3,000 Pounds Pull Will Not Hurt This Hose

This remarkable strength is due to the outer armor of interlocking metal spirals. It also withstands a crushing load of 300 to 800 lbs. to each four turns of the armor.

JM METALLIC HOSE

is really "two hose in one" In addition to this metal armor there is an inner lining of high grade rubber which can be renewed at very small cost.

This hose is positively pressure-tight under all conditions. It can not kink, buckle, crack or leak. It withstands more rough handling than any other hose made.
