POINTERS FOR FRUIT GROWERS

Mr. James Innes gives Valu- Declares Ontario able Information On Important Question

Names Formulas Supplied Knocks Big Hole In Secre- Ald. Austin Returns From Makes Us The Laughing Him By Experts Re San Jose Scale

The following letters are self ex-

Chatham, April 16, 1907. To the Editor of The Planet,

copy of a very interesting letter which I received from Mr. A. Mc-Neil, Chief of the Fruit Division of the Department of Agriculture, Ot-tawa, regarding the San Jose Scale, the Department of Agriculture, Ottawa, regarding the San Jose Scale, It may be of service to you, and be interesting, especially to your readers of the Great Home, Journal. I think it would be a good idea if you would publish the formulas for spraying fruit trees, not only for the San Jose Scale, but also for the other pests which infest the fruit trees. If you have not got a copy of the formulas I will be pleased indeed to furnish you with it, as I have it through the kindness of Mr. McNeil. This formula, if put in your papers, will be kept by the different fruit growers, and will certainly enhance your circulation, as well as give your paper, the name of being somewhat useful, as well as ornamental.

being somewhat useful, as well as ornamental.
Yours very truly,
THE SUTHERLAND-INNES CO.,

J. J. INNES, General Manager.

J. J. INNES,
General Manager.

Ottawa, November 24, 1906.
Mr. J. Innes,
Ghatham, Ont.:

Dear Mr. Innes,—The San Jose Scale has, I am persuaded, become a very serious menace to the fruit industry in Kent County, not only to the fruit interests, but there is a very grave possibility of it attacking some of the forest trees, and what is equally unfortunate, the shads trees of the cities, towns and villages. I write, therefore, to join my warning with that of everyone else, who has had any experience with this pest, and to suggest that the public spirited men of the neighborhood, get together to suppress it at every possible point.

You, no doubt, have a personal interest in the spraying of a few trees. There are many more in town who have used for the purpose of each conficable for the purpose of the country. Disturb Plucky Settlers.

See, which would come up for renewal on April 30. The stumpage value to the Province was over \$100.000 and but the dues ranged from \$25.000 to \$30.000. In addition—and seem more serious—hundreds of worthy and plucky settlers had located upon it. They were living out their settlement duies and establishing their little homes. This Sir Frederick Borden, without a word of notice, undertook to conficable for the purpose of each conficable for the purpose of each conficable for the purpose of of the country. In the province was over \$100.000 and the purpose of conficable for the purpose

You, no doubt, have a personal interest in the spraying of a few trees. There are many more in town

sible point.

You, no doubt, have a personal interest in the spraying of a few trees. There are many more in town who have just a few, trees no doubt, in lested with this scale. Yet the interest of each one individually is so small that it is altogether likely that the scale will be allowed to spread without let or hindrance. I therefore, would suggest that you form yourselves into a co-operative spraying union. This may be the most informal thing in the world. All that is needed is to find out who in your neighborhood, if any, are in need of spraying, and then get a single outfit that will do the spraying for all.

Under sparate cover, I am sending you the instructions for making the sulphur lime wash. You will notice that it is tisngreable to handle when made, and that you can make a small quantity, and that the outfit formaking it is of necessity a somewhat expensive one. It is absolutely necessary, as you will see, that the mixture be boiled for about two hours. This cannot be done very easily in small quantities, but can be done at a comparatively trifling expense per gallon in large quantities of the mixture be boiled for about two hours. This cannot be done very easily in small quantities, but can be done at a comparatively trifling expense per gallon in large quantities, of the mixture could be two or three tees at the proper intervals, for a few mixture could be two or three tees at the proper intervals, with pipes attached, which could be dropped into barrels in which the mixture could be cooked. The amount of steam required to cook this would never be noticed, and the labor of cooking it would be softly filling that the man who attends the engine could quite readity do this would never be noticed, and the labor of cooking it would be softly filling that the man who attends the engine could quite readity do this would never be noticed, and the labor of cooking it would be softly filling that the man who attends the engine could quite readity do this would never be noticed, and the labor of cooking whe

necessary.

If you could arrange such a scheme If you could arrange such a scheme so as to accommodate yourself and your townspeople you would prove yourself a public benefactor. Whether or not others will join you, you will be at the Garner House on Wednesday, April 17th, and see his wonderful devices in Toupces and Wigs worn on over 65,000 heads. Explanation and demonstration free, readily, but I sincerely trust you will endeavor to join your neighbors with you. You could make them an offer, inasmuch as the material costs somewhere in the heighborhood of 75c. or 80c., or under the most disadvantageous circumstances, \$1 per Bigotry is conscience stuck in the

Hull-A Railway Wreck

Ald. Charles Austin has returned from Hull, Que., where he has been for the past few days attending the funeral of his uncle, the late Mr. S. F. Cox. The funeral took place on Friday to the Hufi cemetery. Ald. Austin spent Saturday and Sunday with friends in Ottawa.

The late Mr. Cox was for thirty years slidage master for the Ottawa Boom Association. He was sixty years of age, and a highly esteemed citizen of Hull. The cause of death was pneumonia, which he contracted through exposure at his duties. He s survived by a widow and three ns and two daughters.

Ald. Austin went both ways via the C. P. R., of which service between here and the Capitol, he speaks in the highest praise. He was especially pleased with the buffet service on the road. He arrived home on the 1.03 this morning.

home on the 1.03 this morning.
"I was in time to see the results of
the wreck at Sand Point," he told a
Planet report this morning. "Sand
Point is a little station between
Renfrew and Amprior. It came near
being a disastrous accident. The
transcontinental going east struck
a broken rail near Sand Point station. The envirse and tonder peace tion. The engine and tender passed over the defective spot in safety, but all of the coaches were derailed, and many of them were turned over. The platform at the station was splintered to kindling, but it was this fortunate circumstance that prevented the derailed coaches from going further. Had the train left the track one, hundred yards from the station, it would have been thrown down a steep embankment into Lake Chatz, and there would undoubtedly have been great damage and loss of life. As it was no one was seriously injured. tion. The engine and tender passed

injured.
"We think that the season is backward here," continued Ald. Austin.
"but I want to tell you that things look very much more backward in the east. Vegetation is not nearly so far advanced as it is here, and many of the streams and small lakes in Eastern Ontario are still frozen

Speaking of his uncle's death, Ald. Speaking of his uncle's death, Ald. Austin said that one of the saddest features of his demise, was that the deceased's oldest son, Dr. Cox, who is, a missionary in China, will not hear of his father's death, for two months, as it takes that length of time for correspondence from this country to reach him.

STRATFORD

Witness Who May Give Damaging Evidence In Stratford Case.

Evidence In Stratford Case.

Stratford, April 16.—The cause of the death of Marriett Dewing still remains unsolved. The statement was made yesterday on good authority that Mrs. Dewing was dead before her body was burned.

It has been stated further that Köeller was intimate with Mrs. Dewing many months before the time he stated that he first met her, namely, two weeks before her death. A witness may be produced to show that he had been in her company some weeks previous to the tragedy.

The hatchet which had fiesh elinging to it was used for cutting pork. There was no injury to skull or brain revealed at the post-mortem. Nevertheless, it is understood that the crown is in the possession of some important facts for the inquest tonight.

night.

R. T. Harding, who has been retained to defend Koeller, says he would not have taken the case if he believed Koeller guilty.

Seven New Cardinals. Bome, April 16.—Pope Pius X. held a secret consistory yesterday in the Vatican and created seven new cardi-nals as follows: Mgr. Cavillari, Patriarch of Venice. Mgr. Rinaldini, Papal Nuncio to Spain.

Spain. Mgr. Lorenzelli, ex-Papal Nuncio at

Paris,
Mgr. Lualdi, Archbishop of Palermo.
Mgr. Mercier, Archbishop of Malines.
Mgr. Maffi, Archbishop of Pisa.
Mgr. Aguirrey Garcia, Bishop
Burgos, Spain.

Limitation of Armaments. Rome, April 16.—From the exchange of official communications between them, it is apparent that Germany, Austria and Russia are unanimous concerning the question of the limitation of armaments at The Hague conference, and that they will permit of a discussion of the question, but not participate in it, not considerag the proposition a practical one.

CANADA IS **BEING BUNCOED**

fitaOf British Preferential Tariff

Stock Of The Commercial World

Ottawa, April 16.—On motion to go into supply yesterday Mr. Armstrong of Lambton read official communications to show that German and Bel-gium goods are being transhipped to Canada from England, thus obtaining the benefit of the British preference. the benefit of the British preference. Watches, bicycles, carpets and cutleny were among the items mentioned.
Razors made in Germany were being
shipped to England there stamped
with the word "Sheffield." Mr. Armstrong favored a mutual preference.
Mr. Fielding replied that Mr. Armstrong in one breath complained of the
German surfax and in the next breath

German surtax and in the next breath complained that the surtax was not enforced, but that the German imports came in under the preferential tariff. He insisted that no frauds were being practiced, but he would call the matter to the attention of the Customs Department.

Mr. Foster thought that the Government should proceed more vigorously. The people of Canada had been bunced in the matter of this preference. It only benefitted the British middleman and the German manufacturer, German surtax and in the next breath

turer,
Mr. Bourassa said a system of low

er preferential tariff invited this kind of fraud. England being a free trade country, it was natural that German manufacturers should ship their goods to that country for the purpose of dumping them into Canada. Canada had become the laughing stock of the commercial world. He favored the repeal of the preference.

The Colonel and Ecclesiastics.

derailed, and the repeal of the preference.

The Colonel and Ecclesiastics.

A lively debate ensued upon Col. Sam Hughes rising to explain that he meant no offence to his French the streem thrown the been thrown the been thrown the sand loss of was seriously ason is back.

Ald. Austin, a that things backward in not nearly is here, and a small lakes still frozon is here.

A lively debate ensued upon Col. Sam Hughes rising to explain that he meant no offence to his French priests coming to Canada were a curse to the country. He thought that all-people, agreed that ecclesiastical tyranny was a curse. He did not confine the believed that the exiled French priests now in Canada were misleading the youth by teaching the French priests now in Canada were misleading the youth by teaching the French priests now in Canada were misleading the youth by teaching the French priests had preserved Canada loyal to the British crown.

R. L. Borden paid a tribute to the Catholic clergy of France and quoted from the famous scene between the bishop and Jean aljean. He criticised Col. Hughes and regretted the phrase that he had used.

Col. Hughes repealed that the exiled French priests now in Canada were misleading the youth by teaching the French priests now in Canada were misleading the youth by teaching the French priests now in Canada were a curse to the country. He thought that all-poople, agreed that ecclesiastical tyranny was a curse. He did not confine the exiled French priests now in Canada were a curse to the country. He thought that all-poople, agreed that ecclesiastical tyranny was a curse. He did not confine the country. He thought that the exiled French priests now in Canada were a curse to the country. He thought that the exiled French priests now in Canada were a curse to the country. He thought that the exiled French priests coming to Canada were a curse to the country. He thought that all-poople, agreed that ecclesiastical tyranny was a curse. He did not confine the country. He thought that all-poople, agreed that

R. L. Borden called attention to the fact that Zaccheus Hall, postmasthe fact that Zaccheus Hall, postmas-ter at Hampton, N. S., had been con-victed of bribing in two elections, but he still continues to serve as a post-master. Two fishery inspectors had acted as scrutineers and canvassers for Mr. Fielding at the last election and a number of other officials and civil servants had taken an active part. He therefore moved a vote of censure.

censure.

Mr. Fielding fell back on the old argument that the Conservatives did worse than the Liberals. It was impossible to enforce the rule too strictly against petty postmasters getting \$25 a year. Zaccheus Hall had resigned as postmaster,

Mr. Borden's resolution was defeated 40 to 70.

BATTERED BY STORM. Everything Movable Swept From Deck of Steamer.

St. John, N. B., April 16.—Battered by the terrible storm that has been sweeping the coast of the North At-iantic for the last few days, the schooner Fanny, Capt. Halfyard, from the West Indies, arrived at St. John with every movable thing swept from her decks.

her decks.

The vessel was almost on her beam ends for twenty hours, and the crew had to smash in the heads of a hundred poncheons of molasses and let it run into the hold, so that it could be pumped out to allow the ship to lift enough to the head to get her under sail.

Shelter Agent Assaulted.
Peterboro, April 16.—George Cochrane, agent of the Children's Aid Society, was viciously assaulted on Saturday evening while calling at the home of Mr. and Mrs. George Duncan, Sherbrooke street, to remove a child to the shelter. Duncan, his wife, and a neighbor and two dogs, tried to forcibly eject the agent, who was considerably battered. He was saved from more serious injury by the arrival of a policeman, who arrested Duncan after a strenuous struggle. Shelter Agent Assaulted.
