RECOVERED CORNER STONE

Rev. Mr. Morris has in his possession the remains of the papers and documents placed in a bottle and sealed, then deposited in the corner stone of the Methodist church in 1886. The death occurred here, Friday morning, Sept. 16, of Albert Merle Fox, eldest son of George and Louise Fox, of Bloomfield Station, P. E. I., after a short illness of typhoid fever. The remains were taken to Bloomfield, Monday morning, where interment took place. The remains were accompanied by the father and brother of the deceased and several members of the Brotherhood of I. C. R. Firemen and L. O. L. No. 64, of Campbellton. During his stay here the deceased made many friends, who sincerely regret his sudden death. He is survived by a father, mother, two sisters, Ina and May, and one brother, Percy. Sunday evening a short funeral service was held at the home of Mrs. Wm. McRae, conducted by Rev. Mr. Schurman. Deceased was 21 years of age.

NEVIN-McRAE

A very quiet wedding took place at Knox Presbyterian Church, Montreal, on Tuesday, Sept. 20th, when Miss Sadie McRae of this town was united in marriage to Mr. Thomas Nevin, Manager at Montreal for Messrs. Burroughs, Wellcome & Co. The bride was attired in a travelling suit of blue broadcloth, with hat to match. She was unattended. After the ceremony the happy couple left for New York and other American cities. The popularity of the couple was evidenced by the handsome array of wedding presents, among which was a beautiful cabinet of silver from the Montreal employees of the Burroughs, Wellcome & Co. Mr. and Mrs. Nevin will reside in Montreal and the Graphic joins with Campbellton friends in wishing them much happiness.

CHEAPER FUEL FOR CANADIANS

Government Experiments With Treating Peat Bogs a Success.

Ottawa, Sept. 19—Several hundred tons of pressed peat, prepared at Albert, near Ottawa, by the Canadian department of mines, are to be sold in Ottawa at the rate of \$3.25 a ton, delivered.
This is being done as a demonstration of the commercial success of the government experiments in preparing peat for fuel. The department claims that at this rate peat is equal to the best anthracite coal at \$6.00 a ton. They claim to be able to sell the peat fuel at the works for \$2.25 a ton, and make a profit.
It is expected that within a short time private enterprise will be putting peat fuel on the market wherever bogs are found in the vicinity of population centres.
The Ottawa monument to Champlain is to be erected on Nepean Point on the spot where it is believed the famous explorer stood several hundred years ago to take the observation he made at Chaudiere Falls. The place, which is the highest point on the Ottawa river in this vicinity, is now a part of the Ottawa drive way. The monument, which was designed by Hamilton McCarthy, represents the explorer taking an observation. The site was chosen today by Benjamin Salte, the French historian.

MISARD'S LINIMENT CO., LIMITED.

DEAR SIRS.—While in the country last summer I was badly bitten by mosquitoes, so badly that I thought I would be disfigured for a couple of weeks. I was advised to try your LINIMENT to allay the irritation, and did so. The effect was more than I expected, a few applications completely curing the irritation, and preventing the bites from becoming sore. MISARD'S LINIMENT is also a good article to keep off the mosquitoes.
Yours truly,
W. A. V. R.

Many Selling Booze and no One Appears Willing to Enforce The Law.

POLICE INACTIVE

For a time after the fire it was almost impossible to procure a drop of liquor in Campbellton. The local government suspended all licenses, and we had an orderly and dry town. One or two did attempt to sell some liquor on the quiet, but those in authority were awake and several raids were made.
But for the past two weeks liquor must have been sold, as there is at present much drunkenness on the streets and contractors are handicapped by having their men go off and get drunk.
It is said on good authority that there are half a dozen places where liquor can be bought and said by people who ought to know. Why is this state of affairs allowed to exist? If the present police force cannot or will not do its duty, let us have a new one, or if liquor is to be sold, resuscitate the licenses. We respectfully call the attention of the police committee to this matter and sincerely trust that some action will be taken at once.

GENTLEMEN.—I was badly kicked by my horse last May and after using several preparations on my leg nothing would do. My leg was black as jet. I was laid up in bed for a fortnight and could not walk. After using three bottles of your MINARD'S LINIMENT I was perfectly cured, so that I could start on the road.

Reduce the Cost of Living

LET us look into this problem of high cost of living. Let us see if we can whittle it down a bit and extract some of its fangs.
We all agree that the cost of living has gone up. Eggs have gone up, butter has gone up, meat and poultry and vegetables have gone up. Everything we put on our tables has advanced in price from 30 to 50%. Except one item—Flour. Most of us have known this in a way some time but have we ever for a moment realized that 10 cents spent in good Bread buys more real value than fifteen times that amount spent in Eggs, Beef or Mutton. Just glance at the tables above showing the comparison made by the U. S. Government bulletin. From a food
