ABSOLUTELY PURE

NEWS OF THE PROVINCE

Westminster's New Municipal Council—Lord and Lady Sholto Douglas at Vancouver.

Escaped Convict Not Captured—Killed by the Cars—Growth of Revelstoke.

(Special to the Colonist.)

VANCOUVER.

VANCOUVER, Dec. 15.—The accident to Mr. J. D. Dalton, of the Fraser River Mining and Dredging Co., which occurred some few weeks ago at Lytton had a fatal termination yesterday. It will be remembered that Mr. Dalton was caught in the machinery of a dredge which necessitated the amputation of one of his legs on Sunday, from which he was unable to rally. The funeral took place to-day under the auspices of the Odd Fellows, at 12 A. F. and A. M. The man Eldridge who escaped from the jail at New Westminster on Saturday has not yet been re-captured. The police say there is little fear of his returning to Vancouver and just as little of his crossing over to the States, as he is too well known both here and there, but there does not appear to be any special effort being made to re-capture him.

A. C. Stewart, principal of the Mount Pleasant school, who was accidentally shot a few weeks ago, has so far recovered from the effect of the accident to be able to be removed from the hospital to his residence.

Captain Hepburn, lately of the Warrimoo, left for England yesterday to bring out the Aorangi, the new boat for the Canadian-Australian line.

Lord and Lady Sholto Douglas have arrived in the city and are registered at the Hamilton Hotel. The Lordship says he has come to British Columbia to escape the persecutions of the sensational American press and to shoot ducks.

J. O. Williams, lately manager of the Manor house, has left for England. He has come to return to the city early in the spring.

Mr. Justice Bole held Supreme chambers yesterday, when a long list of matters was disposed of.

A meeting of some of the electors of Ward 4 was held last night for the purpose of forming a municipal league for that ward. Officers and committees were appointed and matters pertaining to the approaching municipal election discussed.

Rev. Dr. Lucas lectured last night on imperial federation in the Homer street Methodist church.

The city council held their usual weekly meeting last night, when a long discussion upon cemetery matters was held. It is expected that the low grade ore will average about 1 per cent. The plant now in operation will treat daily from 20 to 30 tons. The market for quicksilver is practically unlimited, as besides the largest consumption of the metal in mining, in the arts and for other purposes, there is a large demand for it in China for the manufacture of vermilion.

Attention is again being directed to the neighborhood of Rockford, many of the old mineral claims having been relocated and others staked out as well. It is reported that among the recent discoveries are two distinct lodes, each about twelve feet in width and showing galena, barytes, and pyrites, which is being mined by Klamrook and Spence's Bridge, about thirty miles to the south of the former place.

Captain Garland, manager of the North Bend mine, and Messrs. J. and J. Lyons have incorporated and organized a company to work the ground leased by them, about four miles up the river, opposite North Bend. It is believed to be a choice piece of ground.

Col. Wright and Capt. Jamieson, well known mining men, have started for Ottawa. A meeting of the stockholders of the 48rd Mining and Milling Company will be held the first of the year at Ottawa, and the next season's work for the North Bend and Omicamea mines laid out. The North Bend company had a very successful season, all things considered. During the time it was in operation an average of about \$100 per day was taken out with only a small supply of water, much of the time only about 200 inches being used.

A statement of the position of the Horsely Mining Company has been issued as well as a circular setting forth that inasmuch as some of the expenditures of \$100,488.08 represent debts that must be paid immediately, it has been deemed advisable by the directors to levy an assessment of 25 cents per share. The plant is complete and ready for active hydraulic operations immediately upon the opening of the mining season of 1897, and it is confidently expected by the management to handle from 2,000 to 3,000 cubic yards of gravel per day. It is not anticipated that another call will be necessary.

probably go to the Nelson smelter. Last week there was shipped from Arrowhead a consignment of Silver Cup ore to the Tacoma smelter. The shipment was one of twenty tons, and was of an average value of \$400 per ton. The silver ore of that district are as rich in silver as those of the Siccan, and go well also in gold.

The inquest on the body of the man killed on the Arrow Lake branch on Friday disclosed the fact that he was a Swede named Andrew Johnson. The coroner's jury decided that he was "killed accidentally by an engine, while under the influence of liquor, no blame attaching to anyone." A rider was added that as the depot and its neighborhood at Arrowhead is more or less a thoroughfare, the railway company should properly light the place.

At the sitting of the court of revision on Thursday it was demonstrated that this town and surrounding country were progressing favorably and adding materially to the country's wealth and development. The total area of last year were: high rate, \$7,325.14; low rate, \$5,700.19. This year they are, high rate, \$9,199.84; low rate, \$7,312.09; giving an average increase of nearly \$2,000 in taxes. The increase from other receipts in the local office, such as mining and revenue amounts to about \$6,000 more than last year.

Mr. Jameson, engineer for the Horner-Payne Co., has given Craig & Hillman a contract for hauling two hundred tons of ore from the Broadway. On this property they are sinking a shaft and running a level to the vein, and will also run a second tunnel one hundred feet below the first workings to catch the vein for the purpose of stopping. When the vein is caught and the ore picked, shipments will probably begin.

The fact of Messrs. Marpole and Mara going to Montreal together has given rise to much speculation, but it is generally conceded that the total cost of the C. & K. S. N. Co.'s steamers and business by the C.P.R.

REVELSTOKE.

REVELSTOKE, Dec. 10.—Ore shipments through Revelstoke up to date from last report are as follows:

Tons.	Value.	Dist.	
Slocan Star	200	\$14,740.50	Omaha
Idaho	20	2,795.00	Everett
Total	220	\$17,535.50	

CARIBOO.

(From the B.C. Mining Journal.)

Work at the North Star mine, near Queenelle, is shut down.

George B. Walker and three men are working a claim on the Bonaparte river about sixteen miles up the Cariboo road. Some fine locations have been made in the vicinity of Hat creek.

Considerable work is being done on all the creeks in the vicinity of Barkerville and Stanley. Ground has been found on Creston, which is reported to run over \$25.00 a yard.

Frequent mention has been made of the quicksilver mines at Savona, not far from Ashcroft. The discovery of cinnabar in that section demonstrates the greater variety of Rockford is on the road between Kamloops and Spence's Bridge, about thirty miles to the south of the former place.

Captain Garland, manager of the North Bend mine, and Messrs. J. and J. Lyons have incorporated and organized a company to work the ground leased by them, about four miles up the river, opposite North Bend. It is believed to be a choice piece of ground.

Col. Wright and Capt. Jamieson, well known mining men, have started for Ottawa. A meeting of the stockholders of the 48rd Mining and Milling Company will be held the first of the year at Ottawa, and the next season's work for the North Bend and Omicamea mines laid out. The North Bend company had a very successful season, all things considered. During the time it was in operation an average of about \$100 per day was taken out with only a small supply of water, much of the time only about 200 inches being used.

A statement of the position of the Horsely Mining Company has been issued as well as a circular setting forth that inasmuch as some of the expenditures of \$100,488.08 represent debts that must be paid immediately, it has been deemed advisable by the directors to levy an assessment of 25 cents per share. The plant is complete and ready for active hydraulic operations immediately upon the opening of the mining season of 1897, and it is confidently expected by the management to handle from 2,000 to 3,000 cubic yards of gravel per day. It is not anticipated that another call will be necessary.

MACEO ASSASSINATED.

While on His Way to a Conference With the Spanish He Was Waylaid.

The Cuban Sentiment Aroused to a Condition of Intense Excitement.

NEW YORK, Dec. 12.—A special to the Evening World from Jacksonville, Fla., says: "General Antonio Maceo, the famous Cuban leader, is really dead. He was treacherously murdered by Spaniards on December 7, while on his way to attend a conference to which he was invited by the Marquis of Ahumada, acting Captain-General of Cuba, while General Weyler was in the field. This morning a letter was received by A. J. Juan, head of the Cuban Junta, in this city, giving a detailed account of the assassination of General Maceo and his entire staff, with the exception of Dr. Zertucha, who was Maceo's physician. The letter came from a reliable source in Havana.

From the letter it appears that the Marquis of Ahumada, who is acting as Captain-General of Cuba, sent a letter to General Maceo, inviting the Cuban leader to a conference. Maceo never for a moment thought treachery was intended, especially by such a prominent Spaniard as the Marquis of Ahumada. Accompanied by his staff only, he went to the rendezvous, little dreaming of the awful fate which was in store for him. On arriving at the trocha, the Spanish soldiers there, acting under orders, saluted the rebel chieftain as he passed, but after reaching the rendezvous Maceo was surprised to see instead of the Marquis of Ahumada a large body of Spaniards who seemed to come from every side. The actions of the Spanish troops were so suspicious that Maceo felt that he had been trapped and his suspicions were confirmed when a peremptory order came from a mounted officer whose name it was subsequently learned was Major Cerejuda, demanding his unconditional surrender.

"Never," was the reply, and hardly had the words been uttered than volley after volley was poured into the little band of patriots, who, although hemmed in on all sides and outnumbered almost one hundred to one, stuck spurs to their horses and with cries of "Cuba Libre" rode gallantly to their death. Maceo is reported to have fallen at the first fire with a bullet through his head, breaking his jaw, and another bullet hit him in the chest. Both were fatal.

Young Francisco Gomez, son of the Cuban commander-in-chief, was the next to fall, and in a few moments bloody corpses, all shot almost beyond recognition, so fierce and concentrated was the Spanish fire, was all that remained of the gallant Cubans who had trusted to Spanish honor.

Only one member of the staff escaped, and that was Dr. Zertucha. The letter then goes on to say that the corpses were buried on the field and every precaution taken to keep the details of the horrible butchery from being made public. It is the opinion of many that this dreadful assassination of Maceo will do more to force prompt action on the part of the United States in regard to Cuba than anything else which could have happened.

A despatch to the New York Junta says that Maceo was assassinated through the instrumentality of Dr. Zertucha, who led Maceo and his entire staff across the trocha, where they were met by General Ahumada, the General Maceo and his entire staff being assassinated with machetes.

MADRID, Dec. 12.—The Queen regent to-day received in audience Senora Cirujeda, wife of Major Cirujeda, whose troops appear to have killed Antonio Maceo. Her Majesty congratulated the Major's wife and granted imperial protection for the Major's eldest son, who accompanied Senora Cirujeda. The Queen also promised to pay for the boy's education.

Those who are conversant with the plans of the Spanish Premier, Senor Canovas del Castillo, state that since the debate in the chamber of deputies the government has not thought of the posted reforms in Cuba, being solely occupied with providing means for the success of the war. While they consider that the death of Antonio Maceo is a great blow to the insurgents, it is pointed out that some time must elapse before it can be fully felt. When Maceo and Gomez were asked at an earlier period of the insurrection whether they would order their followers to lay down their arms in the event of autonomy being granted to Cuba, they refused and said they would only consent to complete independence and a republican form of government. Spain therefore, is convinced that the rebellion must be crushed by force of arms, and to discuss reforms at present would be equivalent to proposing an arrangement with the insurgents which at most, would secure a temporary peace, that would not last six months. So long as there is the slightest doubt of the superiority of Spain in Cuba the war will continue; but when that superiority is established, Spain will consider the advisability of granting such reforms as she may think necessary.

NOT SETTLED.

MONTREAL, Dec. 14.—La Semaine Religieuse, official organ of the archbishop of Montreal, says the school question is not settled but has entered on a new phase. That journal pledges to the minority of Manitoba in the struggle about to be entered on, the support of the entire clergy, under the direction of the episcopate and with the encouragement of the Pope.

Do not allow your system to get weak and debilitated. It is the only safe and strong way of taking Hood's Sarsaparilla.

PROSPECTIVE GOVERNORS.

Toronto, Dec. 12.—(Special)—A Montreal special to the World says the political prophets there say that when Hon. Mr. Kirkpatrick's term of office expires at Government House, Toronto, an important shuffle will take place, more especially in the Quebec representation in the Laurier cabinet.

Foreign Parcel Post—Trade of London Waning.

LONDON, Dec. 12.—The text of the Russian-Chinese treaty reproduced here from the North China Daily News, has aroused considerable discussion and is regarded as a matter of the greatest importance. Some of the newspapers refuse to believe it authentic as it would be a great victory for Russian diplomacy. The Spectator to-day, however, believes it to be exact and says: "No forger would have tried so elaborately to protect the pride of China, while securing every Russian object. Nothing is ceded openly, but Russia is permitted to run a railway to Kwantung, and has been authorized to keep all the troops she pleases, to protect the Manchuria stations, and she is also to fortify Fort Arthur for China. No glass is required to interpret phrases like these which completely invest Russia with the military control of Manchuria and the Liang Tung.

France has decided to abolish the penal establishment in New Caledonia, which the Australians have long demanded. The first batch, consisting of several hundred men, is about to be transferred from New Caledonia to construct roads and in other ways to develop the island of Madagascar.

Great indignation prevails in anti-quarantine circles at the news that a number of Druidical remains at Dartmore have been destroyed, notably a stone avenue and several hut circles on Shiers. The antiquaries who have been engaged to reconstruct the ruins in order to utilize the pieces of stone in mending the roads.

It is announced that the pourparlers for a settlement of the frontier disputes between British Guiana and Brazil are expected shortly to be concluded. The formal negotiations commenced on the frontier question between Dutch Guiana and Brazil will be dealt with at the same time.

Edwin A. Abbey, the American artist, is one of those who have been commissioned to paint the frescoes of the vacant spaces in the royal exchange.

The statement made by Sir Thomas Biddell, a member of the committee of the Oriental Steam Navigation Co., to the stockholders of that company, that trade with the port of London is waning, has attracted attention and is generally endorsed in shipping and mercantile circles. London is declared to be still the leading port of the world, but it is losing its prestige as a distributing centre and goods are being taken direct to continental ports. The two chief reasons given are the exorbitant dock charges and the despatch of London labor.

The announcement that a foreign parcel post will be established in pursuance of the recent act of the congress of the United States is warmly received here, but there is some regret at the occurrence of the alleged narrowness of the policy of confining the transmission of the parcels to American vessels. The Daily Telegraph claims to see in this a characteristic example of a narrow protectionist spirit, but the despatch of London labor, occasionally came down to dinner in red satin bloomers.

A meeting of delegates of the citizens guild held at Hamburg to-day a resolution was passed by a vote of 49 to 27 expressing regret at the occurrence of the strike of dock laborers, but refusing to intervene or to attempt to influence either employers or strikers. An additional hundred non-union dock laborers arrived here from England to-day, and a number of strikers have returned to work.

The Hamburg senate announces that the new port of Cuxhaven will be open to-morrow, and that it will be included as a free port.

Earthquake shocks were felt in Norway at about 9 o'clock this morning at Larvik, on the south coast, and at Kilstad, in the province of Wernde. The disturbance lasted about 20 seconds, houses being shaken and furniture overturned. The Times in an editorial says it thinks, beyond a temporary check to the Cuban insurgents, that Antonio Maceo's death will change the situation very little. "Spain," says the Times, "must still be alive to the urgency of the problem."

The Baroness Leonino, daughter of Baron Gustave de Rothschild, died to-day, as the result of a fall from her horse while hunting.

The Spectator thinks the Russo-Chinese arrangement threatens Japan more than Great Britain, "which can resist when her commercial rights are threatened."

Sir Charles Dilke, in a speech, has expressed the opinion that the treaty will place Northern China at the feet of Russia, and that it is wholly inconsistent with the promises which China made to England when she left Fort Hamilton. His favor the resumption of that fort.

Sir Arthur Forward, member of parliament for the southern division of Lancashire, Conservative, in a speech said that probably China would become to Russia what India was to England, and that English trade in China would be superseded by Russian manufactures. The speaker said he knew that Russian government engineers were now in Manchuria studying the proposed railway.

Before a commission dealing with the charter for the Bank of France yesterday, M. Meline, president of the council, strongly advocated the cause of the bank as assisting to establish agricultural credit. The bank, he said, would assist the farmers on easy terms.

The Tagelbat, says that ex-Sultan Murad has escaped from the palace near Constantinople where he has remained practically a prisoner since he became insane in 1876.

Special Chinese envoys now in Italy have placed several orders for large battleships and cruisers.

RUSSIA AND CHINA.

Considerable Discussion Over the Treaty—Penal Settlement Abolished.

Destruction of Druidical Remains—Foreign Parcel Post—Trade of London Waning.

LONDON, Dec. 12.—The text of the Russian-Chinese treaty reproduced here from the North China Daily News, has aroused considerable discussion and is regarded as a matter of the greatest importance. Some of the newspapers refuse to believe it authentic as it would be a great victory for Russian diplomacy. The Spectator to-day, however, believes it to be exact and says: "No forger would have tried so elaborately to protect the pride of China, while securing every Russian object. Nothing is ceded openly, but Russia is permitted to run a railway to Kwantung, and has been authorized to keep all the troops she pleases, to protect the Manchuria stations, and she is also to fortify Fort Arthur for China. No glass is required to interpret phrases like these which completely invest Russia with the military control of Manchuria and the Liang Tung.

France has decided to abolish the penal establishment in New Caledonia, which the Australians have long demanded. The first batch, consisting of several hundred men, is about to be transferred from New Caledonia to construct roads and in other ways to develop the island of Madagascar.

Great indignation prevails in anti-quarantine circles at the news that a number of Druidical remains at Dartmore have been destroyed, notably a stone avenue and several hut circles on Shiers. The antiquaries who have been engaged to reconstruct the ruins in order to utilize the pieces of stone in mending the roads.

It is announced that the pourparlers for a settlement of the frontier disputes between British Guiana and Brazil are expected shortly to be concluded. The formal negotiations commenced on the frontier question between Dutch Guiana and Brazil will be dealt with at the same time.

Edwin A. Abbey, the American artist, is one of those who have been commissioned to paint the frescoes of the vacant spaces in the royal exchange.

The statement made by Sir Thomas Biddell, a member of the committee of the Oriental Steam Navigation Co., to the stockholders of that company, that trade with the port of London is waning, has attracted attention and is generally endorsed in shipping and mercantile circles. London is declared to be still the leading port of the world, but it is losing its prestige as a distributing centre and goods are being taken direct to continental ports. The two chief reasons given are the exorbitant dock charges and the despatch of London labor.

The announcement that a foreign parcel post will be established in pursuance of the recent act of the congress of the United States is warmly received here, but there is some regret at the occurrence of the alleged narrowness of the policy of confining the transmission of the parcels to American vessels. The Daily Telegraph claims to see in this a characteristic example of a narrow protectionist spirit, but the despatch of London labor, occasionally came down to dinner in red satin bloomers.

A meeting of delegates of the citizens guild held at Hamburg to-day a resolution was passed by a vote of 49 to 27 expressing regret at the occurrence of the strike of dock laborers, but refusing to intervene or to attempt to influence either employers or strikers. An additional hundred non-union dock laborers arrived here from England to-day, and a number of strikers have returned to work.

The Hamburg senate announces that the new port of Cuxhaven will be open to-morrow, and that it will be included as a free port.

Earthquake shocks were felt in Norway at about 9 o'clock this morning at Larvik, on the south coast, and at Kilstad, in the province of Wernde. The disturbance lasted about 20 seconds, houses being shaken and furniture overturned. The Times in an editorial says it thinks, beyond a temporary check to the Cuban insurgents, that Antonio Maceo's death will change the situation very little. "Spain," says the Times, "must still be alive to the urgency of the problem."

The Tagelbat, says that ex-Sultan Murad has escaped from the palace near Constantinople where he has remained practically a prisoner since he became insane in 1876.

Special Chinese envoys now in Italy have placed several orders for large battleships and cruisers.

THE PRINCE CONSORT.

Annual Memorial Service at Frogmore—Numerous Accidents to French Warships.

Earthquakes in Norway—England's "Fast Set"—Death of a Rothschild.

LONDON, Dec. 15.—The Queen, Prince and Princess of Wales, the Duke and Duchess of York, the Prince and Princess Christian, the Marquis of Lorne and Princess Louise, Princess Beatrice of Battenberg and her children, and the entire court, attended a memorial service in the Mausoleum at Frogmore yesterday in memory of the Prince Consort, Prince Albert, who died December 14, 1861.

In the French chamber of deputies to-day, during the discussion of the naval budget, M. Pelletan, representing the Bonches-du-Rhone, severely criticized the waste of money and obscurity of the accounts of the administrative department of the navy. He pointed out that there had been forty-two accidents to French warships of different classes during the past couple of months, and attributed them to bad construction due to red tape, another to the differences between the admirals and the engineers. The entire organization, he added, needed revision.

An inquest into the death of Fred Russell, who with Lady Selina Scott, John Cockerton and William Aylot, had been on trial upon the charge of having libelled Lord Russell, was held to-day. One of the witnesses testified that before his death, which resulted from pneumonia, Kast declared that everything he had said regarding Lord Russell was true. Lord Russell's solicitor, who was present at the inquest, protested against the admission of the witness and his evidence.

The police have seized a number of political letters and papers at the students lodgings in Moscow and have made forty more arrests to-day. A long story of the circumstances attending the death of Antonio Maceo by Dr. Zertucha, his physician, is published here. It concludes with saying: "Maceo always admired the bravery of the Spaniards and had little liking for Americans."

An inquest was held to-day over the remains of Mrs. Caroline Muriel Vanantle Le Champion, daughter of Captain Vanantle of Shropshire, who a month ago died of a heart disease. Her husband, Mr. Loftus Le Champion, a relative of the well-known sportsman Sir Claude Champion de Crespigny, Bart. Mrs. Le Champion committed suicide on Friday last, by swallowing a quantity of laudanum. The coroner's jury returned a verdict of temporary insanity. The divorce proceedings caused quite a stir at the time in revealing the doings of certain members of the "fast set" in England. Mrs. Le Champion was shown in court, occasionally came down to dinner in red satin bloomers.

A meeting of delegates of the citizens guild held at Hamburg to-day a resolution was passed by a vote of 49 to 27 expressing regret at the occurrence of the strike of dock laborers, but refusing to intervene or to attempt to influence either employers or strikers. An additional hundred non-union dock laborers arrived here from England to-day, and a number of strikers have returned to work.

MR. DAVIES AT VANCOUVER.

Vancouver, Dec. 14.—(Special)—Hon. Mr. Davies met the representatives of the local pilotage board at 11 o'clock and had a protracted discussion with the board.

MACEO'S SUCCESSOR.

NEW YORK, Dec. 14.—The last letter that the Cuban Junta in this city received from General Antonio Maceo contained an estimate of the qualities of General Ruiz Rivera, who if Maceo had been killed, as is now generally admitted, will succeed him in the insurrectionary command. General Maceo writes: "Rivera is not only brave, tireless and indomitable, but he is a great tactician. He is a thorough soldier and has acquired military advantages enjoyed by few men in my command. He knows the map of Cuba as well as the oldest guide and can hold Pinar del Rio against the Spanish army for ten years if necessary. Cuban organization here, made the following statement: "I received a telegram from my agent in Jacksonville affirming the news that General Maceo and his staff came into conflict with Ahumada, Weyler's lieutenant, and was murdered. Dr. Zertucha was present. The news does not surprise me, because the first reports of Gen. Maceo's death were so contradictory that I saw mystery in them. I was inclined to believe the report was false, but that if Gen. Maceo had really been killed it was through the assassin's knife."

BISHOP OF BUFFALO.

Buffalo, Dec. 14.—A special cablegram from Rome says that Rev. Father James E. Quigley has been selected by the Pope as Bishop of Buffalo to succeed Bishop Ryan, deceased. Father Quigley was born in Ottawa, Ont., Oct. 13, 1855, and came to Buffalo in 1868. He studied in the Seminary at Steubenville, and in 1873 was sent to the University at Innsbruck, Austria. Two years later, he was transferred to the College of Propaganda, at Rome, and concluded his studies in 1879, when he was ordained, and the degree of D.D. was conferred upon him. His first assignment after he returned to America was to the charge of the church at Attica in this state. For a number of years he has been rector of St. Bridget's church in this city. The appointment is a most popular one.

UNTOLD AGONY.

Seven Years' Untold Misery—No Remedy to Help—No Physician to Thwart the Onslaught—But South American Rheumatic Cure Charms Away the Pains in 12 Hours and the Suffering Slave is Emancipated.

J. D. McLeod, of Leth, Ont., says: "I have been a victim of rheumatism seven years, being confined to my bed for months at a time, and unable to turn myself. I have been treated by many of the best physicians without benefit. I had no cure I saw advertised, but my wife induced me to get a bottle of South American Rheumatic Cure. At that time I was suffering agonizing pains, but inside 12 hours after I had taken the first dose the pains left me. Three bottles completely cured me, and I rejoice in having the opportunity of telling what a great cure it has wrought in me."

ARCHBISHOP LANGEVIN.

WINNIPEG, Dec. 14.—(Special)—Archbishop Langevin left to-day for the East. It was not his intention to go East so soon, but being anxious to be present at the bedside of Archbishop Fabre, who is dying at Montreal, Mgr. Langevin left to-day. It is also understood that while in the East all the Quebec prelates will assemble in council in order to discuss the school question and probably to form a plan of campaign. The Archbishop will stop over at Kat Fortage for a day or two on his way.

Horace Bulger, the seventeen year old boy who fell down an elevator shaft in the building occupied by the Richardson Stationery Company, on Saturday, died at the general hospital this morning.

G. H. Campbell, manager of the Winnipeg electric street railway, will resign to devote more time to the Kootenay mines, in which he is largely interested. A son of Mr. W. McKenzie, Toronto, will probably be his successor here.

Mr. E. B. Osler, president of the Toronto board of trade, is also understood to have been addressed the pupils of the Manitoba College to-day. A ball in his honor is in progress at Government House to-night.

D. B. Hanna, treasurer of the Manitoba and Northwestern Railway Company, has been appointed superintendent of the new Lake Dauphin railway.

The Winnipeg civic elections take place to-morrow. There are five for the mayoralty, and it appears to be anyone's race.

IF YOU ONE BY CARTER'S LITTLE BLUE PILLS

if sick has ache, biliousness or constipation, you will never be without them. They are purely vegetable, small and easy to take, don't forget this.

THREE RIVERS.

Dec. 14.—A suspected case of leprosy has been discovered here, the victim being a Chinaman.

WESTMINSTER.

NEW WESTMINSTER, Dec. 15.—The programme for the reception of Hon. Mr. Davies is similar to that carried out on the occasion of the visit of Hon. Mr. Tarte. The Minister will be shown the salmon hatchery at Bon Accord and later in the day will take the east-bound train.

The death occurred on Sunday morning of Miss Upton, a well known resident of this province during the past eighteen years. Miss Upton's death occurred very suddenly, as she was apparently in good health the preceding day. Heart affection was the cause. The funeral took place to-day in the Church of England cemetery at Sapperton.

The municipal elections yesterday resulted in the re-election of Mayor Shiles by a majority of 62. Messrs. Owens, Gillanders, W. A. Johnson, J. Jagger, R. Buckland, W. A. Hancock, Robson, Calbeck, Douglas and Kearney were elected as aldermen, Mr. A. E. Woods being defeated.

DUNCAN.

DUNCAN, Dec. 15.—A sale of work and entertainment under the combined auspices of the King's Daughters and the St. Peter's (Quanzichan) church sewing society is to be held at the agricultural hall on Thursday afternoon next.

The Cowichan Institute will give at the agricultural hall, dances on the 22nd and 23rd of December, 18th of February, and 29th of April and entertainments on the 7th January and 4th February.

REVELSTOKE.

Trout Lake will be one of the shipping silver camps this year. The Great Northern has let a contract for hauling three hundred tons of ore, which will
