The Planet

S. STEPHENSON Proprietor.

THE GLOBE'S POLITICAL METHODS

H. H. Cook, ex-M. Pasent the forlowing letter to The Globe for inseriton, but The Gobe refused to put it in. The representative of Mr. Cook then offered to pay for its insertion at regular advertising rates, but this was also declined by Mr. Willison, editor-in-chief, who said the proposition was "most insolent beyond expression. The World then published

the letter as follows: Biffor World: The undersigned desires to return his heartfelt thanks to the many members of the Liberal parthe many members of the Liberal par-ty who have written him endorsing his course in exposing the treachers to Liberal principles of which the pre-sent government has been guilty, and he desires to say that, inasmuch as it is not possible for him to acknowledge is not possible for him to acknowledge is not possible for him to acknowledge the many the receipt of each one of the many the receipt of letters so received, he hundreds of letters so received, he takes this means of doing so.

H. H. Cook. Oct. 26, 1900.

THAT PORK FACTORY.

The brilliant genius who grinds out editorial slush for our lecal cotem, says regarding Ald. Stephens' blocking the pork factory scheme, that The Planet attempts to falsify the circumstances", and proceeds to prove it in this way. The Banner alleges that the Panet stated that Alderman Stephens' reported that "The project was outside the jurisdiction of the council." The report really read, the Banner says, "without the jurisdiction of the council" Now if the brilliant genius aforesaid wil kindly explain the difference in meaning of the two statements he will enlighten the hundred and forty-two readers of that journal whose intellects must be

worked up in trying to fathom what he is driving at. What the Planet stated regarding Ald. Stephens' action in that matter was perfectly correct. The only in correct statement we notice in connection with the matter is where the Banner says that Mayor Smith "even promised that the city should pay John Granly 8300 to canvas for steek. The statement is absolutely and whol ly unriue and shows how political articles for the Banner are prepared in a hap-hazard way by persons quite ig-

norant of the real facts. Mayor Smith staged his plan in open council not proposing or mentioning anybody in consection with it. John Grandy read the council report, as everybody else did, in the Planet. As a result he sent in his application to the council, asking to be appointed seanvasser. His application was filed away without being considered, beon A'd. Stephens' red tape report the factory scheme was killed. Owners of vacant houses in Chatham will realize all they have to thank Ald.

APPEALING TO RACE PREJUDICE.

Speaking at St. John's on October 10th Mr. Tarte said: "You have two parties before you. One thinks we should have at Ottawa a Prime Minister who is English. We think the contrary. We have a French-Canadian Prime Minister, and I believe we are better represented than we have ever been.". This is but an example of the way Liberals are appealing for support in the Province of Quebec. That is the way Liberal politicians talk to the electors and the Liberal newspapers are just as bad, For instance, take the following from the French Liberal paper, L'Etoile, published at Three Rivers, Que., in support of the Government. L'Etoile

"Canada, the larger portion of whose population is French-Canadian, is presided over by a French-Canadian Catholic. Leave things as they are; do not, through rancour, envy or jealousy, wish to replace this French-Canadian by an Englishman, an Orangeman. Have our compatriots of the Opposition so little of the spirit of patriotism as to Imagine an English Tory more in keeping at the head of affairs than a French-Canadian Liberal ? It is not necessary to consider only if the Government is Liberal, or if it is Conservative. These qualifications should not count."

Now, if Sir Wilfridskaurier is the best man for Premier he should be chosen as Premier, but he should not have the place simply because he is a French-Canadian. Neither should the Conservative leader be chosen simply because he speaks English. We should not consider race questions at all in making a choice. We should be influenced only by the record of the two parties. The fact that the Liberals deem it necessary to make such appeals to race prejudice shows that they must be afraid to simply trust to their record for support.

Think of a man of 80 delivering three lengthy speeches in 24 hours yet that is what Sir Charles propose to do this week. He will speak in Windsor Monday night, in Chatha Tuesday morning and in London Tuesday evening. He's a wonderful old

"Want of Watchfulness Makes a Thief."

Many cases of poor health come from want of watchfulness. But if you keep your blood pure no thief can steal your health.

The one effective natural blood purifier is Hood's Sarsaparilla. It never

impure Blood—"My wife suffered with pain and distress from an affection of the throat caused by impure blood. She was almost in despair when she turned to Hood's Sarsaparilla. Six bottles of this medicine completely cured her." John Weckmar, Galt, Ont.

WECKMAR, Galt, Ont.

Scrofula — "Hood's Sarsaparilla has cured me of scrofula. I was weak and debilitated but it made me strong and well. After a severe cold had catarrhal fever. Again resorted to this medicine and it cured me." Sarah E. Deroy, Annapolis, N. S. Hood's Sarsaparilla

Never Disappoints

LAME EXCUSES FOR HIGH PRICES

We are keeping our friend the Binner busy these days making excuses for the advance of the necessaries of life. It can't be denied that prices are higher, so it proceeds to give some lame explanations. Here are some of

Currants are higher, it says, because the crop in Greece is a failure. Ral ins in Spain, it alleges, have gone up in sympathy with currants in

Tin cans of biscuits have gone up because tin has advanced fifty per

cent. The Banner doesn't exactly say why tin has advanced further than to remark that it comes from Wales, and we suppose that reason will have to

Brooms are higher because the Il linois broom corn crop was a comparative failure, and Chicago speculators cornered the market.

Canned salmon is higher because the fish catch was short and also in sympathy with the rise in tin and lumber Tin and lumber are also to blame according to the Banner, for the advance in other canned goods.

It will be noticed that nothing i said about sugar, coal oil, tobacco, and a number of other articles which The Planet mentioned in its list.

Then in cotton goods the Binner ex plains the advance by saying the cotton crop was a failure.

Table oilcloths have advanced as a result of the increase in raw cotton. It will be seen from the above that the blessed aggregation at Ottawa who misgovern this country have had nothing to do with the vastly increased cost of living. Providence, accord-

NERVE FOOD

If you have neuralgia, Scott's emulsion of cod-liver oil will feed the nerve that is crying for food-it is hungry-and set your whole body going again, in a way to satisfy nerve and brain with your usual food.

That is cure. If you are nervous and irritable, you may only need more fat to cushion your nervesyou are probably thin-and Scott's emulsion of cod-liver

oil will give you the fat, to begin with. Cure, so far as it goes. Full cure is getting the fat your need from usual food, and Scott's emulsion will help you

We'll send you a little to try, if you like. SCOTT & BOWNE, Chemists, Toronto.

Cook's Cotton Root Compound aggist for Cook's tures, pills and other, as all Mixtures, pills and dangerous. Frice, No. 1, 51 per degrees stronger, 55 per bux. No. 1 per degrees stronger, 55 per bux. No. 1 per degree of price and two 3-cent of receipt of price and two 3-cent of receipt of price and two 3-cent of per degree of the per degree of t

SIGN OF THE BIG CLOCK

ing to the Banner view of it, is wholly blame. But for the country's alleged prosperity the credit is all Lauier's. Poor Providence doesn't come in on that side of the game at all.

Is it a crime to speak French in his country?

The policy of the Laurierites is to bonus the iron kings and tax the sugar users.

What will Mr. Tarte say when he learns that Ald. Stephens and his managers refused to allow a French-Can-adian to speak in French.

A Landon speaker calls attention to he fact that Premier Laurier was the first in the Queen's jubilee procession and the last to send a contingent to South Africa: () ()

If it had not been for Ald! Stephens Chatham might now have had a pork factory in operation employing several hundred hands. Rev. Dr. Battisby, who is taking

more or less interest in this election in Ald. Stephens' favor, should have been present at Fletcher to help D. J. O'Keeffe out with his appeal to Qatholics to vote for a Catholic premier Leather is up nearly a hundred per-

cent and yet the Banner seriously gives the public ex-Ald. Cowan's statement that shoes are cheaper than ever. It is very funny. But the people who buy the shoes know.

Another prominent dissident in the eastern end of Nova Scotia is Rev. Donald Sutherland, for many years leader of the Liberals in Cape Breton county, who is now supporting Sir Charles Tupper.

The Laurier Government puts us in mind of the verse in the bible which tells of a certain person who came to curse and behold he blessed. They went into office to smash monopolies and curb the railroad corporations, and now they are owned by them, body

The Banner claims credit for Ald. stephens saving the city \$300 and osing it a pork factory through red instrument were a pocketknife and a tapeism. When there was to be a grant for a blow-out or jamboree Ald: Stephens' saving propensities were not apparent. Three hundred dollars for a celebration would have gone through flying, but \$300 for a pork factory could not be thought of, especially when the project was Mayor Smith's.

At the Dover Centre Reform meetng Mr. Kerr claimed credit for Hon. Sydney Fisher for establishing an Atantic cold storage system. Mr. Kerr is really behind the times. He should piece of that kind. "A boy twelve read up politics. Even the Banner had Mr. Fisher's own statement disboon to the farmers. The most he himself takes credit for is improving

George R. Hawkins, of Secley's Bay, Ont., writes a lengthy letter to the Brockville Recorder in which in says: "I, sir, have been a Reformer from my first vote, which I polled 18 years ago, and an admirer of true Reform principles, but when it comes to supporting a party guilty of such jobbery and corruption as the above combination (Tarte, Blair and Sifton) has been guilty of, then I am not with

The Government at Washington has prepared a report showing that workingmen in cities now make \$1.06, where formerly they only made \$1. The Montreal Witness thinks the same figures would apply to Canada. For the sake of argument we will take the Witness' view of the matter. A workman now makes \$1.06 where he formerly made \$1. He now pays \$1.75 for sugar where he formerly paid \$1. He now pays \$1.331-3 for coal oil where he formerly paid \$1. He now pays \$1.25 for his other groceries which he formerly bought for \$1. The same with dry goods, his shoes, his hats, his coal, everything has gone up. Now, is the working man getting the better or worse of the advance?

The archbishop of Canterbury, replying to protests against the petition for the dead in his "Form of Prayer," asserts that "it has been decided at law that prayers for the dead are not forbiddes by the Church of England."

Dr Adler, the chief rabbi of Londo has been elected a member of the Athenœum club of that city in accordance with the special rule allowing the annual introduction of persons of distinguished eminence in literature. It is significant that Dr. Adler's proposer was the bishop of London.

THE BEEKEEPER.

Drones from fertile workers or drones laying queens are raised as a general thing in worker cells.

The bees in the grub state, from the time of the hatching of the eggs until the capping of the cell, are called larva.

Fropolis is a resinous substance usually gathered from the buds of certain trees by bees and used in covering rough places.

If old combs are straight and in go n, but dirty, put them in or over

Bees do not as a rule swarm until they have got their hive pretty well filled up and have multitudes of young bees hatch-

Great Britain and Ireland imports ,500,000,000 eggs a year. It is estimated that there are 50,000, 000 English sparrows in Massachu

"Something must be done with those boys of mine at college," exclaimed a staid old citizen. "They're wilder than March hares and in hot water

all the time." "Oh, well, they're young yet, and yo must make allowances." "Make allowances, man? That's

what's keeping me poor."-Detroit Free Press.

The Boston Herald tells this scory.

'Mr. and Mrs. Thomas G. Gilbert of Salem, who were married fifty years ago, have been fortunate beyond most people. Six children were born to them. They also have ten grandchil-

dren and one great-grandchild, and every one of their descendants is still alive and well. Not a break has occurred in the family from the day of the marriage, fifty years ago." There was a country wedding in Ford county, Kan., the other day, which was attended by 300 guests. "One large

beef," says the local paper, "had been slaughtered and cooked, three hogs had been roasted, seventy-five pies and fifty cakes had been baked, fifteen gallons of canned peas had been prepared, ten gallons of pickles were set the happy throng, and thirty chickens were cooked, and, besides, there were bread, ham and vegetables in propor tion. That layout was doubtless sufficient to provide all the wedding guests with 'a square meal.'

A unique violin has been made by Missouri man. The back is of cherry from a table more than a century old which formerly belonged to the Howard-Payne college. In the center of the back are inserted twenty-one pieces of wood from the Holy Land, one being from a grapevine that grew in the garden of Gethsemane. Around the margin are set in a row small pieces of wood, diamond shaped, gathered Drivers garden of Gethsemane. Around the from all over the civilized world. In one end of the back is inserted a horseshoe made of castor wood, and in the other end is the image of a rabbit carved in cherry. There are, in all, over 150 pieces of wood, and the only tools used in the manufacture of the

half-inch chisel. The report that Siegfried Wagner was to marry an opera singer proved, like the story of Paderewski's second marriage, to be a canard, but a German musical paper supplies its place with another Wagnerian anecdote. The story goes that Siegfried took his first composition, a polonaise, to his father and asked for an opinion. Wagner however, refused to look at it, saying hat only fools wrote polonaises. Siegfried pointed out that one of his faher's earliest compositions had been a years old ought to mind his books," said Richard. "Mozart began composaiming icredit for introducing this ing when he was six," replied Siegbut I am the son of Richard Wagner. After that there was nothing for Wagner to do but look through the polon-

> The popular game of "best books" has taken on a new lease of life in England. Rival newspapers are selling the "Hundred Best Books" and the "Hundred Best Novels," and the selections are coming in for wide discussion. Labouchere asked the readers of Truth to select the twenty best books in the world. A consensus of the replies published in a recent number reveals this selection, in the order given: The Bible; Shakespeare; Homer, "Paradise Lost;" "Vanity Fair;" Dante; "The Pilgrim's Progress;" Gibbons' "Decline and Fall;" "Ivanhoe;" "Robinson Crusoe;" Carlyle's "French "The Imitation of Revolution;" Christ;" Boswell's "Johnson;" "Pickwick;" Tennyson; "The Arabian Nights;" Virgil; Moliere; "David Cop-perfield;" "The Vicar of Wakefield."
