How the deaf are made to hear

M. D. Tugendhaft, the celebrated eye and ear specialist, late of New York City, will visit this town, and will be at the Hotel Garner on the following dates, Thursday and Friday, August 15th and 16th, at which time he will demonstrate his wonderful Patent Invisible Ear Drum. Any person afflicted with deafness can be made to hear as well as ever. This is no idle boast. In the past few years there have been several Ear Drum cures, and not only have they proven defective and of no use in restoring the hearing, but were also clumsy and could be seen in the ear. The Invisible Ear Drum of Tugendhaft is entirely different in this respect. Not only will it restore the hearing, but it is entirely invisible and cannot be seen when once introduced into the ears. Mr. Tugendhaft was once deaf and after squandering a small fortune in different remedies and on so-called inventions, finally perfected his new Drum within the past few years. In every case where his Drum has been used it has effected a complete cure. See the celebrated Specialist at once and be convinced. No drugs used or no operation necessary. These Drums also stop all ringing noises and neuralgic pains in the head, where the cause is from deafness. The price of the Ear Drums is within the reach of all, and any person afflicted with deafness need not be so any longer. Come early. To-morrow is the last day.

DOUBLE UP WITH CRAMPS.

Stomach feels like an infernal machine and you want relief mighty quick. Nothing does the work half so soon as Polson's Nervine. Why, it kills the pain instantly. If your bottle is empty get another to-day. Nervine keeps the doctor bill small because it cures little ills before they grow big. Nothing for indigestion, heartburn and cramps like Polson's Nervine. Large bottles for 25c.

SALE OF DITCHING
