YOU GET ALL THE CREAM

from your milk only when your separator runs freely and smoothly. This depends as much upon the oil you use to lubricate the separator as upon the separator itself.

STANDARD HAND SEPARATOR OIL

is the one oil you can depend upon to keep your separator in the best running condition.

Standard Hand Separator Oil feeds freely into the closest bearings. It also has just the consistency or "body" needed to reduce friction between the delicately balanced parts to the lowest possible point.

Standard Hand Separator Oil never gums, never rusts, never corrodes. Your separator will pay better and last longer if you use it.

Ask your dealer for Standard Hand Separator Oil. One gallon cans.
