ASYLUM SPORTS DREW BIG CROWD

Despite the Rain an Excellent Time Was Enjoyed by All Present.

SOME REAL GOOD EVENTS

Patients Took Part in the Sports, One in Particular Being an Exceptionally Fine Athlete.

Rain interfered with the asylum sports yesterday afternoon somewhat, although practically the entire programme was carried out.

There was a good crowd of spectators, and there is no doubt it would have been much larger had the weather not been threatening.

However, several hundred remained until the programme was completed, and apparently had an excellent time. The interesting features were numerous, and there was plenty of entertainment for all parties.

The Champion Athlete.

The patients took a keen interest in the programme, and the entries were numerous in every event. Some of them showed considerable skill in the contests. Robert Tremblay, gave an exhibition of wire walking that would be hard to excel. He won many prizes in the competitions, and could readily be classed as the champion athlete of the day.

The obstacle race, of course, provided unlimited amusement. The contestants were to climb fences, go over hay racks, under netting and overcome many obstacles such as these. Several of them got mixed up badly, creating great fun for the spectators.

The boxing in barrels was another funny bit of sport. Dr. Harris and E. B. Heighway put up a fine argument. Dr. Harris winning the round. He was afterwards defeated by F. Last, and had to be content with third place.

POCKET PICKER PUNISHED

One Year For Lifting \$410 From Man at the Woodbine.

Toronto, Ont., Sept. 25.—"It is a pretty bad case of picking pockets," observed Magistrate Denison this morning, in committing Louis Seigal to the Central Prison for one year for stealing \$410 from Harris Block, at the Woodbine, last Saturday. Morris Smith, 217 Queen street west, who, it was alleged, did the "crowding" while Seigal went through the victim's pockets, got the benefit of a doubt and was allowed to go. Seigal was recently arrested in a department store while posing as a special detective from Philadelphia.

MAY PROVE AN ALIBI FOR MRS. TURNER

Counsel Says She Could Not Have Destroyed Baby as Charged.

Toronto, Sept. 24.—An alibi is what T. C. Robinson will set up for the defence of Mrs. Turner, charged with the murder of the Authers babe, which was thrown out of the window of a New York Central train on Thursday, Sept. 16. According to him, she did not return on the New York Central train, but came back by the Gorge route, and so could not have thrown the box containing the child where it was found.

To her counsel the accused woman says that she gave the child to Mrs. Maud Wagner, of Cleveland, who had written to her about adopting the child. She says she gave the child to Mrs. Wagner on Wednesday in Toronto, and that she promised to meet her in Niagara Falls on Thursday to give her some clothes for the babe.

She admits she had a box like the one containing the child, but claims it only held the clothes and her lunch, and that she checked it in the baggage room on the boat. She met Mrs. Wagner at the New York Central depot and then the Authers babe was alive and well.

Mrs. Turner denies that she advertised in the papers for the adoption of children and says she never kept any other babies but the Authers babe and the King babe, which she still declares is the one at the Wood street home.

NOT A LIBEL

Toronto, Ont., Sept. 25.—While it may be a hardship to anyone to have to defend an action against a pauper plaintiff, yet it is to be remembered that the right of action is not to be denied to a poor man unless there is "just" to that fact," remarked the master in chambers, in dismissing with costs, in the case of the motion for security for costs in an action for libel, brought by J. Carling Kelly, against P. D. Ross, and the Journal Printing Company, of Ottawa. The room to that fact," said Mr. Russell. "There will be about 125 per cent more than last year. The fruit is smaller and later than last season. In Eastern Ontario there is a good crop of apples, but which has been more or less damaged by aphids. Why We Should Fill Your Prescriptions

We do a very large prescription business, which is a good reason why we should do more. A drug store favored with an unusual share of the prescription business of a community is certain to be the one where the service is best. It is a store that carries an adequate stock of prescription drugs, and one where the compounding is done by experienced, registered pharmacists. We give high-grade service, but our prices are always reasonable.

MARKET CLERK WARS ON LOCAL HUCKSTERS

Charles Maker Is a Good Official Who Looks After the Interests of the People.

Market Clerk Maker is out with a big stick for those who buy produce on the market before the people get around, and then retail it at a higher price on the same square to Londoners.

Mr. Maker sees the perniciousness of this practice, and has sought the aid of No. 3 committee and the police, with already some success.

The market clerk is a czar in his way, but he is a peaceable ruler, and works for the good of the city and of the people against all comers.

A man of powerful physique he merely puts up his hand, and the drivers of hundreds of vehicles obey his commands. On the crowded square he maintains order and does it without fuss or flurry. If any team becomes obstreperous the market clerk, with an arm like a blacksmith, sets the animals right in a moment. He has no favorites amongst the farmers, or others and everybody gets a fair show. Young and old tell of him he is just the man for market clerk.
