Canadian Prevs Desnatch
Toronto, Oct. 16.—Consolidated Smeiters shares continued their remarkable upward course by advancing 9½ points to 165½ in brisk trading on the Toronto stock exchange today. The attainment of six times par earlier in the week brought the stock to the point where the stability of that price level was seriously questioned.

Smelters held an undisputed leadership. The stock came out at 156½ and moved up to 165½ before the noon recess. The price range in the afternoon was between 162% and 165½ with the final transaction at 164% to 165.

Brazilian Traction was second in market interest. The day's price range on Brazilian was between 78½ and 79% with the close at the lower price. The net decline for the day was 1¾ points, and the total turnover was 4,157 shares. A surprisingly strong market developed in Canada Steamships preferred. A surprisingly strong market de-veloped in Canada Steamships preferred. The high mark feached on the local board was at 6214, and the close was

strong at that price. This represents a net adavance of 3% points.

There was a narrow market in Canadian Oil shares, and this appeared to be due entirely to the lack of offerings. Small lots of the common changed hands at 59 and 59½, and a single board lot transaction in the preferred was made at 98.

The balance of trading was widely distributed over the list, Atlantic Sugar common turned easie, after its strength of Wednesday and Thursday, Today's close was 1½ points down at 35½, and at the same time the preferred was firmer at 87½ and 87%.
