## TORONTO WHOLESALE MARKETS-WEEKLY REVIEW.

PRODUCE. The market has been decidedly quiet all week; and the general feeling has been of a holiday racter. Offerings have generally been small, holders have been firm, save in barley, and in all else prices have been fairly well main-tained. Still the only grains for which anything tamed. Still the only grains for which anything of an enquiry can be said to have prevailed are peas and rye, which have been wanted for England and the States. Stocks have shown but little change during the week, and stood on Monday as follows:—Flour, 10,241 bbls.; fall wheat, 134,128 bush.; spring wheat, 112,428 bush.; oats, 700 bush.; barley, 170,050 bush.; peas, 92,877 bush., and rye, 13,005 bush.; against on the same date last year—Flour, 13,065 bbls.; fall wheat, 182,902 bush.; spring wheat, 131,740 bmsh. waeat, 182,202 bush.; spring wheat, 131,740 bush.; oats, 23,050 bush.; barley, 72,746 bush.; peas, 70,623 bush., and rye, nil bush. Continental advices state that in France the Continental advices state that in France the wheat trade though not active was firm, the prices in country markets still tending upwards and supplies small. The week closed with the markets in the neighbourhood of Paris, and in north-west, north, and north-east, again generally dearer and firm for wheat, but in the east and south-west more quietness. Rye was becoming very scarce and continued in active demand. At Paris flour for consumption was unchanged but firm; and "term" wheat was firm but not active. The stock of flour in Paris on Bist March was 145.517 qtls., against 134,141 qtis. PROVISIONS. TRADE—Has been generally active at firm prices.

1BUTTER—Is the dullest article in the trade. Offerings have been small but sufficient, for the demand has been for the local market exclusively, and rather slack even for it. The Detroit, Mackinac, and Marquette Railroad Company,

Of the Choicest FARMING and TIMBERED LANDS in the Northern Peninsula of Michigan,

great depth. The timber remaining upon the land being generally sufficient for the settlers' use in building and fencing.

These partially cleared lands are now offered at the low price of from \$4 to \$4.50 per acre, one-fourth cash, and the remainder at purchaser's option, at any time within nine years, with interest payable annually at seven per cent.

Ecads are being opened through these lands, and no better opportunity has ever been offered to men of small means to secure a good farm, and intending purchasers will be wise by availing themselves of this chance before prices advance, as the lands are being rapidly taken and settled upon.

The lands more immediately on the line of the Detroit, Mackinac, and Marquette Bailroad, from the Straits of Mackinac to Marquette, are more heavily timbered, and are almost universally good agricultural lands, leaving splendid farms when the timber is remeved.

The iron and lumber that the timber and wood upon the lands will produce—this will enable the settler to make good wages while clearing the land.

Lumber Mills and Charcoal Klins will be built at various points along the line, and Furnaces are now being creeted along the line of the road at Point St. Ignace.

The great demand and good prices for labour, both in winter and summer, make these lands particularly desirable as homes for the poor man. The lands adjacent the railroad are offered at prices from \$U opwards. according to location, value of timber, etc. The lands are at your very door, and are being rapidly settled by Canadians.
