GOSSIP.

Messrs. Henry Stevens & Sons, Laona, N. Y., send us the following report of recent official butter tests made by Holstein-Friesians at their Brookside farms:—We have recently closed a seven-day butter test of thirteen head, ten 2-year-olds, two 3-year-olds and one 5-year-old. As this test was conducted on two different farms, Prof. H. H. Wing kindly sent to conduct the test, Mr. M. M. Underdown and Gilbert M. Tucker, Jr. While our animals made no phenomenal records, we think, as a whole, they made a very creditable showing. The lowest test made by any of the 2-year-olds heifers was 11.1 lbs., this by a heifer less than 23 months old. The highest test made by a 2-year-old was 16½ lbs. Nine 2-year-olds made an average of 50 lbs. milk per day for seven days, and over 13 lbs. butter in seven days. Three 2-year-olds averaged over 55 lbs. milk per day for seven days, and 14.72 lbs. butter in seven days. The youngest of these ten heifers was 1 year 10 months 24 days old, and the oldest was 2 years 2 months 18 days, and their average age was 2 years 1 month 2 days. The two 3-year-olds in this test, at an average age of 3 years 2 months, made, respectively, 15.36 lbs. and 15.09 lbs., and the 5-year-old made 14.35 lbs. We now have in our herd over 50 animals that have made official butter records; among them are the three largest tests that have ever yet been made. The herd contains 200 registered animals.

J. H. JULL & SON'S OXFORD DOWNS.
Mr. J. H. Jull & Sons, of Mount Vernon, Ont., have rapidly sprung into prominence as importers and breeders of high-class Oxford Down sheep. They have now a flock of over 150 head in all, more than half of which are breeding ewes.

The firm may be found at the Toronto Fair again this fall with a complete class of splendidly gotten-up sheep, among which are a few of the Royal Counties 1st-prize winners. Among their most recent importations they have some exceptionally choice shearlings and lambs, well matured and as well fitted up; strong in type and character.

The present crop of lambs is the result of the employment of the 1st- and 2nd-prize rams at Toronto last fall. Among them are a lot of top-performing, strong, typical lambs, well covered with a very uniform quality of wool.

The firm have upwards of a dozen shearing rams and over 30 ram lambs among their offerings this season. Those requiring Oxford sires will do well to visit Messrs. Jull's pens at the Toronto Exhibition. Note their offerings in another column.

F. BONNYCASTLE & SON'S SHORTHORNS, COTSWOLDS, AND BERKSHIRES, AT CAMPBELLFORD, ONT.

When in Northumberland County the writer visited the above named firm and was shown over the herds and flocks. It will be remembered that Mr. Bonnycastle launched out by purchasing the foundation of his present herd of Shorthorns in 1878, from the late F. W. W. of Guelph, in the selection of Anchovy 2nd, by Airdrie 8th 1328, and out of Anchovy (imp.), from the herd of J. A. Mumford, Brill House, England, a straight Bates-bred cow by Second Duke of Claro (21576), and out of Alahambria, Duchess, tracing to Queen of Spain and Inquity.

Anchovy 2nd proved herself a highly profitable investment for her owner, even in face of the fact that she took a long time to tempt her owner to part with her, as she was known to belong to a prolific, lusty tribe, carrying Short-horn character of no mean value, and possessing excellent milking qualities.

At a more recent date, and at the dispersion sale of the late Robert Cockburn, Messrs. Bonnycastle again selected a member of the favorite Cruickshank Cella tribe, from which they have been able to retain a few of the most select produce. This tribe originated in the famous Sittlyton herd, which is now so eagerly sought after in Shorthorn circles. From these two tribes the extensive herd of 40 odd females at Campbellford sprung.

The Messrs. Bonnycastle have always exercised much caution in the selection of their bulls, and have drawn from the leading thick-fleshed Scotch families, the first selected being Prince of Northumberland 8553, by Prince of Florence, and out of Cecelia 4th (imp.), by Gladstone, who headed the herd for four years and left the strong, thick-fleshed qualities peculiar to his strong Scotch ancestry, the impression of which still remain in much of the younger stock. Then for three seasons Walcott Duke 17780, by the imported Cruickshank bull, Premier Earl, and out of Minnie March, did valuable service, leaving a lot of useful red and rich roan things to be bred to the Duchess of Gloster bull, Redman 21765, by Imp. Toffthills, and out of Canadian Duchess of Gloster 26, by Lord Abbot (imp.), which followed for three more seasons, doing excellent service. Redman was a dark red bull of large proportions, true in the Duchess of Gloster type, strong in character, and a sire of excellent females, a number of which the firm have on hand.

The present stock bull is Prince George 28973, a good representative of the present popular Miss Ramsden tribe, a race as equally noted for their hardy profligence as the Anchovy, a tribe rich in popular Scotch blood and full of size and quality, and to Prince George the firm give the credit of producing the most uniform and thrifty lot of calves they have ever reared, having good length and depth of body, and all well covered with a glossy coat of dark red and roan hair.

The firm have, as their ad. shows, a choice lot of bull calves under a year, a few heifer calves, yearling heifers and cows in their prime.

In Cotswold sheep the firm have been breeding to a specific type, with due regard to fleece and conformation, with the result that a sample of wool was selected for exhibition at the Paris Exhibition this year, and pronounced by the Commissioner as very excellent in length and quality. Descendants of imported sires have figured conspicuously in this flock for several generations, and this year the firm are open to price anything among the 20 odd ewes and their crop of lambs, also three shearing rams now on hand.

Their Berkshire herd contains the blood of such strains as Baron Lee and Enterprise, and are true in type and quality. Note the firm's offerings.
