

# PEACE MAY BE SIGNED IN MONTH

## BOLSHEVIKI PLANNING WORLDWIDE REVOLUTION

### Would First Seize Control of Germany.

**PLACING SPARTACANS IN CONTROL.**  
(Special To The Record.)  
PARIS, April 11.—(By William Phillips Simms)—Confirmation of a bolshevik plan to seize Germany, as an initial step in a worldwide proletarian revolution, has been received in government circles here, it was announced today.

According to available information the bolshevik scheme is this: Spartacans, with the possible acquiescence of the present government, will assume administrative power in Germany during or immediately after the Versailles congress.

Once in control the Spartacans will greet allied demands with folded arms and a general attitude of "Do what you like but as far as we are concerned we will do nothing." Meaning they will refuse to pay indemnities or carry out any of the other peace terms.

The Spartacans thus hope to force the Allies to occupy Central Europe, which they believe would embitter the allied peoples against their governments. With the allied armies in the interior of Germany, the Spartacans would carry on an active propaganda to convert the troops to bolshevism. Confident of their success in this, the Spartacans believe the troops returning to their own countries, would carry the seeds of revolution into a solid made fertile by the miscarriage of the Allies' peace plans, combined with the general social unrest in the world.

Mesnil, an actual advance between the Russian and Hungarian soviet governments is being effected, according to official advice received here. M. Lenczeli, political representative of Premier Lenin is said to have arrived in Budapest. He is reported to have promised the Hungarian an army of 150,000 to aid them in strengthening their control of the country. Lenin, it is said, continues to counsel moderation for the Hungarians and advises them to avoid Russia's excesses. He hopes soon to establish physical communication with Hungary which is important at present, because of the fact that strong Rumanian and Czech-Slovak forces now form a barrier.

Lenine also is reliably reported to be making preparations to install bolshevism in Rumania and Bulgaria, thus directly linking Russia up with Hungary and Bavaria.

## Government Replies to the Postal Clerks

### CONTAINS CERTAIN ASSURANCES.

(Special To The Record.)  
OTTAWA, April 11.—An interim reply on certain points has been sent by the government to the postal clerks. It is understood that the gist of the government's case is that classification of the whole civil service is proceeding; that such a change will likely give the postal employees most of the things they are asking for; and that meanwhile the government can't step in themselves by anticipating, altering or ignoring the work of reclassification now in progress.

There seems to be some confusion as to how far the western postalmen were prepared to go. It was reported that they were determined upon a strike but some of their officials say that such was not their intention. Meanwhile the eastern men decided to cooperate with the western men in their demands and also talked of a strike. The situation remains obscure and unsettled.

## Dom. Railway Board Has Decision Ready

### MAY BE ANNOUNCED THIS AFTERNOON

(Special To The Record.)  
OTTAWA, April 11.—It is understood that the decision of the Board of Railway Commissioners, regarding Daylight Saving is in the hands of the government and that it will be announced in the house to-day.

The predictions are that the Board's decision is that it has no jurisdiction, although rural members might fear the Board's decision would be in favor of the new time.

Parliament itself, most authorities believe, could order the railways to revert to standard time. Whether or not it will attempt to take such a step is a matter of doubt.

## Munich is Surrounded and Wurtzburg Taken

### BY ANTI-SOVIET FORCES OF BAVARIA

(Special To The Record.)  
BERLIN, April 11.—(Frank J. Taylor)—Wurtzburg has been recaptured and Munich entirely surrounded by forces of the deposed socialist government, according to advices received here today.

After retreating from Nuremberg to Bamberg, Premier Hoffman of Bavaria and several of his ministers are reported to have succeeded in rallying a formidable anti-soviet army, consisting of soldiers, workmen and students. A large force retook Wurtzburg (140 miles northwest of Munich) from the bolsheviks after a brief encounter yesterday. Most of the soviet counter-attacks were repulsed.

Another force has surrounded Munich completely isolating it.

## Agreement Reached in Eastern Siberia

### GENERALS ARE TO WORK IN ACCORD

HARBIN, April 11.—It is announced in a newspaper controlled by General Semenov, published here, that complete agreement has been reached between General Semenov and General Ivanoff-Kinoff, representative of Admiral Kolesnik, head of Smush Government.

General Semenov, it is said, will be commander of the special far eastern corps and also headman of the far-eastern Cossacks, under the orders of General Ivanoff-Kinoff. General Semenov will be subordinate to Ligat, General Horvath, who will be in direct control of administration of Cossack territory in eastern Siberia.

The Omsk Government will provide funds for the maintenance of General Semenov's corps and General Semenov will mobilize his troops under government sanction, being allowed broad powers in enlisting volunteers.

General Kalmikoff, Cossack commander on the Ussuri River front, is going to the front with his own troops and part of these mobilized by General Semenov. As the result of the agreement between leaders, Trans-Baikal are on same basis as Cossacks.

## Result of Quebec Vote May Modify Federal Act

### MANUFACTURE IN PROVINCES WHERE SALE IS ALLOWED

(Special To The Record.)  
OTTAWA, April 11.—Ottawa is keenly interested in the results of the Quebec Beer and Wine vote. The result was as expected here.

It is almost certain that there will be some modification of the Prohibition orders-in-council, when they are transformed into legislation at this session.

There are those who think that the alcoholic content will be raised for the whole of Canada but a more careful opinion is that the manufacture of beer and wine will be permitted in those provinces where the sale is allowed.

The federal government does not deal with the sale but merely with the importation, manufacture and inter-provincial shipment. There is a recent precedent for the government in allowing manufacture where sale is permitted. In Ontario, under the O. T. A., the sale of native wines was not prohibited, and an exception in their favor was also made by the federal government, in the form of an extension of time in which they might be manufactured.

## German Austria is Affected by Bolshevism

### SMELTING PLANT DRIVES OUT MANAGER

VIENNA, April 11.—German Austria is coming under the influence of the establishment of soviet governments at Munich and Budapest.

At Donawitz, 100,000 workers in the iron smelting plants, have driven out the managers, because the latter have refused to grant increased wages.

## Ottawa Opinions of Industrial Relations

### COMMISSION'S PERSONNEL (Special to The Record)

OTTAWA, April 11.—What criticism there is on the personnel of the Industrial Relations Commission centres not in charges of partiality but in a general feeling that the personnel, although fairly good, is not as strong as had been hoped.

It is feared in many quarters that the execution of what undoubtedly is a big scheme and a high ideal on the part of Hon. J. Robertson, may fall much below the ideals. It is generally felt that the members including those representing the public are strong, taken on the whole, than the representatives of the employees but it is also felt that a board strong all around would have accomplished more in the end.

As for the Labor members, it is regretted that there is no representative of western labor opinion, which is presently in conflict with the east. It is feared that western workmen may begin with an antagonism to the commission, which it would have been wise to avoid. Western labor for example is not very fond of Tom Moore, president of the trades and Labor Congress who rightly has a seat on the commission, as head of the labor organization. It is thought, however, that the radical tendency of the west may receive expression through John W. Bruce, who is not as conservative as Mr. Moore.

"Memories, Memories!"  
"I see they are making shingles out of cement now."  
"Then I recall my wish to be a boy again."

## MAIN ISSUES ARE SETTLED BY THE PEACE CONFERENCE

### Peace May be Signed Three or Four Weeks Hence.

added they will be settled in two or three days. The German delegates will be summoned to Versailles within two or three weeks.

The British Premier, his secretary is quoted as saying, thinks that if the Allies agree as well as at present as during the war, the achievements of the peace conference will be lasting and numerous dangers, including bolshevism, will be avoided.

## Communist Government Set up in Munich

### PEOPLE'S COUNCIL HAS BEEN DISPERSED

COPENHAGEN, April 11.—The Council of People's Mandatories, which has been in control at Munich, has been dispersed by the communist government there, according to the Frankfurter Tagesspost of Nuremberg.

## President of Alliance Claims Boxes Stuffed

### IN CERTAIN MONTREAL DIVISIONS.

MONTREAL, April 11.—That the ballotboxes were stuffed in some sections of the city in yesterday's referendum is the accusation made by S.J. Carter, President of the Dominion Alliance. Mr. Carter says that over and above votes were cast by men who proclaimed themselves to be the owners of the names that were on the electoral lists but who in reality bore no such names and had no vote in the district.

Scrutineers could not be provided for all polls, said Mr. Carter. He said that the advocates of prohibition were not downhearted but that their hopes were not centered in Ottawa.

"Public opinion in all civilized countries he said, 'has already passed judgment on the liquor traffic and no matter what our temporary reverses may be, we know that our cause will triumph in time.'"

A meeting of the temperance campaign committee will be held tonight to discuss plans for the future.

Figures of votes are practically unchanged from night reports. Many districts are incomplete and figures contradictory. There is no doubt, however, that a majority of one hundred thousand was given for beer and wine.

## Wet Majority in Quebec Now Exceeds 100,000

### PROHIBITIONISTS TAKE COMFORT FROM VOTE

MONTREAL, April 11.—With a large number of distant points in the province to be heard from in the referendum yesterday in favor of light wines, cider and beer, jumped to 110,000 this morning and was expected to go higher.

The temperance element, which was inclined to be very downcast last night at the landslide, was this morning more cheerful. While the bone-dry prohibition aimed for has not been achieved, leading temperance advocates here pointed out that a substantial victory has nevertheless been secured, because the people yesterday showed unmistakably, they say, that they want "hard stuff" done away with.

The vote also means the abolition of bar, it is argued, as establishments securing licenses will have to provide seating accommodation for patrons.

## MITCHELL'S RIDING WENT DRY

MONTREAL, April 11.—It is of interest to note that Richmond county, which is represented in the legislature by Hon. Walter Mitchell, who fathered the referendum bill, voted "Dry" by a majority of 101.

## GENEVA TO BE SEAT OF LEAGUE OF NATIONS

BERLIN, April 11.—Geneva, Switzerland, has been chosen as seat of League of Nations according to an announcement here, at a meeting of the Commission of the League of Nations.

Ten sections of the covenant were considered and passed, and were considered and passed.

## Federal Legislation on Liquor Coming

### PROVINCIAL RIGHTS TO BE RECOGNIZED

OTTAWA, April 11.—Federal legislation on prohibition will be brought down in the House of Commons shortly after Easter and in the meanwhile the Government is considering the situation resulting from yesterday's vote in Quebec for beer and wine.

As things stand at present Dominion legislation by order in council prohibits the manufacture or importation of wine and beer in any province. It is understood that new Dominion legislation will make provision for provincial rights in this matter, giving provinces that desire the privilege of manufacturing or importing, but preventing such manufacture or importation in provinces that don't want it.

## Probe is Continued by Public Acts Committee

### TODAY IT TRACED SEIZED LIQUOR

TORONTO, April 11.—Difficultly experienced in securing a quorum for the meeting of the Public Accounts Committee of the legislature this morning and it was after 11 o'clock before Mr. J.F. Mowat resumed the stand.

The witness filed a copy of invoices of seized liquor sold to T.A. Woods and also a copy of amount stored in the standard warehouse during the operation of the O.T.A.

Replying to Mr. H.H. Dewar, Mr. Mowat said the copy of the amount in the warehouse was prepared from an account book in the department. This book was entered from memoranda supplied by the inspectors, who took in the goods.

Mr. Dewar mentioned 37 barrels seized at Guelph, all of which, with two exceptions, were sent to hospitals. These two barrels were entered as shipped to the O.A.C. Mr. Mowat could not explain this as he was not concerned with it in the course of his duty.

An entry of 15 barrels to the "Ontario Government Velleidito" was explained by J.L. Plaville to be amounts shipped to hospitals for the insane. It was explained that the license fee for each vendor was \$5.00.

## U. S. Ry. Wages List Also Applies to Canada

### CANADIAN RAILWAYS WILL PAY BIG SUM

(Special To The Record.)  
TORONTO, Ont., April 11.—The railways of Canada will need to pay big engineers, conductors and brakemen and other employees in the operating service, \$1,100,000 back pay, according to the new wage order of the U. S. Railway Administration, which automatically becomes operative on Canadian railways.

Last August the Railway Brotherhood in Canada agreed to the establishment of the Canadian Railway Adjustment Board. It is composed of the Vice-Presidents of the Railway Brotherhoods in Canada, and representatives of the railways in Canada. This board settles all disputes between the Canadian Railway War Board, which has the administration of the railways, and the employees in the operating department.

The chairman of this board is S. N. Berry, Vice-President of the Order of Railway Conductors, whose home is in Toronto.

Last August the Adjustment Board agreed that the increases granted by the U. S. Railway Administration should automatically apply to Canadian roads. The U. S. Admin-

## CABLE NEWS In Tabloid Form

### LIBERAL ELECTED IN HULL, ENGLAND

LONDON, April 11.—Commander Kenworthy, Liberal, was elected over his coalition rival, Lord Eustace Percy, in a parliamentary bye-election in Hull yesterday.

## MUNICH RELEASES ALL PRISONERS OF WAR

BERLIN, April 11.—The Munich revolutionary council has ordered the immediate release of all prisoners of war in Bavaria. The order frees thousands of Russian prisoners, including the Russian communist Axelrod.

## 25 PERSONS KILLED AT DUSSELDORF

COPENHAGEN, April 11.—In the new Spartacan outbreak at Dusseldorf yesterday, 25 persons were killed and 25 wounded, when government troops used machine guns on Spartacan demonstrators, so the Lokal Anzeiger of Berlin says.

## AMERICAN NATIONAL RAILWAYS GRANT INCREASES

WASHINGTON, April 11.—Train and engine-men on the lines of the National Railways today were granted another increase in wages by Director General Hines. The order affects more than 400,000 employees and the increases are retroactive in January 1. Claims of employees for time and pay for overtime in road service was left by a by-partisan board for decision.

## B. and N. Application Before Committee

### Re Renewal of Charter for Proposed Line to Elora

The application of the B. and N. Railway for an extension of the franchise for a line between Bridgeport and Elora was before the private bills committee of the Legislature this afternoon. Notification was received yesterday through Mr. C. H. Mills, M. P. P., that it would come before the committee to-day. Accordingly the representatives of the interested parties, Mr. W. H. Breit, haupt of the Company and Aldermen Sass and Greb of the City Council, left this morning to attend the hearing.

A resolution from the Council of the Board of Trade had also been forwarded to the Committee, urging a clause in the charter requiring the road to be constructed immediately and also one guaranteeing against any big financial claims should the charter be taken over by any other railway.

London, Ontario, has secured the Canadian branch of a big motor truck company located in Michigan. They went after it and succeeded.

The coming of this company to London and that of the F. W. D. in this city show what can be accomplished through public spiritedness.

## German Aerial Post—A sailor helps to load up while the pilot gets ready. This, the first Hun aerial post, runs from Berlin to Weimar, where the National Assembly sits.

## German Austria is Affected by Bolshevism

### SMELTING PLANT DRIVES OUT MANAGER

VIENNA, April 11.—German Austria is coming under the influence of the establishment of soviet governments at Munich and Budapest.

At Donawitz, 100,000 workers in the iron smelting plants, have driven out the managers, because the latter have refused to grant increased wages.

### SMELTING PLANT DRIVES OUT MANAGER

VIENNA, April 11.—German Austria is coming under the influence of the establishment of soviet governments at Munich and Budapest.

At Donawitz, 100,000 workers in the iron smelting plants, have driven out the managers, because the latter have refused to grant increased wages.

### COMMISSION'S PERSONNEL (Special to The Record)

OTTAWA, April 11.—What criticism there is on the personnel of the Industrial Relations Commission centres not in charges of partiality but in a general feeling that the personnel, although fairly good, is not as strong as had been hoped.

It is feared in many quarters that the execution of what undoubtedly is a big scheme and a high ideal on the part of Hon. J. Robertson, may fall much below the ideals. It is generally felt that the members including those representing the public are strong, taken on the whole, than the representatives of the employees but it is also felt that a board strong all around would have accomplished more in the end.

As for the Labor members, it is regretted that there is no representative of western labor opinion, which is presently in conflict with the east. It is feared that western workmen may begin with an antagonism to the commission, which it would have been wise to avoid. Western labor for example is not very fond of Tom Moore, president of the trades and Labor Congress who rightly has a seat on the commission, as head of the labor organization. It is thought, however, that the radical tendency of the west may receive expression through John W. Bruce, who is not as conservative as Mr. Moore.

"Memories, Memories!"  
"I see they are making shingles out of cement now."  
"Then I recall my wish to be a boy again."

## Communism Government Set up in Munich

### PEOPLE'S COUNCIL HAS BEEN DISPERSED

COPENHAGEN, April 11.—The Council of People's Mandatories, which has been in control at Munich, has been dispersed by the communist government there, according to the Frankfurter Tagesspost of Nuremberg.

## President of Alliance Claims Boxes Stuffed

### IN CERTAIN MONTREAL DIVISIONS.

MONTREAL, April 11.—That the ballotboxes were stuffed in some sections of the city in yesterday's referendum is the accusation made by S.J. Carter, President of the Dominion Alliance. Mr. Carter says that over and above votes were cast by men who proclaimed themselves to be the owners of the names that were on the electoral lists but who in reality bore no such names and had no vote in the district.

Scrutineers could not be provided for all polls, said Mr. Carter. He said that the advocates of prohibition were not downhearted but that their hopes were not centered in Ottawa.

"Public opinion in all civilized countries he said, 'has already passed judgment on the liquor traffic and no matter what our temporary reverses may be, we know that our cause will triumph in time.'"

A meeting of the temperance campaign committee will be held tonight to discuss plans for the future.

Figures of votes are practically unchanged from night reports. Many districts are incomplete and figures contradictory. There is no doubt, however, that a majority of one hundred thousand was given for beer and wine.

## Wet Majority in Quebec Now Exceeds 100,000

### PROHIBITIONISTS TAKE COMFORT FROM VOTE

MONTREAL, April 11.—With a large number of distant points in the province to be heard from in the referendum yesterday in favor of light wines, cider and beer, jumped to 110,000 this morning and was expected to go higher.

The temperance element, which was inclined to be very downcast last night at the landslide, was this morning more cheerful. While the bone-dry prohibition aimed for has not been achieved, leading temperance advocates here pointed out that a substantial victory has nevertheless been secured, because the people yesterday showed unmistakably, they say, that they want "hard stuff" done away with.

The vote also means the abolition of bar, it is argued, as establishments securing licenses will have to provide seating accommodation for patrons.

## MITCHELL'S RIDING WENT DRY

MONTREAL, April 11.—It is of interest to note that Richmond county, which is represented in the legislature by Hon. Walter Mitchell, who fathered the referendum bill, voted "Dry" by a majority of 101.

## GENEVA TO BE SEAT OF LEAGUE OF NATIONS

BERLIN, April 11.—Geneva, Switzerland, has been chosen as seat of League of Nations according to an announcement here, at a meeting of the Commission of the League of Nations.

Ten sections of the covenant were considered and passed, and were considered and passed.
