NEW YORK, June 5-Col. Cole, brother due and expenses. The amount of of Senator Cole, of California, murdered one the call unpaid was \$5 on each share, of Senstor Cole, of California, indicated du-Hiscock. Hiscock was chairman of the Ju-diciary Committee of the House during the up in lots, and bought in by the Company's agent for the sum due. arrested and has made a statement to the effect that he entered the army as a private, and rose during his five years service, to a Major-Generalshtp. He supposed Hiscock te be the best friend he had in the world. When he went south in 1864 his wife was sick. and was, at one time expected to die. The ball entered the left breast. He He desired Hiscock, who was a relation, to was alone in the house and no one look after her. Afterwards, he made insultknew of the accident until his groans ing propositions to her, and being refused. made a forcible attempt. He professed penitence, and she concealed his conduct were heard nine hours afterwards by a man who passed the house. Sur, from her husband. She became dejected under a sense of her shame. A week ago, dered and the ball extracted. The Hiscock met me and asked me when I was going away again. His guilty manner aroused my suspicions, and I learned all the facts from my wife's lips. He, Cole, intended tempting to load his pistol, when it to take her to her sister in Brooklyn and accidentally exploded. The dethen return and force Hiscock at pistol's cease was sixty six years, and a month to confess, beg forgiveness or leave the country. He arrived at Albany en route, and thuking he had better have it off his mind, went to the hotel and at the sight of his wife destroyed and his children disgraced, he became maddened. At the coroser's innative of Sherbourne, Massachusetts. He was a member of the Masonic quest, Cole stated that when Hiscock was within twelve feet of him he drew a pistol from his pocket and deliberately leveled it at rescue and defeat the nomination of his head, almost touching his face, he fired, Gorham. In the event of a defeat in and Hiscock fell without an exclamation. Cole said on the way to the station-house that Hiscock had dishonored his simple and innocent wife. He was much affected and kept repeating that fact, apparently much frenzied.

NEW YORK, May 7-The Tribune's commentary on Cole's killing Hiscock says he will escape the halter, on the principle that Sickles and Mary Harris were acquitted. The Times says it was deliberate and intentional murder. E. J. Church declined to act as counsel for Cole.

NEW ORLEANS, June 10-Sheridan sent Forsyth, a staff officer, to the Executive Office 10-day, with instructions to eject Wells by force if he still refused to vacate the office of Governor. Wells yielded.

ALBANY, June 10-Gen. Cole was committed for trial on the charge of murder.

The Washington City Council adjourned after speeches having been made dencuncing the election as a farce and saying that it was carried by droves of contrabands, and that the new members of the Council were not fit to associate with old residents of the City. It is believed that a colored man will be made Secretary of the new Board.

The Spracuse Journal says that positive and conclusive proof exists that the statements of Mrs Cole, on which her husband killed His ock, are untrue.

The tone of the Albany press is much exeited by interested parties, and is having a tendency to excite a prejudice against the prisoner. Cole's counsel was Mrs Hartang's counsel.

The Troy Times intimates that the deed may have been caused by estrangement and

hem to be reinstated.

Ayer's Sarsaparilla, BRISTOL'S

A compound remedy, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-

citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints :

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, UL CERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHI-LITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREAUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE, OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great pro-moter of health, when taken in the spring, to ex-pel the foul humors which fester in the blood at bet the four humors which fester in the blood at that season of the year. By the timely expul-sion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this threach the if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no fasting health. Scenar or large prediction

be no fasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown. Sarsaparilla has, and deserves much, the repu-

tation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be con-centrated extracts of it, contain but little of the

virtue of Sarsaparilla, or any thing else. During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of

these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla

which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply

such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to

secure their complete eradication from the sys-tem, the remedy should be judiciously taken ac-cording to directions on the bottle. PREPARED BY
