of two provinces which are, unlike the other provinces of the Dominion, scantily supplied with water power."

Gardner: "Yes, Master Jack, the birds are my enemies."

Master Jack: "I didn't know you was with an 'h.'"

Master Jack: "No more is it, sir; I'm with a 'h'."
