

London Coiled Spring Steel Wire

NOTHING BETTER ON EARTH. Have you ever tried No. 12 gauge London Coiled Spring Steel Wire? Thirty-four feet in one pound, yet much stronger than a common No. 9 wire. It makes a strong and durable fence at a little over half the usual cost. If you have never used it before, try it, but be sure you get "London" tin-tags.

Why Turn a Crank

when we can supply you with Balled Wire for weaving at less extra money than the value of the time required to wind it? When you buy "London" Balled Wire you know the quality is right—it is made for the purpose—strong and tough, also well and smoothly galvanized.

London Steel Gates

ARE BEST ON EARTH. Their corners are not flattened in bending; the center supports or bars are held secure from slipping by a malleable casting of special form clamped on. "London" Gates are cross-braced, making them more rigid and firm, and are coated with paint specially prepared for preserving the metal from corroding.

All Large Size London Gates Have Two Braces.

LONDON FENCE MACHINE CO., LTD., LONDON, CANADA.

This Eccentric Wheel

for driving the Binding Attachment, is used only on the

FROST & WOOD NO. 3 BINDER.

This device produces:

- 1st. Power to bind tight and save twine.
- 2nd. Speed to quickly discharge and return the needle, to prevent clogging in a heavy harvest.

It, therefore, equalizes the otherwise unequal strains of binding and discharging, and makes light draft, a prime requisite in a binder to every farmer who places value on his teams.

Our Catalogue F illustrates the No. 3 in detail. Every farmer should have our handy memo. book also; it's free.

BRANCHES: **THE Frost & Wood Company LIMITED.** Montreal, Que.; Winnipeg, Man.; Toronto, Ont.; London, Ont.; Quebec, Que.; St. John, N. B.; Truro, N. S.

HEAD OFFICE AND WORKS: SMITH'S FALLS, ONT.

Binder Twine

BLUE RIBBON,	650 feet per pound
RED CAP,	600 " " "
TIGER,	550 " " "
GOLDEN CROWN,	500 " " "
STANDARD,	500 " " "
SISAL,	500 " " "

Blue Ribbon is no doubt the Queen of Binder Twine. It runs six hundred and fifty feet to the pound, and is manufactured from most select Manila Fibre. Six hundred and fifty feet Twine is the only Twine manufactured entirely from Manila Fibre. Dealers should be aware of so-called "Manila" Twines which are advertised to measure less than 650 feet to the pound. They are mixed Twines. Write for Samples.

ARNDT TREE PROTECTOR

(BRASS BAND.)

SIMPLE, EFFECTIVE, INEXPENSIVE.

Absolutely the most positive preventive against all creeping and crawling insects. It will save the trees. Save time and labor. Save money.

This simple brass band is patented and put upon the market as pre-eminently the very best and surest device yet invented for preventing the encroachment of all creeping and climbing insects. It is made of brass, does not corrode or rust, does not take an expert to place on a tree, and when once on overcomes all the difficulties met with by other methods of tree protecting, and lasts for years. No chemicals used. The Arndt Tree Protector comes in coils of twenty (20) feet, neatly and securely packed in boxes, with brass fasteners and cotton wadding, and with full directions for using on each box.
