D 61759

Tell them that all Canada is united in support of the determination of the Allied Nations to drive the enemy from the soil of France.

Tell them we are not less united in the determination to destroy the power of Germany to terrorize Europe, and to end, once and for all, Germany's capacity to disturb the peace of the world. Tell them that we are with them heart and soul, in those days of suffering and sacrifice, but tell them to fight on, for we are confident the day is drawing near when we shall be sharing with them their joys and triumphs in the supreme hour of victory.
