

## P. & O. ENGINE GANG PLOWS

THE STRONGEST AND HEAVIEST MADE

We are the Pioneer Manufacturers of Engine Gang Plows. We have had the experience necessary to build plows that meet the demands of the exacting farmers of today.

### P. & O. Mogul Engine Gang

Five Sizes—  
5, 6, 8, 10 and  
12 Furrow

One of the leading plow men in the country said: "We have been up against the plow game; we have tried them all, but the Mogul is a little the 'sickest' yet." The Mogul is the latest and best, with new features not found on any others. Platform is level; levers lunched in the center, saving half the walking. Self-castering gauge wheels and rolling coulters which do not interfere with each other. Simple and strong.

### P. & O. Senior Engine Gang

Four Sizes: 3, 4, 5 and 6 Bottoms

The plow we have been making for years, the plow that is still doing business while other plows, weaker than ours, were strained or pulled to pieces long ago.

### P. & O. Disc Engine Gangs

Three Sizes; 4, 5 and 6 furrow. The simplest, strongest and best disc plows made.

Write for our pamphlet on Traction Engine Plowing. It fully describes the P. & O. Plows and gives valuable information as to the capacity of the different sizes, etc. To get this particular pamphlet, ask for Catalog No. 156

as a fruit-growing country. Peaches, pears, apricots, grapes and similar fruits do exceedingly well in some parts, while the citrus fruits flourish in others. Lack of a convenient market appears to be the only obstacle in the way of large and profitable production.

The following figures, quoted from an Argentine government publication, will give some idea of the growth of the export trade:

	Wheat (Bush.)	Flour (Tons)	Bran (Tons)
1899 ...	63,000,000	39,464	78,890
1908 ...	135,000,000	113,500	208,309
	Frozen Beef (Tons)	Frozen Mutton (Tons)	Other Meats.
1899 ...	9,079	56,627	3,322
1908 ...	180,814	78,846	14,008

#### ARGENTINE EXPORTS

The total exports in 1908 were valued at \$366,005,341, or more than double what they were in 1889. About \$10,000,000 represents the value of dye woods and sundries, the balance being for animal and agricultural products.

The area devoted to wheat culture was doubled between 1900 and 1908, when it comprised about fifteen million acres. The same ratio of increase applies to the total cultivated area.

Live stock in Argentine, census of 1908:

Horned cattle	29,116,625
Sheep	67,211,758
Horses	7,531,376
Mules	465,037
Swine	1,403,591
Goats	3,945,086
Asses	285,088

Farming operations are conducted on a large scale, some of the estancias comprising nearly 100,000 acres.

In the list of countries to which produce is exported, Great Britain stands at the head, with over 20 per cent. to her credit. Belgium is next, taking 15 per cent., followed by France, Brazil and the United States, in the order named.

The population of the Argentine in 1908, according to the National Demographic Bureau, was 6,489,023, having increased from 3,954,911 in 1895.

Arrival of immigrants in the Argentine Republic, 1857-1908:

Years.	Number.
1857-1860	20,000
1861-1870	159,570
1871-1880	260,613
1881-1890	846,568
1891-1900	648,326
1901-1908	1,243,379

Total. . . . . 3,178,456

Nationalities:	
Italians	1,799,423
Spaniards	795,243
French	188,316
Austrians	53,250
Britons	42,765
Germans	40,655
Swiss	28,344
Belgians	20,668
Others	209,792

Total. . . . . 3,178,456

Arrivals in 1908:	
Spaniards	125,497
Italians	93,479
Syrians	9,111
Russians	8,560
French	3,823
Austrians	2,551
Germans	2,469
Portuguese	2,083
Britons	1,879
Hungarians	934
Swiss	655
Brazilians	626
Danes	463
North Americans	341
Others	3,229

Total. . . . . 255,710

These figures show that the tide of immigration to the Argentine is very similar in point of numbers to that which comes to Canada, but we have the advantage in the matter of nationalities.

The preponderance of Spaniards and Italians in the population explains why the dairy industry has not prospered. The exports are less now than they were in 1902, and amount to about 3,000 tons of butter a year.

I do not see any probability of the Argentine becoming a serious competitor of Canada in the dairy markets.

J. A. RUDDICK.

## A Ripping Good Patent to Prevent Ripping

THE

## PATENT RIPPLESS GLOVE

IS POSITIVELY GUARANTEED NOT TO RIP

Stylish Comfortable Durable

Always looks neat on the hand. Always easy to wear and work in, because it has no inseams to hurt the hand.

Will outwear three ordinary gloves, because the finger tips are protected by extra pieces of leather, concealing the seams and **PROTECTING THE STITCHING.**

The nearest ever made to an everlasting glove.

The only practical working glove ever made.
