Church Missionary Society.—At the recent Anniversary Meeting of this Society, it was noted that the increase of income, reaching the sum of £123,000 for the past year, has encouraged the Committee to adopt a bolder policy in the conduct of their operations, and to advance into those new fields of labor which the great Head of the Church has been pleased to open to them. In this resolution they have been confirmed by an unexpected donation of £10,000, in addition to a subscription of £1000 for three years, given by an old friend of the Society, with this express view.

TRINITY COLLEGE, DUBLIN.—It has just been announced that in October next a new monthly will be issued, to be called The Student's Magazine, and conducted by members of the University of Dublin. The forthcoming magazine will supply a deficiency, it is hoped, which has been long felt by the students, as no direct means have hitherto been afforded for the exercise of that literary ability which the liberal course of education pursued in Trinity College is calculated to develop. Though bearing the title Student's Magazine, it is expected that a large proportion of the contributions will come from those no longer immediately connected with the University, and it is expressly intimated that "polemical theology and party politics will not be discussed" in its pages. The editor, we believe, has not yet been selected, but one of the junior Fellows has been confidently spoken of as likely to be the man. It may not be intended, but a rivalship is, it is thought, inevitable, to a greater or less extent, between this projected periodical and the Dublin University Magazine, the proprietorship of which, it is said, has just passed into the hands of Me. Complaints. Manufactured by I. S. JOHNSON, Bangor, Maine.

Dr. A. JOHNSON'S AMERICAN ANODYNE LINIMENT,
an entirely vegetable preparation, prepared and intended for Internal and External application.

The Inventor of this stricle was in the constant practice of medicine for 20 years, and by a long course of experiments upon the various diseases for which this Liniment is recommended, he became perfectly satisfied of its efficacy, and offers it with full confidence to the afflicted, as the result of his long experience and best efforts.

This his long been a standard medicine, and enjoys the singular privilege of being known and patronized by a large portion of the medical Faculty, wherever it has been introduced.

With the firm conviction that it is the best remedy of the present age for all diseases for which it is recommended, the proprietor offers his Liniment to the Public, not doubting that it will sustain the high reputation it has already acquired Wed onto affirm that this article is a cure for the ten thousand ills humanity is heir to; but let those who are afflicted with the following diseases, try it, and we can assure them, they will find relief.

Inflammation of the Bronchia or Bronchitis, RoseCold, Catarrh, Hard dry Cough, Whooping Cough, Hoarseness and common Cold, Pain and Soreness in the Lungs, Stomach and Sides, caused by lifting or otherwise. Asthma, influenza, for Sore Throat and Weak Lungs, for Chronic Diarrhea, caused by Rheumatism in the bowels, for Cramp in the Stomach, for Stranguary, Gravel and Stone, Blind Piles, &c.

Externally it will have the most happy effects, in all cases where any other Liniment would be used, especially for Rheumatic Affections, Chilblains, Chapped Hands and Sore Lips; it is a sovereign remedy for the bites of dies and other insects. There is nothing of equal efficacy to this for Horses and Oxen where they are carked, cat, bruised, strained or chafed by the harness, and it possesses more than double the power of any other Liniment.

Inflammation of the Bronchia or Bronchitis, for the cure of this disease it has been wonderfully successful. Those who had cases of long continuance have found permanent relief. S. D.

For the Cure of a great variety of Diseases, arising from the impurities of the Blood, and Obstructions in the Organs of Diseases.

These Pills may be used in all forms of Diseases, with the most decided benefit, and without fear of injury. Being of Vegetable extract, they do not eramp or rack the delicate frame or weak constitution, but will be found particularly useful, by stimulating the weakened and distempered parts into healthy action.

The most delicate female, and children of the tenderest age, can take these Pills with perfect safety, and the most salutary results will follow. Being conted with pure White Sugar, prevents that general aversion which most persons have to ordinary Medicines, for nothing but the taste of sugar is apparent when as a safe, and in small doses, a mild cathastic.

The best time to administer these Pills is on going to bed at sight, though they can be taken at any time beneficially; at night, however, they have a more general and universal influence over the whole body; the mind, body and nervous statem at that time being in a quiet state, gives the Pills an opportunity to operate with the fullest effect upon the whole system.

They are an excellent article to be taken
