HAVANA, March 6.-The first armed ising against the new Cuban repuboccurred last night within a little ore than six weeks after the inauation of General Gomes, How serithe movement is it is impossible letermine at present, all that is wn being that a sergeant of the al guard stationed at the town of ltas, in Santa Clara province, with party of seven men, some other r members of the rural guard, and number of peasants took to the ds and that the troops are in active suit. While the movement apparis unimportant numerically, all cations point to the fact that it is of a widespread conspiracy, the ire of which is indicated by a dis received here this afternoon ch stated that a special train ying a detachment of the rural rd under command of Major Gen Monteagudo was proceeding as kly as possible for Vueltas. News the rising reached the palace this rnoon, when, according to the first unt, it appeared that a sergeand seven of the rural guards had inied and deserted Vueltas. Later an official statewas given out to the effect that eant Contes and seven men had ted an insurrectionary movement, motive for which, it was officially lared, was the refusal of the gov-

captain in the regular army. esident Gomez declared his inten of instantly suppressing the upng and making an example of all erned. He ordered the rapid conration of troops in the vicinity of ltas for the purpose of surroundthe fugitives. Orders were issued the troops to take no prisoners if encountered resistance and not to the pursuit until all had been d or captured.

GOVERNMENT DECIDES TO DEVOTE \$465,000 MORE TO WORK OF DREDGING

Supplementary Estimates MME. EAMES WAS Tabled in the Commons Yesterday

They Total \$3,521,935-Over \$100,000 for Harbors and Rivers

\$500,000 Asked to Meet This Year's Deficit on the I.C.R.

OTTAWA, March 15 .- The supplementary estimates for the curent fiscal year, totalling \$3,521,935, were tabled in the commons today. They cover items unprovided for in the estimates passed last sesion and are about one and one-half million smaller than similar estimates brought down at the close of the last fiscal year. Of the total amount \$2,997,183 is chargable to consolidated fund account and \$285,-876 to capital account.

the new Civil Service Act are responsible for a considerable portion of additional amount required to meet expenses of current year. The new items of expenditure provided for in the estimates include \$25,000 to cover additional cost of debates of parliament consequent upon unusual length of last session; \$170,000 for pay and al-lowances in militia department and \$105,000 for annual drill lat year: \$40,-000 extra for additions and alterations parliament buildings,\$100,740 for harbors and rivers in Quebec; \$27,195 in Nova Scotia \$18295 in New Brunswick and \$309,074 in Ontario, \$465,000 for dredging, \$215,000 for the teonstruction of an ice breaking steamer in the Northumberland Strait and \$40,000 to expenses of seed grain distribution

To pay expenses of W. L. Mac-Kenzie King, M. F., as representative of Canada at the joint opium conference at Shanghai, China, the sum of \$5,500 is asked. To meet the expense of Judge Cassels investigation of the Marine and Fisheries Department, \$40,000 is required, and the sum of \$500,000 additional is asked to meet this year's deficit on the Intercolonial rail-

The total actual expenditure for the current year will, of course, not be known even approximately until Mr. Fielding makes his budget speech. The expenditure will, however, be less than last session, since owing to the lateness of the season when the public works estimates were put through many of the works contemplated had to be deferred and estimates this year contain a large portion of re-votes.

PLANS APPARATUS TO DISPERSE FOGS

French Engineer Uses Hertzian Waves of 40,000 Voltage Power

PARIS, Mar. 15.-M. Dibos, a French engineer, is conducting a series of ex-periments on the English channel, which have given rise to the hope that New York harbor may ultimately be kept free of fog. Attracted by the English experiments for dissipating fog by means of electrical discharges, Dibos conceived the idea of a combination of Hertzian waves. Beneath a powerful plant, which mits waves of 40,000 velts, he placed

four huge blowpipes directed to the four points of the compass. Simultaneously with the discharge of the Hertzian waves the blowpipes, each giving a temperature of 2000 degrees centigrade, were lighted. In from 20 minutes a thick fog was dispersed

over a zone of 200 yards.

Dispatches from Chicage, where de Gogorza and Mme. Eames are now appearing, say that Mme. Esmes is ill and will not receive callers. Both singers are stopping at the Auditorium Hotel.

The hearing was held before Alderman J. V. McMasters, and the charge was assault and bettery with intent to commit a serious offense. Mrs. Doyle is a widow. She had been employed as a clerk in the stores of John M. Roberts & Son Company. On the afternoon of Marché last, she said, the defendant entitled her to a room on the third floor, turned off the electric light and attacked her.

Mrs. Doyle said the defendant had afraid of losing her position.

"My company," he said, " will comorise about 5000 amateur actors and ctresses. The Oxford pageant was the largest held in this country before. At Quebec last year I had neary 5000 people. But this one will, I think, establish a world's record." Counting the members of local comnittees and the 5000 women who are making the costumes the number of people actively interested in the pageint is over 12,000. Mr. Lascelles described how the 5000

performers will be rehearsed. Augustine's arrival in Britain, leaders of groups will be chosen. Say there will be 500 or 600 actual performers. Ffteen of them will be group leaders, heading parties of bishops, monks, courtiers and fishermen. It is these eaders that I shall first instruct, taking them to the ground and showing them the movements of their parties, their entrances and exits. Then they will return to their districts and instruct their followers. By this system shall not need more than five rehearsals of the whole army of performers, two for perfecting concerted movements and three dress rehearsals. Mistakes at rehearsals I shall be able to correct by shouting through a giant megaphone.

"At the actual performance I shall e perched, unseen by the audience, in a little box upon the top of the grandstand. At Quebec I controlled the entrances and exits of the host of players by means of forty-two telephones. In this case I shall probably need more In a grand finale, which will take place after darkness has fallen, the whole o the 5000 people will be massed to gether to sing the Te Deum, the scene being illuminated by thirty powerful searchlights. This should be a memorable spectacle."

Rector Presented With Gold Watch-Mrs. Raymond Also Remembered

The services in connection with the 25th anniversary of Rev. Dr. Raymond as pastor of St. Mary's church were brought to a close last evening with an enjoyable reunion of the church members. Before the evening closed Dr. Raymond was made the recipient of a gold watch, while Mrs. Raymond was also remembered.

His lordship Bishop Richardson acted as chairman of the meeting. During his remarks he lauded Dr. Raymond for his ever zealous labors in connection with his church and also with the Anglican denomination. He referred to the popularity of Dr. Raymond and hoped that he would be long spared to continue his success. On the platform with his lordship

MORAL REFORM

Subject of Discussion in Queen Square Church-Three Great Evils

In Queen Square church last night the Rev. H. S. Magee, field secretary of the Moral Reform Council of the Methodist Church in Canada, talked interestingly of the progress of the movement. He emphasized most strongly the great need of a more vigorous policy of social reform and exorted its immediate prosecution as the most important factor in the development of Canada's national life. Mr. Magee spoke more particular of the three vices which he believed were chiefly inimical to the country's

welfare. These were intemperance, gambling and prostitution. Speaking of intemperance, Mr. Magee stated that it was easily and away the most formidable curse to be met with. Its elimination, however, was merely a matter of time. The British house of peers, or of beers as it was ometimes called, had decided to throw out the licensing act, but the great house of the nation's brain and brawn was not done with temperance legislation, and the day would come as surely as the sun rises and sets when the liquor fraffic would be banished from

the civilized world. Gambling the reverend gentleman regarded as a vice second only in its effect to that of intemperance. The effort of Gov. Hughes of New York in stamping out the evil merited general appreciation, but the whole people must first become imbued with the magnitude and influence of the vice before lasting reforms may be attempt-
