About Pictures and their correct framing.

The art of Picture-framing is a more intricate one than is generally understood. It is not merely the making of a frame, but the selection of suitable Mouldings for the many different subjects, as pictures that are undoubtedly beautiful are often spoiled by unsuitable framing.

- ¶ We have for many years made Picture-framing a special feature.
- ¶ We have workshops fitted with the most modern appliances for their framing.
- ¶ We have men who understand perfectly what Mouldings are needed to throw up their beauty.
- ¶ We have the largest stock of Mouldings in the city, and—
- ¶ We are prepared to carry out promptly and with complete satisfaction all orders received by us.

TORIC LENSES

ARE MORE BECOMING THAN FLAT LENSES.

The edges of Toric Lenses do not show as prominently as those of flat lenses. They fit in close to your eyes. You will find Torics much more becoming and useful. They give you a wider, clearer field vision. You should know about Toric Lenses. Let us explain them.
