Soon London was reached. Hestmead picked up his traps and about to depart without assisting her from the car when she protested : "Where is your gallantry, Mr. Hestmead? what the reply to his note would be The messenger had not yet returned. Hestmead found his nervousness at such a pitch when the latter fact, upon his inquiry, been made known to him, that he could neither eat breakfast nor remain quiet in the hotel, so he engaged an open carriage and drove the horses himself into the busiest thoroughfare of the great metropolis in order that the excitement of his surroundings might take his mental attention from the oppres-sion that anxiety had forced on his brain. His horses nearly ran away once, but he rather enjoyed this, and I fear he transgressed the city ordin-ances as to furious driving, upon more than one traffic way. But the policemen were generous to him, the older guardians of the peace knowing him as the detective who had won fame in that very city some years ago.

The old pilot is fond of relating an incident which occurred near Calcutta. The ves-sel which he commanded, a fine clipper which we wreaked in a twhoan in the ship, was wrecked in a typhoon in the bay of Bengal, and all hands, save him self and two companions who succeeded in reaching shore in the ship's gig, were

lost. The three exhausted men immediately sought food and shelter and while thus sought food and shelter and while thus employed came upon an immense wooden image which they correctly surmised to be an Indian idol. Night was upon them, and the fired men bivonacked near by, and their attention was soon attracted by the appearance of a score of low caste Lindcos, each of whom carrit in his hands a savory dish which he placed before the imanimate rod.
