

Still at It!

Outrages on Missionaries in China Continued.

Eight Inmates of a Convent Cremated.

The Official Figures of Ireland's Population.

New South Wales' Finances Show a Surplus—The Czar's Gift.

KILLED BY HIS OWN GUN.
Vienna, Aug. 28.—Prince Ernest De Rohan was recently killed while hunting, by a bullet from his own gun, which was accidentally discharged. He was heir to a great fortune.

EIGHT WOMEN CREMATED.
Rome, Aug. 28.—The convent at Riborone, a village in the Province of Turin, has been partly destroyed by fire. Eight women perished, and four others were severely injured.

THE CZAR'S GIFT.
Cettinje, Aug. 28.—The Russian ship Restoff, from Cronstadt, has arrived at Antivari with 30,000 rifles, 15,000,000 cartridges, and a number of cannons, machine guns, and a quantity of dynamite, all of which are a gift from the Czar of Russia to Prince Nicholas I. of Montenegro.

ATTACKS ON MISSIONARIES CONTINUE.

London, Aug. 28.—The Chronicle prints a Shanghai dispatch to a news agency saying that the attacks on missionaries in China continue notwithstanding the Imperial decrees for their suppression. A member of the Alliance Mission, the dispatch says, was beaten, and several native evangelists were flogged nearly to death at the yamen magistrate at Tsao-shien, near Wu Hu, in the Province of Nanchow.

THE PROPOSED MONETARY CONFERENCE.

London, Aug. 28.—The Standard prints a Berlin dispatch saying that in consequence of the opinion recently expressed by Mr. Balfour that there was no reason for supposing that any agreement on the currency question would result from an international monetary conference at the present time, and that a second abortive conference was very undesirable, the German Government is reconsidering its plan for the convening of another conference.

IRELAND'S POPULATION.

London, Aug. 28.—The annual report of the Registrar-General, giving the vital statistics of Ireland just issued, shows the number of marriages to have been 21,602, or slightly above the annual average for the last decade. The number of births was 165,354, a slight decline from the average. The number of deaths was 85,528, showing a slight increase. The estimated population in the middle of the year was 4,600,599, and the percentage of legitimate births for the year was 37.39.

NEW SOUTH WALES FINANCES.

Sydney, N. S. W., Aug. 28.—In the Assembly Premier Reid presented a supplementary financial statement showing an estimated surplus of \$500,000. The Premier said it was proposed to raise in London some £100,000 of 4 per cent. bonds for the redemption of treasury bills and debentures due in 1896. He had impressed upon the colony's agent in London the importance of urging Mr. Chamberlain, the Secretary of State for the Colonies, to sanction the investment of trust funds in colonial securities and he believed that Mr. Chamberlain was inclined to support the project.

WAR MEMORIES REVIVED.

Berlin, Aug. 28.—The German-American veterans arrived at Bremen yesterday afternoon. They visited the monument erected in memory of the victims of the Franco-Prussian war and placed wreaths around it. After listening to several addresses the visitors, accompanied by the military societies of Bremen, carrying banners, paraded through the streets to the Kaiser Wilhelm monument, near the Rathaus. The paraders filed by the monument, and then proceeded to the burger park, where a concert was given by the military bands. In the evening the visitors were entertained at a commiseration, preceded by a brilliant display of fireworks.

THE UNHAPPY PRINCESS.

London, Aug. 28.—According to a dispatch received here from Naples, there is no truth in the report that a formal and final settlement has been the Princess Colonna, daughter of Mrs. John W. Mackay, and her husband, Prince Colonna, on the basis of the former having the custody of the children and the latter receiving an annual income of 60,000 francs. It is stated that the relations which have existed between the prince and princess for some time past are unchanged. The prince is at Sorrento with the boys, who often visit the princess. The latter is with her daughter at Castellamare, and the girl frequently visits her father, Prince Colonna, at Sorrento.

A CLERICAL SNAP.

London, Aug. 28.—The new Bishop of Winchester, who succeeds Mr. Labouchere's brother-in-law, Dr. Thorold, is a remarkably young man, and owes his appointment entirely to court favor. He may be described as one of the ecclesiastical pets of her Majesty. So far as Victoria been of his spiritual administration that even on the occasion of her annual trips to the continent she would insist on his going along with her to preach on Sunday, and to serve as a sort of guarantee against any tendency in the direction of Catholic worship.

As Bishop of Winchester, Dr. Davidson becomes ex-officio the prelate of the Order of the Garter and wears the badge of that knightly order around his neck both when in his episcopal robes and in evening dress. He takes precedence over all bishops, and whereas they, in the House of Lords, rank after Viscounts and before barons, he ranks with the earls.

He is the son-in-law of the late Archbishop of Canterbury, Dr. Tait, to whom he acted as private secretary, as he did also to his successor, the present Primate. His pay as Bishop of Winchester is \$40,000 per annum, and he also receives, as an official residence, Farnham Castle, one of the most magnificent of all those grand old historic country seats of England.

ARMENIANS TERRORIZED.

Constantinople, Aug. 28.—Advises received here from Erzerum say that a state of great terror prevails among the Armenians there, owing to the attitude of the Turkish authorities. The latter in consequence of an attack which was recently made by brigands upon a Turkish colonel, during which a number of his escort were killed, are believed to be taking steps which will have most serious consequences. The Armenians are accused of being the authors of the attack on the colonel, and are alleged to have taken a large force of Turkish troops has been retreating by attacking the villages and monasteries of the vicinity and engaging in other acts of violence. The Armenians, fearing a recurrence of the Sassoun outrage, have appealed to the ambassadors of the powers at Constantinople for protection.

THE CHINESE INVESTIGATION.

Hong Kong, Aug. 28.—It is reported here that all the members of the Ku Cheng Commission are in good health, and that the Chinese officials are assisting actively and thoroughly in the investigation being made into the recent massacre of missionaries. Ten missionaries, it is added, have already been convicted, and the trial of others is proceeding. There is said to be no danger of any fresh disturbances in that district during the sitting of the commission.

Sparks From the Wire.

George Hawley, jeweler, Clifton, Ont., has been charged with smuggling \$1,300 worth of jewelry into Canada.

Hon. J. M. Gibson, Provincial Secretary, has decided to hold an open investigation into the management of the Central Prison at Toronto.

The strike of clothing makers at Rochester for the union rate of wages may affect 30,000 workers in Syracuse, Utica, Albany, Buffalo, Chicago, and scores of cities where the union scale is not paid.

EDUCATING YOUNG CANADA.

Manitoba Leads the Dominion in Grants to Schools.

Ottawa, Ont., Aug. 28.—The Dominion Statistician has been investigating the cost of education in the several provinces of the Dominion, and has prepared under the head of "Statistical Statistics" an interesting chapter for his Year Book.

Data collected for the years 1888 and 1893 show that Manitoba expends proportionately more upon education, that is, for public schools, than any other province in the Dominion. Quebec spends least of all.

In Ontario the expenditure upon public schools has remained stationary at \$1.87 per head of population.

In Quebec it has increased from 81 cents to 87 cents.

In Nova Scotia it has fallen from \$1.51 to \$1.45.

In New Brunswick the expenditure in 1888 was \$1.26 per head and in 1893 it had increased to \$1.31.

In Prince Edward Island it rose from \$1.36 to \$1.40.

Manitoba increased from \$1.57 to \$2.02, while British Columbia in the period rose from \$1.40 to \$1.87.

Taking the average of all the provinces, it shows that the people of the Dominion are now paying at the rate of \$1.56 per head of population for the purpose of public schools, an increase of 6 cents in the per capita expenditure since 1888.

FATAL ENDING OF A PRACTICAL "JOKE."

Mackinac, Mich., Aug. 28.—As the result of a practical joke a year ago, Mrs. Garrity, of this city, became insane and died of this disease Sunday. She was taken to the asylum at the Traverse City. The affair which unhinged her mind was the finding of some one in her house, which she supposed empty, who frightened her badly for a "joke."

PATTERSON GOES TO WINNIPEG.

Ottawa, Aug. 28.—All rumors to the contrary notwithstanding, Hon. Mr. Patterson is certainly preparing to take up his abode in Winnipeg within the next few weeks. Arrangements have been made whereby Sir C. H. Tupper will take the house occupied by the prospective Lieutenant-Governor of Manitoba whether by purchase or upon rental has not transpired. Sir Charles Hibbert's present house is to let.

VERILY A FOOLHARDY BURGLAR.

Wilkesbarre, Pa., Aug. 28.—Mrs. James Bellings resides at Ashler and last night a foolhardy burglar sneaked into her house and up into the room where she was snugly sleeping. Mrs. Bellings was awakened by the strange sound, and, discovering the man under the bed, she arose, seized the intruder by the neck, and held him until her husband got his eyes open. Mrs. Bellings sent her half for a policeman, she all the while holding the burglar. That was the most shamefaced looking thief that has ever trudged into the Luzerne lock-up.

ONE WAY OUT.

"What would you do if you were hounded and boned and dunned and threatened by a creditor, all for a little bit of \$2.50?"
"Hang me, if I wouldn't pay it!"
"Thank you, old man—thank you; I hadn't thought of that."

Found at Last!

Important Discovery Made by the Detectives

Who Have Been Hunting for Evidence of Holmes' Crimes.

The Remains of Little Howard Pictzel, Discovered, Together With the Trunk in Which the Body Was Shipped.

Indianapolis, Ind., Aug. 28.—Detectives Geyer and Cary, who are working on the Holmes case, have found evidence of Holmes' presence and crimes in this city. Yesterday morning they discovered a cottage in Irvington, a suburb where Holmes rented quarters for one day last fall. Under the porch of the cottage the detectives found the remains of the big black trunk belonging to the Pictzel children, which they have long sought. In the barn was also found a big stove which belonged to Holmes. The detectives have a theory that Howard Pictzel was killed in this city and his body taken to Irvington and burned.

PERSEVERANCE REWARDED.

Indianapolis, Ind., Aug. 28.—In the chimney of a little frame cottage, standing at some distance from the other residences of Irvington, a small suburb of this city, detectives this morning found the charred bones of little Howard Pictzel, one of Holmes' victims. The find was the reward of a long and persistent search by Detective Geyer, of Philadelphia, who came here six weeks ago and has been working ever since on the theory that young Pictzel had been killed here. Yesterday he and Inspector Gary found the empty cottage at Irvington, which had been occupied by a man answering Holmes' description, and a little boy, early last October.

THE BOY'S BONES FOUND.

They began a search and soon found a large stove and a black trunk in which it had been supposed that the boy had been shipped. Further search was rewarded by the finding of a number of charred bones in the chimney, together with the buttons of the boy's overcoat. Evidently the child had been murdered in the house and his body cremated there.

The supposed murderer and his victims came to the house together and were seen about the place for a week, when both disappeared, and nothing had since been heard of them.

Indianapolis, Ind., Aug. 28.—Detective Geyer is now sanguine that the entire mystery will be cleared up. There is no questioning the character of the charred bones uncovered, or that they belonged to a youthful person, while scores of people readily recognize the photograph of the deceased lad, frequently seen playing in the streets during the few days of occupancy by Clark. Several of the lads of the village tried to make friends with the boy, but he was singularly uncommunicative, and as they were under some severe restraint. It is Geyer's theory that Holmes had chloroformed the lad and then cremated him in the stove. Charred fragments of corn cobs, also found in the chimney, showing the character of the fuel used. When the stove was leased, the owner spoke of his neighbor, a noted bandit chief, who was not going to have gas put in the house, for it would be unhealthful for the boys.

There is an abundance of corn cobs close at hand, and as is known, they generate an intense heat. The chimney in which the fragments were thrown is in hollow to the basement, so as to permit the fragments to fall below, although no fire was ever kindled. Believes that Holmes concluded that no one would ever think of looking for evidence of his crime, and so chose that for his hiding place, and not destroy by heat. Messrs. Geyer and Gary will return today to Philadelphia. It is very probable that a demand for the removal of Holmes to this city that he may be tried for the murder of the boy will be made. The evidence here is regarded as stronger than at any other point, unless it be Toronto.

WOMEN CAN ENTER.

Helena, Mont., Aug. 28.—In the Montana Methodist conference last night the question of admitting women to the general conference, on the same footing as men, was decided in favor of the women by a vote of 34 to 4.

MEXICO'S FIRST HANGING.

St. Louis, Mo., Aug. 28.—A special train from Mexico, says that Stanislaus Tamarez, a noted bandit chief, who for the past ten years has committed robberies and murders in the mountains west of there, and who was recently captured by Government troops, was hanged at Parral yesterday. This is the first execution by hanging that has occurred in Mexico, the usual manner of death being shooting.

STRUCK BY A G. T. R. TRAIN.

Kingston, Ont., Aug. 28.—Yesterday morning Joseph Morton and his nephew John Gray were driving into the city in a covered milk wagon. They were watching the Grand Trunk suburban train and did not notice the approach of the wagon reaching the crossing, which a collision occurred. The horse was killed, the wagon smashed, and Gray dragged by the train and injured about the head and broke an arm. He may recover. Morton escaped with a few serious bruises.

DROWNING AT COLLINGWOOD.

Collingwood, Ont., Aug. 28.—What is supposed to be a drowning accident happened here Monday night. Wm. Trev, who lived in Toronto, was an engineer on the G. T. R. freight train running between that place and Collingwood, went to the end of the train about 9 o'clock for a bath. As he failed to return before morning a search was made for him and some of his clothing was found there. The body has not been discovered. He leaves a wife and four children.

Late Canadian News.

Mr. Fred Gibson died on Tuesday at Whitby from injuries received while loading a wagon. Mr. Gibson while driving into C. F. Stewart's orchard was thrown from the wagon against a post.

Capt. Jas. Murray, of St. Catharines, expired suddenly at his residence in that city on Tuesday. He was born in May, 1832, in Scotland, coming here in 1857, and became one of Hamilton's prominent business men.

The approaching marriage is announced of Chas. Beaubien, cousin of Hon. Louis Beaubien, Minister of Agriculture of the Province of Quebec, and Miss Julie Anne Casgrain, daughter of L. C. A. Casgrain, of Windsor, Ont.

The charge against Wm. McMillan, of setting fire to the Osgoodby Building, Toronto, and causing a \$750,000 loss, on the evening of January 10, was taken up Tuesday morning in the Police Court. Some evidence was put in, and the case was adjourned till Friday.

Mr. David B. Moss, 22, of Moulinette, about six miles west of Cornwall, went to the church in Wales Sunday night, and after service started to ride home between the double track of the Grand Trunk Railway. Geo. Flicks found Mr. Moss' body in a culvert, about a mile west of Moulinette. The unfortunate young man probably rode into the culvert, and either killed himself, or stunned so that he drowned in the water. He was astride his wheel when his body was found.

THE GREAT CANAL.

New Developments in Chicago's Sewage Outlet.

How Much Will It Lower the Level of the Lakes?

Washington, Aug. 28.—One of the most important matters Secretary Lamont will be called upon to decide during his term of office is now pending before the War Department. It is the report of the board of engineers appointed to examine and report upon the effect which the Chicago drainage canal, now in course of construction, will have on the waters of the great lakes. Two distinct interests are arrayed against each other in the matter—the people of Chicago on one side and the navigation interests of the lakes on the other. Chicago wants the canal to drain the river of that name, which has for years polluted the city and Lake Michigan for many miles, rendering the water impure and threatening the health of the city. The shipping people contend that in furnishing water to drain the city and carry off its sewage, the water level of the lakes will be lowered from six to twelve inches, but many eminent engineers disagree as to the exact limit the decrease of the water will reach. It is contended that six inches will be the limit.

The Lake Carriers' Association is making the greatest fight against the canal. It is said by these representatives that all the harbors on Lake Michigan and Lake Huron will be lowered, and that vessels with full loads, built for the present depth of harbors, will not be able to enter. It is claimed that Lake Huron will be affected because the Straits of Mackinaw are so broad and deep that the level of one lake is governed by the other. The Canadian engineers are also making a protest against the canal, and they will try and interest the Canadian Government in opposition to it. It is possible that the matter may be brought to the attention of the State Department.

Chicago is determined to have the canal, and work upon it has been in progress for some time. It is claimed that in case Secretary Lamont should decide that navigation interests will be injured to such an extent that the department cannot permit the construction of the canal, the fight will be carried to Congress and a bill presented authorizing the work.

AN AWFUL DEATH.

In a Printing House—The Foreman Killed by His Own Request.

New Rochelle, N. Y., Aug. 28.—Foreman David P. Williams and two press riggers of the Cottrell Printing Manufacturing Company were at work last night removing an old press from the Knickerbocker Press Company's building. A large iron frame that they were taking from the elevator tipped over on Williams. The men and Williams used their united strength in holding the frame up, but they soon became exhausted, and the frame gradually pinned Williams to the floor. The men shouted for help. There was no response, as everybody had left the establishment. Williams and the men were torn out by their exertions. Seeing that there was no help for him, Williams called to his companions, "Go! help me! let it drop and put me out of my agony." The two men were in a fainting condition from supporting the frame. They withdrew their hands and the mass of iron fell upon Williams, crushing him to death.

BOY BURNED TO DEATH.

Huntsville, Ont., Aug. 28.—The barn of Geo. Hutchins, near here, took fire Monday from the bursting of a lamp. Mr. Hutchins' son and two other boys went to the barn to sleep, and when blowing out the lamp it burst. They used all endeavors to smother the flames, but without avail. One of the boys named Alvin Joyce, about 14 years, perished in the flames, and Mr. Hutchins was badly burned, and is hardly expected to recover. His son's hat and implements were burned.

No one need fear cholera or any summer complaint if they have a bottle of Dr. J. D. Kellogg's Dysentery Cordial ready for use. It corrects all looseness of the bowels promptly, and causes a healthy and natural action. This is a medicine adapted for their united old, rich and poor, and is rapidly becoming the most popular medicine for cholera, dysentery, etc., in the market.

THERE IS NOT a more dangerous class of disorders than those which affect the breathing organs. Nullify this danger with Dr. Thomas' Electric Oil—a pulmonary acknowledged efficacy. It cures soreness and lameness when applied externally, as well as swelled neck and crick in the back; and, as an inward specific, possesses most substantial claims to public confidence.

Racers Arrive.

Some of America's Fastest Wheelmen in London.

Welcomed in Proper Style at the G. T. R. Station.

The Names of the Flyers—Cuts of Two Swift Ones.

London is full of knickerbockered wheelmen today, who have gathered for the meet this afternoon. They all arrived last night from Stratford and were welcomed at the station by a brass band, Greek lights, a couple of hundred resident wheelmen, several hundred other citizens, who are saving their dimes to buy wheels, one monkey and a hand organ.

Before going to the station the wheelmen participated in a lantern parade that attracted thousands of citizens. The illuminations were not as plentiful as they have been, but those who did decorate, did not stop half way. The starting point was from the London Bicycle Club house on Dundas street. The route taken was Dundas street to Wellington street, and thence to the park. The park was circled, and Park avenue taken to Queen's avenue. The park's avenue was followed until Adelaide street was reached, when the procession turned south to King street. They went back on King street to Clarence, and thence to the Grand Trunk station.

Every inch of the route was crowded by spectators. The Seventh Band led the way in a bus and furnished music along the line of march. One jolly gang of wheelmen, chartered a four-in-hand French brake, and by means of a hand organ and a monkey made lots of fun. The same monkey and organ was the cause of infinite amusement at the station.

On the arrival of the train the following wheelmen registered at the Tecomseh House:

Cleveland team—F. B. Rigby, O. P. Bernhart and G. N. Evans.

Monarch team—Tom Cooper, J. P. Bliss and J. Moulton.

Morgan & Wright team—E. McNeal, W. E. Polak, Arthur Gardiner, A. W. Shale, E. R. Coulter, E. H. Tollem, Monte Scott, E. H. Stephens, W. Decardy, F. J. Lyman, E. E. Anderson, A. F. Horner, J. E. Lund, H. Van Herik, W. Bambridge, and E. B. Frazer.

American racing team—A. D. Kennedy, Gus Steele and Ed Herr.

Sterling team—A. W. Warren, A. I. Brown, H. H. Maddox, W. J. Hyland and M. J. Dunn.

Hyslop team—W. Hulce, T. B. McCarthy, W. M. McIntosh.

F. G. Barnett and C. J. Barnett, St. Clair, Neb.; E. Temple, Chicago; W. E. Gilbert, Hamilton; Charles H. Cooley, jun., Hartford, Conn.; F. G. Loughhead and T. E. Spooner, Sarnia; J. G. Dunbar, Stratford; W. A. Karn, Frank Mitchell and Hal B. Donly.

At the Griggs were:

Brantford team—S. Gibbons, A. McLeod, M. Wells, P. Davidson.

R. E. Leaven, T. B. C.; J. W. Fox, R. O. Blaney, Leo Maden, George Gordon, A. C. Toronto; H. D. McKellar, R. Quinlan, C. F. Williams, S. W. Ramsey, Cecil Elliot, A. E. Young, J. H. Goatz, R. E. McCall and W. Tilton, Toronto.

J. H. Gerrie, representing the Mail Empire, and Charles Good, representing the Globe, are with the racers.

This morning was spent by the majority of the wheelmen in exercising on the track.

Appended are cuts of C. R. Coulter and Arthur Gardiner, of the Morgan & Wright team, two of the fastest men in America.

C. R. COULTER.

Coulter began this season's races by running second by inches only to Eddie Bald, both in the one mile open and the two-mile open at San Jose, Cal., run in 2:04 and 4:15. He joined the national circuit at Iliou, N. Y., and the same day won the half mile and the mile open events. At Syracuse he repeated the performance, and for the week ending June 20 to his credit seven firsts and two seconds out of ten starts. At Mansfield July 29 he reduced the State record from 2:12 to 1:55 2-5, the fastest exhibition mile ever ridden on a dirt track.

ARTHUR GARDINER.

Gardiner sprang into prominence for the first time last year in the Chicago road race, and subsequently made many winnings in class A. He began this season with the southern circuit, winning eleven firsts out of twelve starts over last year's cracks, and at the recent Galesburg meet won four firsts and a third out of five starts. During the past month he has broken both the Ohio and the Indiana State records for the half mile, and in one week received \$1,000 in prizes. At Chicago on Aug. 10 he won the unplaced mile, his only start in 2:09, claiming a new world's record for the two-thirds mile.

The meet will wind up with a promenade concert in the Princess Rink to-night. The Seventh Band and some of the very best local talent have been engaged.

While the lantern parade was in progress last night a number of boys made it miserable for riders by snatching the lanterns and running off with them.

R. O. Blayne, one of the Toronto contingent of racers, met with an accident this morning which may prevent him from riding this afternoon. He was taking a little spin on the new track, when he ran to the inside and struck on a pile of stones. He received some severe bruises.

THE LARGEST YET.

Attendance at the Forthcoming Model School Work.

Again the Schools Are Crowded—Kindergarten on Schools Doing Double Duty—School Holiday.

The model school term commences on Tuesday next and from the applications already in the hands of Inspector Carson and Principal Graham, the class promises to be the largest since its inception. This year, as last, the teachers will be taught by Principals Graham, at the Simcoe street school. The date set for opening is Monday, Sept. 2, but Labor Day also falls that date and all the schools will be closed. In the following week the fair will attract a number of pupils, so that the children will not really get down to routine until after fair time.

The Colborne street school has been repaired and made presentable for this term. The regular returns will be in the hands of Inspector Carson on Tuesday next, when it will be seen where the overcrowding will be this term. At present the upper form pupils at the Askin street school are pinched for room.

The kindergartens at Queen's avenue and South London have resumed their system of overtime. To accommodate the young ones at these schools they were ordered to be kept open in the afternoons in order to give those children a chance to attend who were crowded out of the morning class. Both afternoon classes are already largely attended.

LOCAL BREVITIES.

—Manager Carr, of the Street Railway Company, is in Toronto today.

—Yesterday \$17,000 was paid into the city treasury by taxpayers. Nearly \$100,000, or about two-thirds of the first installment, has been paid in.

—Messrs. W. T. Duff, Fred McMillan, John W. Smith, James Wilkins and W. W. Clarke are the London delegates attending the A. O. E. High Court at Guelph.

The funeral of the late James Webb, a resident of London for many years, and at one time conducted the California store at the corner of Richmond and King streets, took place this morning at 11 o'clock. The interment was at Mount Pleasant and a large number of Sons of England, fellow members of British Oak Lodge, attended in a body.

—Mr. Wm. Moore, of 16 Mar
