

## THE BEST

and nothing but the best goes in the garment made at Maunder's. Our assistant cutter and foreman tailor have just arrived from New York, where they have been studying the very latest in Cut and Style, and how it is done.

Remember, we have the largest selection of up-to-date tailoring goods in the city. Come right along and have the "Maunder make." Certainly some style.

**JOHN MAUNDER,**

CONDENSED  
MILK  
IS THE  
CREAM OF MILKS

## Baby Fell on Stove

Postmaster Says: "Zam-Buk Acted on the Burn Like Magic."

Whenever you—or the children—sustain a burn apply Zam-Buk! Takes the fire out of burns like magic!

Mr. A. Summers, Postmaster of Gledhow, Sask., writes: "I would like to bear testimony to the wonderful healing properties of Zam-Buk. I have used it for some considerable time for cuts, bruises, etc., with excellent results, but the most wonderful cure in my experience happened recently when my little boy (two years old) fell from his chair on to a red hot heater!"

"One side of his face and his ear were just frizzled. I dressed the burns liberally with Zam-Buk every day, and within two weeks the burns were healed. I was afraid my boy would be disfigured permanently, but the skin has grown beautifully, and there is no scar left. I always recommend Zam-Buk to my friends, and would advise everybody to keep a box handy."

Zam-Buk is just as good for cuts, bruises, poisoned wounds, scratches, ulcers, eczema, piles, festering sores, barbed wire scratches, etc., and all skin injuries and diseases. 50c. box. Druggists and stores everywhere, or post free for price from Zam-Buk Co., St. John's. Refuse harmful substitutes and imitations. Have you tried Zam-Buk Soap? 30c. tablet. Best for baby's tender skin.

## Three Young Men Nearly Drowned.

(Twillingate Sun.)

Young Shave, son of Constable Shave and two young Rendells, nearly lost the number of their mess in an upset of their sailboat on Fogo Harbour on Thursday morning last. It appears that the storekeeper with J. W. Hodge, built a new boat last winter which is rather heavily canvassed. The boys borrowed the boat Thursday morning and although the wind was blowing pretty freely, were enjoying themselves famously. The two Rendells were seated in the stern, one on either side of the tiller, with Shave amidships. They attempted to bring the boat around but were unable to get her to stay, so decided to wear. Unfortunately they did not slack their sheet and as soon as the boat paid off and took the wind broadside, she went right over throwing them all in the water. The two Rendells got hold of the bottom of the boat but with their weight and the top she kept continually rolling out on them, and before they were rescued they had been under water and regained their hold several times.

Fortunately people on Mr. Hodge's wharf saw the accident as well as men from other parts of the harbour, and as quickly as possible boats went to the rescue. Shave was unconscious when picked up and remained so for some time, while the others were not much better. They were landed at Hodge's wharf and taken into his store where they were rolled on barrels to get the water out of them, when they "camped" were stripped and wrapped in blankets. One of the Rendells recovered sufficiently to walk home but the other was very weak, and Shave's life was despaired of for a little while. Dr. Smith, too, happened to be at the Lion's Den at the time and but for the first aid methods administered by Mr. Hodge's Lodge it is likely all three would have succumbed.

## DON'T BE DOWN-HEARTED.

No doubt if you are suffering from Indigestion, Dyspepsia, Catarrh, Nervous Dyspepsia or any other stomach trouble you will certainly have the following symptoms:

Uncomfortable feeling about stomach, Distress and Distension of Stomach and Bowels after eating, Headache, Nausea, Acid and Bitter Eructations, Lassitude and Depression of Spirits, Irritability of Temper, Tenderness and even Pain over Pit of Stomach, Chilly Sensations, Slight Feverishness, Bad Taste, Loss of Appetite, Constipation, etc., etc.

We can furnish you testimonials from persons who were suffering exactly as we have described and were perfectly cured after taking 2 or 3 bottles. The proof is in reading the letters which we have in our possession, and these can be seen at any time by calling at our Drug Store, Theatre Hill.

Prescription "A" is the name to ask for. Price 25 and 50 cents a bottle. Postage 5 and 10 cents extra.

Prepared only by

DR. F. STAFFORD & SON,

St. John's, Nfld.

## Finished Mission.

Rev. Father Holland, of the Redemptorist Order, who with Fathers Brick, McPhail and McCandlish conducted missions here last winter is still in the country. He conducted a very successful mission at Curling last week finishing it Friday. He proceeded to Stephenville Friday and is conducting a mission there after which he will hold a mission at Port aux Basques. At Curling after the mission concluded the men of the place who went through it took the total abstinence pledge in a body.

## Resigns Position.

Miss Thistle, the popular young lady assistant of Knowling's West End Grocery Department, resigned her position last evening, and will proceed to New Glasgow to train as a nurse. Before leaving, the employees presented her with a valuable silver watch on the back of which was handsomely engraved a red cross, the emblem of the noble sisterhood she is about to join. Miss Hussey, on behalf of the employees, made the presentation, and the recipient, who was agreeably surprised, thanked her co-workers for their great kindness and generosity. She leaves by Sunday's express, and we bespeak for her every success in the noble calling she has chosen.

## Baseball Game.

The baseball match between the City and the visiting team from Bell Island, comprising seven McGill students, grounds of the Casual Football team last evening and terminated in a victory for the visitors by 22 to 18. The exhibition on the whole was fast and interesting, but the high wind that prevailed made pitching difficult. The players were: City—Brown, Anderson, (Pitchers); Duff, catcher; Wall, 1st base; Wallace, 2nd base; Morison, shortstop; Ford, 3rd base; Pritchard, left field; Johns, centre; Ross, right; McGill—Archibald, McKeen, (Pitchers); O'Brien, catcher; Kennedy, 1st base; Blackwood, 2nd base; Harris, shortstop; Demster, 3rd base; Ferguson, left field; Burnham, centre; Fricker, right.

## Boys' Union Formed.

In the L. S. P. U. Hall a meeting of boys who work longshore took place last night. It was the unanimous opinion of the meeting to form a Juvenile Branch of the adult body of the Union laborers. The objects of the junior division were outlined in yesterday's Telegram and are chiefly to teach the youth honest principles and the rudiments of education. Seventy-five members signed the roll last night. Twelve who applied for admission were refused as they were under 14 years of age. Twenty of the 75 could not read or write. On next Wednesday night another meeting will be held when a proposition for improved hours and conditions on waterfront premises will be drawn up to be submitted to the merchants.

## The Head.

By H. L. RANN.

The head is a round, bullet-shaped attachment to the human body which has several important functions the most important of which is to store up thought and let it go of it with a loud noise. Some heads store up vast quantities of thought which is noticeable on the outside unless the owners corner the entire conversation and lead it in the direction of their hobby.

Commonly speaking, people have nothing to say about the shape of their heads. If they did, there would be fewer peaked promontories with hair on the outside and one large air chamber inside. Probably the greatest head ever produced in this country was owned by the late Daniel Webster, who had to sit for his hats with the same care that a passe spinster sits for her photograph. Mr. Webster's head assayed 94 per cent brains and 6 per cent waste, but none of the waste was allowed to creep into his orations. A great many people have tried to grow a head as large as Mr. Webster's, but after they got one they found they didn't have anything to put in it except rarified atmosphere.

The average head is decorated with three pleasing projections, known as the ears and nose, together with the soothing protuberance entitled the double chin, which we shall describe more at length to-morrow. If it were not for this equipment it would be hard to tell some heads from a croquet ball, whether they were silent or vocal.

While the head is fastened on with considerable security, some people have the habit of losing it on the slightest provocation and forget what they came down town for. There is nothing more aggravating than a husband who is always losing his head and ordering brick chese in place of loaf sugar.

The head is connected with the rest of the body by the neck, which enables it to wag back and forth and make emphatic postures. It is an alarming sight to see the head of a growling man pitch toward the floor on the dead run and then bring up with a short jerk and stand erect with an apologetic look.

NOTE OF THANKS.—Mrs. Reid and family desire to express their deep appreciation to the friends, officers and soldiers of the Salvation Army, for their attention and words of comfort during their sad bereavement, also to the following friends who so kindly set wreaths to adorn the casket of the late husband and father: S. A. soldiers, Corps No. 11; S. A. Band, Corps No. 11; Officers of S. A. College; Capt. Pitcher's day school, S. A. College; Mr. and Mrs. Hussey—advt.

## The Tire That Never Tires

AGENTS  
FOR  
GOODRICH  
TIRES.

ON an average size tire, any given point on the outside circumference comes in contact with the ground about 700 times in a mile; or, to put it another way, the same given point on a Goodrich White Tough Tread in 5,000 miles of service—and that's no big task for a Goodrich Tire—which have hit the ground 3,500,000 times. Some rub and grind there.

Yet, so effective is the wearing quality which the Goodrich factory imparts to the rubber of the White Tough Tread that it is no unusual sight to see an old Goodrich Tire, old in miles run, with the mold mark still fairly prominent and without those ominous looking scars anywhere on the tread, which foretell an early tire collapse.

We firmly believe that no other single factor of tire construction has done so much to emancipate the motor car user from tire disaster as the Goodrich White Tough Tread. A trouble buffer and expense saver of the first order.

Place your order for new tires with us and you'll be—tirely satisfied.

HARDWARE DEPARTMENT.

**BOWRING BROTHERS, Limited.**

## FOR FRIDAY. AT COLLINS'

Scores of Buying opportunities in all departments that will bring pleasure and profit to FRIDAY'S SHOPPERS. Our Dress Goods Department is now complete with a splendid range of Spring Goods.
