

HEALTHIEST ONE IN THE FAMILY

No Sign Of Dropsy And Kidney Trouble
Since Taking "FRUIT-A-TIVES"

MATTIE WARREN
Port Robinson, Ont., July 8th, 1915.
"We have used 'Fruit-a-tives' in our house for over three years and have always found them a good medicine. Our little girl, Mattie, was troubled with Kidney Disease. The doctor said she was threatened with Dropsy. Her limbs and body were all swollen and we began to think she could not live. Finally, we decided to try 'Fruit-a-tives'. She began to show improvement after we had given her a few tablets. In a short time, the swelling had all gone down and her flesh began to look more natural. Now she is the healthiest one in the family and has no signs of the old ailment. We can not say too much for 'Fruit-a-tives' and would never be without them."

WILLIAM WARREN.

Across the Province From Fredericton to Moncton

With the summer time table now in effect passengers for Moncton can leave Fredericton via Canadian Government Railway at 6.30 a.m. and connect at McGivney Tuesday, Thursday and Saturday with train from Levis to Moncton, arriving at the Railway city at 12.05 p.m. (noon.) Returning the express leaves Moncton on the same days (Tuesday, Thursday and Saturday) at 4 p.m. arriving at Fredericton 9.45 p.m., the quickest time and the lowest fare between the two cities.

Piano Tuning

Joseph Whitely, Piano Tuner, expects to be in Hartland and vicinity the first week in June, when he will be glad to renew former acquaintances.

OH, SUCH A HEADACHE!

Every now and again don't you get one of those fearful headaches that drive you to do anything to get relief? Remember, though, it's a mistake to just "smother" the pain without removing the cause. Nearly all headaches have their beginning in the stomach, liver or bowels, and the best remedy is Chamberlain's Tablets, which tone the liver, sweeten the stomach and cleanse the bowels. This not only cures the headache but prevents its return.

Hawkins-Flewelling

Arthur Calvin Hawkins and Miss Mildred Elaine Flewelling, both of Auburn, Maine, were married at eight o'clock on June 6 at the home of the bride's sister, Mrs. Elmer Parsons, 77 Davis Avenue. Rev. A. D. Paul, pastor of the Court Street Free Baptist Church, of which both bride and groom are members, performed the ceremony, using the double ring service.

The bridal chorus from "Lohengrin" was played by Miss Geneva Lamson. The bridal party entering the parlor took their places under a broad arch made of fir tips, combined with apple blossoms. The bride was attended by Miss Sadie Steele of Auburn, as bridesmaid, and the best man was Alexander Anderson, also of Auburn. Little two-year-old Majorie and Dorothy Parsons, twin nieces of the bride, were ring bearers, holding the rings in small baskets which they placed on stands before the ceremony.

The bride wore a gown of white Georgette crepe with long bridal veil and carried a shower bouquet of white roses and sweet peas. Miss Steele's gown was of pale green crepe de chine with a bouquet of pink roses. The little ring-bearers were daintily gowned in white embroidered dresses blue ribbons.

The decorations were very attractive, in the parlor and hall fir tips and apple blossoms being used. A large bouquet of apple blossoms stood on the piano. The stair rails were bound with fir. In the dining room patriotic decorations were used in honor of the bride's brother, Cecil R. Flewelling, who is now in service in France. Red, white and blue were effectively combined and the Union Jack and United States flags were used on the walls. The flowers used were violets and cherry blossoms, the centre-piece being made of violets.

Only an informal reception followed the service which was attended by 35. Many beautiful gifts were received including the usual cut glass, silver, table linen and china. The groom's gift to the bride was a wrist watch, and the best man received a pair of gold cuff links. The bride gave her bridesmaid a pendant set with pearls.

Ross catered serving refreshments of fruit punch, Harlequin ice cream, lady fingers, macaroons, salted nuts and candy. Mrs. W. N. Stearns of Augusta, dipped punch, and Katrine Parsons and Miss Lamson served.

Those who drew the symbols from the cake were: Mrs. Hawkins, the thimble; Rev. A. D. Paul the ring and Alexander Anderson the button.

Out of town guests were Mrs. W. N. Stearns of Augusta, and Freeman Banford of Bangor.

Mrs. Hawkins is a daughter of Mr. and Mrs. F. D. Flewelling of Avondale, N. B. She was born at Burt's Corner, N. B. and attended school there. For the past six years she has been employed at the Field Brothers & Gross shoe factory. She belongs to Lewiston Grange. Mr. Hawkins is also a native of N. B. having been born at Douglas a son of Mr. and Mrs. James Hawkins now of 22 Manly Street, Auburn. He came to Auburn about five years ago and has been employed at Cushman-Hollis Co. Both have made many friends here.

Mr. and Mrs. Hawkins have gone for a two months visit in Fredericton, and on their return they will live in Auburn. The bride travelled in a suit of mustard color broadcloth and Panama hat with white veil—Lewiston Journal.

Pirie-Clark

A very pretty home wedding took place Tuesday evening, June 5, at the home of Mr. and Mrs. George Clark of Limestone, when their daughter Miss Adeline Estelle Clark was united in marriage

NOT ENOUGH CHILDREN

ever receive the proper balance of food to sufficiently nourish both body and brain during the growing period when nature's demands are greater than in mature life. This is shown in so many pale faces, lean bodies, frequent colds, and lack of ambition.

For all such children we say with unmistakable earnestness: They need Scott's Emulsion, and need it now. It possesses in concentrated form the very food elements to enrich their blood. It changes weakness to strength; it makes them sturdy and strong and active.

Scott & Bowne, Toronto, Ont.

to Frederick William Pirie of Grand Falls. The bride is one of the prettiest and most popular of Limestone's young ladies, and the groom a young business man of Grand Falls. The ceremony was performed at 7 p.m., by Rev. E. M. Weller of the church of the Advent, Limestone. The couple stood under an arch of evergreen and white flowers, the centre of the arch being a wishbone made of white lilacs. The bride wore a dress of silver lace flouncing over white satin and a hand-embroidered tulle veil and carried a shower bouquet of lilies of the valley and bride's roses. The bride was attended by Miss Marie Pirie sister of the groom. The bridesmaid wore beautiful gown of gray Georgette Crepe over rose, and carried American beauty roses. The groom was attended by G. W. Mitchell of St. John, a friend of the groom. The single-ring Episcopal ceremony was impressively used. From 8 to 10 o'clock a reception was held, attended by over 100 of the many friends of the young couple. Refreshments of ices and cakes were served, and a very pleasant evening enjoyed. Many beautiful and costly presents were given the popular young couple of checks, money, silver, cut-glass and furniture. The groom's present to the bride was an automobile, and to the bridesmaid and best man each a pearl pin. Mr. and Mrs. Pirie left Wednesday morning for a wedding trip to Montreal, Toronto and Niagara Falls, returning by way of New York and Boston to Grand Falls, where they will be at home after July 6 at the bungalow recently purchased by Mr. Pirie from Dr. Puddington. The young couple have many friends in Limestone who wish them every happiness during a long and happy married life together.—Fort Fairfield Review.

FOOL-PROOF POISON

Absent-mindedness Could Not Excuse Mistake in This Case

The latest thing on the drug market is "fool-proof" bichloride of mercury. During the last year or so there have been many cases of accidental poisoning by this dangerous but highly effective antiseptic. At many factories and in their homes to produce a tablet that could not be mistaken for anything else—even in the dark.

"Fool-proof" bichloride of mercury was the name of the tablets. The tablets were made in a thread, like beads, and when they are dissolved in water they have a distinctive odor. The tablets themselves are in the shape of a right angle, and each one is labeled "fool-proof".

The makers say, and it is true, that a person who uses all his mental faculties will not be able to mistake the tablets for anything else. The tablets are made of a material that is not soluble in water, and they are made in a way that they will not be mistaken for anything else.

SUFFERING CATS! GIVE THIS MAN THE GOLD MEDAL

Let folks stop on your feet hereafter; wear shoes a size smaller if you like, for corns will never again send electric sparks of pain through you, according to this Cincinnati authority.

He says that a few drops of a drug called freezone, applied directly upon a tender, aching corn, instantly relieves soreness, and soon the entire corn, root and all, lifts right out.

This drug is a sticky ether compound, but dries at once and simply shrivels up the corn without inflaming or even irritating the surrounding tissue.

It is claimed that a quarter of an ounce of freezone obtained at any drug store will cost very little but is sufficient to remove every hard or soft corn or callus from one's feet. Cut this out, especially if you are a woman reader who wears high heels.

The Paint That Costs The Least

is the Paint that covers the greatest surface—that takes the shortest time to apply—that wears the longest. Martin-Senour "100% Pure" Paint does all three. Here's the proof. "100% Pure" Paint covers 900 square feet of surface per gallon.

Hand-mixed-lead-and-oil, and cheap prepared paints, cover only about 500 square feet.

The greatest cost of painting is for labor. It takes less time to apply Martin-Senour "100% Pure" Paint because its fine, even texture spreads much easier.

MARTIN-SENOUR "100% PURE" PAINT

(Made in Canada.)

is guaranteed to be exactly as represented. The purity of the White Lead and Zinc Oxide—the high quality of the Linseed Oil—the minute fineness of the grinding by powerful machinery—insure a paint that gives years of protection and beauty to your home.

Why use cheap paint—that is expensive to put on—when Martin-Senour "100% Pure" Paint wears nearly twice as long?

If you are painting this year, you'll be interested in our books—"Town and Country Homes" and "Harmony in New-Town". Call or write for copies free.

The Testing Time!

Russia Prospers

During the first eight months of Prohibition in Russia the Savings Banks reports show savings increased 5,000 per cent. (net).

Help to Enforce Prohibition

Permanent Prohibition in New Brunswick demands strict enforcement between now and the day when Prohibition may again be voted upon after the war. The whole task of enforcement must not be left to the officers of the law alone. Everyone should help. Eternal vigilance is the watchword.

Fredericton, N.B.

WHEN the test of the world-conflagration called for every ounce of strength in every available man to stem the tide of destruction, one of John Barleycorn's greatest friends, Russia, was the first to abolish the Traffic because it could not meet the test. In good time, when her hour of test arrived, New Brunswick banished the great Drink curse let us hope forever!

After the war, in his turn, John Barleycorn is going to put New Brunswick to the test. Prohibition may again be voted upon after the war.

Every bit of lax enforcement and indifference is just so much ammunition for him to use against us. How does Prohibition meet the test?

Russia—

Some idea of the enormous effect of Prohibition is afforded by the wonderful example of Russia. In spite of the fact that millions of producers are in the army the savings of the people enormously increased. In 1912 and 1913 they were saving, per year, about \$20,000,000. In the first five months under Prohibition they saved \$60,000,000. In 1915 the banks took in \$265,000,000. For the first half of 1916, the Russian people saved \$300,000,000!

The Dakotas—

Town and city population in South Dakota under License increased 168 per cent. in 20 years. In the Prohibition state of North Dakota it increased 494 per cent.!

In "dry" North Dakota, for the year 1909, 2,789 men produced \$19,137,000 worth of manufactured goods. In the "wet" Dakota it required no less than 3,602—813 more men—to produce only \$17,870,000 worth of manufactured goods, or \$1,267,000 less!

In 1890 commitments to Insane Asylums in "dry" North Dakota were 40 persons per 100,000 more than South Dakota. After twenty years of Prohibition they were forty less! And the Prohibition State began the period with only about half the population of its neighbor!

South Dakota has since adopted Prohibition.
