Immediate Action

Needed.

The reports of the Prospero and Sebastopol which recently arrived from Northern ports of call show up vividly the immediate necessity for salt. Through their usual mismanagement the Government have neglected to import the necessary salt requirements and as a consequence, the fishery situation is acute. Surely conditions were bad enough without this added burden. Let the Government act and act quickly, if the 1921 fishery is to be saved.

Dawe's crews have 7000 qtls. of fish ashore. Should the fish hold the land for another week, the voyage will be a most successful one. Capt. House and crew of the schr. Minnie J. Smith were brought as his Schettend. were brought up by the Sebastopol and landed at Catalina.
