Pots containing flowers should be washed as often as any mould or fungus growth appears.

Young grafts that have made a good growth should be pruned now lest the winds may tear them from the stock. It will be advisable to cut two-thirds of them away, leaving one-third, which will not offer much obstruction to the winds.

If onions are once frozen they should be kept so until the Spring, when they will thaw out all right. Keep them in the barn in a dry, cool place, and if a thaw occurs, cover them with straw or hay. If they become thawed, remove them to a cellar and do not permit them to freeze again.

In cold weather, or in a cool place, cheese will keep without material change for months, but in warm weather or in a warm place they ripen more rapidly, and from a ripe state pass into that of decay. Many persons do not understand that under certain circumstances cheese is a perishable article as much as milk is.

The annual meeting of the Western Ontario Dairymen's Association will be held in Stratford, on 2nd, 3rd, 4th and 5th February.

The election of efficers of agricultural societies takes place on the third Wednesday of January.

Something Good for Threshers

WILLIAM HACCERT,

Bathurst St., London, Ont.

Makes a specialty of manufacturing Circular Saw Mills to suit threshing engines, capable of cut ting from 3,000 to 8,000 feet of lumber per day; also 10, 12, 14 and 16 horse-power Pertable Threshing Engines, with return flues, boiler and locomotive fire box, acknowledged to be the strongest, most durable and economical boiler made. Engine and Mill complete from \$1,200.00 to \$1,600.00. Engines up to 40 horse-power made to order.

WM. HAGGERT, London.

The following is what MR. HAGUE says about the "BELL" ORGAN:

the "BELL" ORGAN:

To J. Hecher, Esq., Agent for Bell's Celebrated Organs at Montreal.

Dear Sir,—In handing your cheque in payment or the Bell Cabinet Organ I puchased from you, I cannot but say that the instrument is of a style and quality which I did not suppose capable of being produced in Canada, the tone is pure, rich and deep, and the effects that can be produced by combination of the stops are charming.

Messrs. Bell & Co are to be congratulated on their success in developing the manufacture to such an extent as is manifest in the instrument you have sent me.

you have sent me.

Wishing them large and remunerative sales,

I remain yours truly,
Signed,
General Manager Merchant's Bank of Canada.
Montreal, January 24th, 1879.

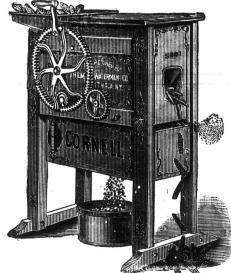

W. Bell & Co.

41-47 E. MARKET SQ.,

GUELPH;

CORNELL'S CORN SHELLER.

1st Prize, Western Fair, 1880

Reasons Why Every Farmer

Should shell his corn wita a CORNELL CORN SHELLER

All Corn sold in the ear entails a loss to the producer. In selling corn in the ear it is sold at 70 lbs. to the bushel. In selling shelled corn it is sold at 56 lbs. to the bushel. The weight of a bushel of cobs after shelling is about 11 lbs., showing a clear loss of 3 lbs. on every bushel of corn sold in the ear, showing clearly every farmer who has 1,000 bushels of corn to sell makes about 3 000 lbs by shelling. Also saving the cost of 3,000 lbs. by shelling. Also saving the cost of hauling the cobs, no small item, when they are given away, and in localities where fuel is scarce it is said the cobs will pay for the labor of shelling. Try it. Weigh a bushel of corn and you will become convinced.

For sale by The Canadian Agricultural Emporium, 360 Richmond Street, London, Ont., Canada.

The Great Fat Steer, "DOMINION CHAMPION," which took Special Prize of \$50 at Provincial Fair, Hamilton, 1880, for "best fat ox, steer, cow or heifer," was fed on

THORLEY CATTLE FOOD by Mr. John Russell, Brougham, Ontario; is a pure white, a picture in himself, is 4 years old, weighs 2850 lbs., and is sold for the handsome sum of \$550, to be taken to England, where we doubtless shall hear more of him, inasmuch as competent judges at "Canada's Great Fair," Toronto, pronounced him the best steer in America. This steer also took four other prizes this year, amounting to \$75 amounting to \$75.

Messrs F. Murdoch, Elora; J. & W. Watt, Salem; J. S. Armstrong, Eramosa, exhibited handsome fat animals, all fed on Thorley Food, each taking first prize in its respective class.

each taking first prize in its respective class.

Messrs. Watt, Salem, also exhibited Durham Bull Calf, and Thomas Guy, Oshawa, exhibited Ayrshire Bull Calf, fed on Thorley Food, each being awarded first prize in its class at Toronto and Hamilton. Space will not permit us to name many other animals fed on Thorley Food, which took first prizes at Toronto and Hamilton. For sale in all principal places. Please ask for circular, Manufactured at 48 John street south, Hamilton, Ont.

WASHBURN & MOEN MFG.
