

II. MINERALOGICAL NOTES.—*Continued.*

Sphalerite, from Olden tp., Frontenac co., Ont.	17
Eardley tp., Wright co., Que.	17
Steatite, from Brigend brook, Whyecoonagh bay, Inverness co., N.S.	17
Stephanite, from the Montana, and the M. and M. claims, on the west side of Windy arm, Tagish lake, Ykn.	18
Stibnite, from a quartz vein at the southeast end of Chilco lake, B.C.	18
Talc, from Ireland tp., Megantic co., Que.	18
Vesuvianite, from Charley cove, Frye island, Charlotte co., N.B.	18

III.—COALS AND LIGNITES.

Lignite, from the vicinity of Roche Percée, Souris river, Sask.	18
— from tp. 63, on or near Towtinow river, about eighteen miles south- southwest of Athabaska Landing, Alta.	20
— from Kneeshills creek, Red Deer river, Alta.	20
— from a seam on Coal creek, Yukon river, Ykn.	21
Lignitic coal, from a seam near Roche Percée, Souris river, Sask.	21
— from a seam on Ruby creek, Indian river, Ykn.	22
— from tunnel on the Jackson seam on Quilchena creek, Nicola lake, Yale dist., B.C.	23
Coal, from a seam on the north fork of the Oldman river, Alta.	23
— from a seam at the head of Snow creek, between Panther and Red Deer rivers, Alta.	24
— from Miller's workings on the Lewes river	24
— from Nicola valley, B.C.	25, 26
— from seams on branches of Pine river (south), a tributary of Peace river, B.C.	27, 28, 29
Anthracite coal, from Sheep creek, close on line between sections 19 and 30, tp. 19, range V, west of the fifth initial meridian, Alta.	30
— from the Canmore mine, Alta.	31, 32
— from a seam on the east branch of Kananaskis river, Alta.	32
— from, and from below, the Costigan seam, Panther river, Alta.	33, 34
Semi-anthracite, from C. P. R. tunnels, Cascade mountain, Alta.	34
— from a seam on the south branch of Sheep creek, Alta.	35
— from seams on the Panther river, Alta.	36
— from lower seam on Goat creek, Skeena river, B.C.	37

IV.—LIMESTONES AND DOLOMITES.—

Limestone, from a deposit east of South pond, Aspy bay, Victoria co., N.S.	38
— from a deposit at Dewar hill, Pugwash harbour, Cumberland co., N.S.	38
— from a deposit east of Brookfield station, Colechester co., N.S.	39
— from Ste. Anne des Plaines, Terrebonne co., Que.	39
— from Litchfield tp., Pontiac co., Que.	40
— from Philipsburg, Missisquoi co., Que.	40
— from Barriefield, Frontenac co., Ont.	41
— from Marble cove, Texada island, Strait of Georgia, B.C.	41
Dolomite, from Faraday tp., Hastings co., Ont.	42

V.—IRON ORES.—

Clay iron-stone, from section 17, tp. 10, range XXI, west of the fourth initial meridian, Alta.	43
— from Collin gulch, Tulameen river, Yale dist., B.C.	44
Bog-iron ore, from deposits at and between Upper Musquodoboit and Fal rivers, Halifax co., N.S.
