STRAIGHT ANNEXATION. President Harrison's Meseage Regard

President Harrison's Meseage Regard ing Hawaii-The Royal Family to be Pensioned.

WASHINGTON, Feb. 16.—The message which President Harrison sent to the Senate yesterday with the Hawaiian treaty stated that it was deemed more desirable to fully annex the islands than to establish a protectorate. The President says the overthrow of the monarchy was not in any way promoted by this Government; that the restoration of the deposed Queen is undesirable if not impossible, and that unless actively supported by the United States would be accompanied by disorder and the demoralization of all business.

The President says: "It is essential that none of the other great powers shall secure these islands. Such a possession would not consort with our safety and with the peace of the world. Prompt action upon this treaty is very desirable. If it meets the approval of the Senate peace and good order will be secured to the islands under existing laws until such time as Congress can provide by legislation a permanent form of Government for the islands."

Secretary Foster says that pending the progulations he received assurances from

the representatives of the leading powers of the world in this city and from Ministers abroad convincing him that the incorporation of the Hawaiian islands into the Union will be regarded by the powers with satisfaction or ready acquiescence. The treaty itself provides for the cession of all rights of sovereignty over the islands, all public buildings and property, to the United States. Revenue from public lands, except such as are reserved for Government purposes, to be used solely for the benefit of the people of the islands.

Further immigration of Chinese into the islands is prohibited, and the Chinese now there will not be permitted to come into the present territory of the United States. The public debt of the islands is assumed by the United States to the extent of \$5,250,000. The United States agrees to pay Queen Lilioukalani \$60,000 a year during life, and to Princess Kaiouloui \$150,000.

LIQUOR-DEALERS ON THE : MOVE Emboldened by the recent vote on the early-closing bylaw, the liquor dealers of the city purpose following up their temporary advantage in the belief that present circumstances are favorable. They are circulating for signatures a petition which will be presented to the City Council at its meeting Monday night. The petition, "larded with many several sorts of reason," asks that the number of liquor licenses in the city be increased by six hotels and one shep license, and that three of the present wholesale shop licenses be changed to retail licenses. This request they hope will be granted by the council. The object of the petitioners is to secure the decision of the council at once, in order, if they are successful, that it may take effect at the commencement of the ensuing license year. The council must take such action before March 1, if they wish it to be applied this year.

Messrs, Macbeth, Hufl, Henry, Smith, Brasbie, Furness, Richardson and Griffith made up the jolly crowd. They all had a splendid time.
