### SIMPLE DISEASE SIMPLE REMED

Cockburn Island Lady Tells How Sh Cured Her Stomach Troubles b Using Dodd's Dyspepsia Tablets.

How many people are simply "trou-bled with their stomachs." They hardly recognize their complaint un-der the pretentious title of Dyspep-sia, but they do know beyond a doubt that they have hours of discomfort and that the stomach is the cause. To those the experience of Mrs. B. S. Rombough, Cockburn Island, Ont, She says:

S. Rombough, Cockburn Island, Ont. She says:

"I was troubled terribly with my stomach, I got some of Dudd's Dyspepsia Tablets and they did me good. I think they are a good Tablet, and I would recommend them to all who are troubled with their stomach."

Now that is a simple statement regarding a simple remedy for a simple trouble. It simply tells all who have stomach troubles that they can find relief in Dodd's Dyspepsia Tablets.

What Pleases a Man.

Generally apeaking, a man likes to be told he is handsome, whether he is or not. He likes to be told he has small feet. This is a tip for wives. There is more virtue in a pair of tight shoes in keeping a man at home in the evening than in all the Ten Commandments. It pleases a man to be asked for advice. You don't need to take it. Most men have advice to give away, and they are always willing to bestow it on women gratis. It pleases a man for a woman to depend on him. This is the reason why many foolish girls can get two bushands apiece, while strong minded women remain eld maids.—Woman's Life.

THAT PALE, TIRED GIRL.

She is in society, in business, at home, everywhere you see her, but always worn and fatigued. She has not heard of Ferrozone or she would be perfectly well. How quickly it strengthens — what an appetite it gives—what a glow it brings to pal-lid. cheeks! The nutriment contained in Ferrozone puts strength into any, body. Laughing eyes, rosy ltps, and bright, quick movements all tell of the vitality Ferrozone produces. Thousands of attractive, happy women ase Ferrozone—why not you? A box of fifty chocolate coated tablets costs fifty cents at any drug stores.

Mother Goes to Trial.

MISS\*GERTRUDE BERG.

Miss Gertrude Berg of Philadelphia, secretary of the Philadelphia section of the National Council of Jewish Women and one of the charter members of the organization, is an energetic wo man whose name stands as a synonym for the advancement of Jewish women not only in Philadelphia, but throughout America.

With Mrs. S. B. Fleisher Miss Berg brought the Jewish women, who are essentially home loving and not club loving women, into the council, which aims to promote religious, philanthrop-ic and educational interests. To her influence more than to any other is due the fact that the council has become united with the Pennsylvania State Federation of Women's Clubs. Yet it is not upon the council alone

ears ago, from Savannah, Ga., at once entered into the personal service work conducted by Rev. Dr. Joseph Krauskopf in the foreign quarters of the city and in this way learned for herself the needs of the city. Then she became interested in building up the Young Women's union, whose head quarters are at 428 Bainbridge street.
As president of this union Miss Berg
at present is more closely associated
with its work than of any other organization. All classes of the people of
the slums, from the worst boys brought
before the juvenile court to the delicate girls whose lives are spent in
cigar factories, receive her personal
attention and have learned to love her.
In the winter she is a frequent visitor. In the winter she is a frequent visitor at the Kindergarten and Day Nursery

spent at La Grange, the beautiful va-cation home for Jewish working girls maintained by the Young Women's unmaintained by the Young Women's union at Sixty-first street and Kingsessing avenue during July and August.
Here working girls, without regard to
sect, may spend their two weeks' vacation and receive all the benefits of
farm life. One may find Miss Berg at
this home at almost any time when it
is open entering heartily into the plans
for the entertainment of the girls.
Miss Berg is also second vice president of the Home of Delight and secretary of the Ladles of the United Hebrew Charities.—Philadelphia Ledger.

That diet has a very direct and important effect upon the complexion is a fact which few people seem to be aware of or to which, at any rate, they pay very little attention. It has been said that women will do almost everything to attain clear and lovely complexions. A long experience has, however, we have the state of the complexion of the complexion

which is made by many is to imagine that wrinkles, sallow skins, "muddy" complexions or eruptions of various kinds can be entirely cured by local applications. This idea is as erroneous as the one held by many people that cosmetic preparations of every kind are injurious. The cosmetic treatment is frequently a very useful and necessary adjunct to internal treatment, and the sweeping condemnation of all cresms, obtiments, powders, etc., for the skin indulged in by the so called "antifrivolous" section of society is hissed on as much ignorance and want of common sense as is shown by the indiscriminate advocates of enamels, "skin peeling" lottons and other injurious preparations.

In the skin hospitals local applications for the skin affectious are very largely used, but dietetic reform is always insisted upon, for undoubtelly a large proportion of eruptive diseases and discolorations which come before skin doctors are due to improper diet and are the result of complete ignorance of the dietetic laws of health.

Leandry Economy.

Laundry Economy.

All women have not grasped the fact that clothing but little soiled, even when more abundant, is easier to launder than that which loudly proclaims its need of sonp and water. It lasts longer too, because it does not require such rough handling. This is the argument used by a young housewife who amagine the tablecloths as often as they

need it and never uses napkins but e cloth over for spots and carefully moves them with clear warm water and a soft cloth. This means that the cloth must remain on the table be-tween meals, a thing she does not mind, as the dining room can be shut away, and time and laber are saved, no trifle in consideration of the fact that she does all her own work save the washing, says the Philadelphia Bulletin. The napkins she does herself, save the last batch that goes into the family wash. It is easy to wash and iron these small pieces, even though there are several of them; and the young woman declares that she is more than repaid by the comfort of absolute-ly fresh napkins at each meal.

A SUCCESSFUL HORSEMAN

Never allows his horse to suffer Never allows his horse to suffer pain. He always uses Nerviline, which is noted for curing stiffness, rheamatism, swellings and strains. Nerviline is just as good inside as outside. For cramps, colic, and internal pain it's a perfect marvel. In the good racing stables Nerviline is always used,—because it makes better horses and smaller veterinary bills. Twenty-five cents buys a large bottle of Nerviline. Try it.

DEAFNESS CANNOT BE CURED.

By local applications, as they cannot reach the diseased portion of the car. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

Take Hall's Family Pills for constipation.

Birds, their heads being small, are usually regarded as stupid, but an amateur naturalist has pointed out a proof that the oriole at least is very intelligent. Take the oriole's habitat in the summer, be said, and all around it you will find the decapitated bodies of bees. The oriole is fend of honey, and he has discovered somehow that the bee cardiscovered somehow that the bee carries honey in a sac. Accordingly he
rushes down on the insect, snips off its
head, removes its viscera and then
swallows the honey that is now laid
bare. This shows intelligence on the
oricle's part, but I have not yet described the thing which shows the
bird's reasoning power most strongly.
It is the stingless male white headed
bees that the oriole slays. The stinging bee he leaves alone wisely.

Nature has just one pigment on her pallette with which she produces all the marvellous tinte of beauty, and that one pigment is the blood. The shell-like pink beneath the finger nails, the delicate rose of the cheek, the cherry ripeness of the lips, the irridescent brilliance of the lips, the irridescent brilliance of the vess are all produced by the blood. Just as the permanence of a beautiful painting will depend upon the purity of the colors with which it is painted, so the permanence of beauty depends on the parity of the blood. Paint, powder and cosmetice won't avail to preserve beauty. Beauty begins in the blood. Dr. Pierce's Golden Medical Discovery is a true beautifier, because it provides for nature that pure blood with which alone she can paint. The use of this medicine will cleanse the skin, heighten the complexion, brighten the eyes, and give to face and form that radiance of health which is the greatest charm of beauty. Dr. Pierce's Pleasant Pellets are very effective in ridding the system of clegging residuum, which accumulates with constipated habit.

The aged spinster wonders what can be the disposition of the girl who raves over a man's love expréssions.

AN ATTRACTIVE SETTLE.

How You May Make One From Any Old Wooden Bedstend. An attractive and serviceable settle,

An attractive and serviceable settle, one that will be useful either in the house, on the lawn or on a deep porch, can be made from a discarded wooden bedstead, as shown in the illustration. On the plazza it is especially effective as a fine old fashioned settle. To construct one is easy, and any old bedstead will do—the older the better.

The headboard and posts make the back to the settle. The foot posts,

minus the board, complete the four legs. These are joined by cleats on which rests the seat. The width of the seat is made to fancy, twelve to sixteen inches. The sides of the bed-stead are fitted for the arms to the setstead are nitted for the arms to the set-tle, although it is not necessary to have them. The settles made from grand-mother's bed will not need staining or painting. Those of later date need a dressing to be attractive.
