CAPTAIN PEARY **GIVES REASONS**

Took No White Companion On Final Dash To Pole Because ery All To Himself

WASHINGTON, Jan. 10 .- Admitting that the North Pole is just as much lost as ever, and that all future at tempts to find it must be independent nterprises, unaided by his own work Captain Robert E. Peary, the Arctic explorer, answered a cross-fire of questions at a hearing before the house

He told how he wanted the glory of the polar achievement for himself, deing to let any of his expedition other than the negro. Hensen, go on the last dash with him, how his publishing contracts had prevented him from testifying before the committee last spring, and how members of his ition had been prohibited from writing about the trip. Captain Peary was asked to throw light on why, as a naval officer, he made no report to the navy department. He said he had some report to the coast and Geodetic survey, and had advised the navy department of that fact. It was impression that the superintendent of the survey had made a report to the CREWS OF BARGES

Pressed by Mr. Roberts, Captain Peary said there was a letter from him on file somewhere asking secrecy for sis written report to the survey as to soundings.

"Why did you not take white mem bers of your party with you on the final stage of your northward trip, so that there might be creditable corro borative evidence?" asked Representa tive Roberts, of Massachusetts.

"In the first place," replied Captain Peary, "I have always made the final spurt, with one exception, when Lee was with me, with one man, and the Eskimos, because the man I took with me (Hensen) was more effective for combined demands of extended work than any white man. The Pole was the coast of Cape Cod have seen in something to which I have devoted my many years, occurred today on the life, for which I had gone through such sand bars off the Peaked Hills. They hell as I hope no man in this room will stood on the beach with their lifeboats ever experience, and I did not feel that and other apparatus, unable to render

trip, said he had not yet prepared such Treverton, Corbin and Pine Forest a chart as would enable anyone to follow in his footsteps to the Pole, but he tion of Captain Brown, of the Trever"imagined" that he had data by which top, who lived in Lincolnville, Maine. he could prepare such a chart. He said and Captain Hall, of the Pine Forest, the position of the North Pole could be a Provincetown man, the drowned saildetermined just the same as the ors were Philadelphians. equator, but the trouble was the comparatively low altitude of the sun, which never gets higher than 221/2 degrees above the horizon. For that reacoast when three barges went to pieces relied on with accuracy.

INCREASES DIVIDEND

Canadian Pacific To Pay Three Per Cent. Extra On Account Of Land Sales-Stock Price Soars

MONTREAL, Jan. 10.-At, a meetheld yesterday, it was decided that sets of the company, the distribution from these sources, commencing with payment of the next quarterly dividend, will be at the rate of three per cent, per annum, instead of one per cent, as heretofore. The regular dividend on C. P. R. common stock has been at the rate of seven per cent. per annum, and an extra payment of one per cent, has been made out of land account, making a total of eight per cent. This will place the stock practically on a ten per cent. basis

Following the announcement of Pacific land sales the stock skyrocketed from 189 to 204 at the opening of the market this morning.

Extraordinary interest was displayed on the stock market this morning following last night's announced in crease in C.P.R. land sales dividend to three per cent. Canadian Pacific stock opened at 204 against 198 last night, reacted to 2031-2 and then jumped to 205 1-2. The increase means that 25,000 shareholders will obtain \$3,000,000 more for their holdings than would have obtained last the next quarterly dividend. This di- cal meet. Later, however, his mechanvidend, it must be remembered is not icians took a more hopeful view of the upon ordinary Canadian Pacific situation and asserted that they might

Persia Makes Appeal.

NEW YORK, Jan. 10 .- Out of the tangled web of diplomacy, plot and counterpot that has wrapped it about for centuries the Persian government has raised its voice, in appeal to the whole world—an appeal for what it styles justice against Great Britain and Russia. The first cry reached this country today, bearing the seal of the empire and signature of Mestofi-El-Menelik, president of the council. It through H. H. Topakyan, Persian consul general at New York. The appeal all beneath a mass of earth and rocks. sets forth the dealings of Great Britain and Russia in Persian affairs and charges that Britain's bad faith has are planning the erection of a suitable brink of collapse. The story unfolded form is to be a huge electric clock, susplomatic notes, revolutions, invasions of Persian soil by Russian and British of Dundas and Richmond streets. forces, nominally to enforce collections, but in reality, it is said, to secure milcoints in the European war game.

THROUGH OPEN SPAN

Great Northern Freight Engine Drops Into False Creek-Engineer And Fireman Escape

VANCOUVER, Jan. 10 .- What apparently was a misunderstanding of signals this morning sent a G. N. freight engine through the open span of the company's trestle over False Creek, and with the tender hanging on the edge of the broken track has disrupted the line's traffic between the Westminster avenue crossing and the station on Fender street. Fortunately no lives were lost, but, had the train been traveling at a greater speed, and had it been a passenger instead of a freight, nothing would have prevented a serious catas trophe.

As the draw-span swung open scarce y forty feet in front of them, the engine crew saw that there was nothing for it but a cold dip in the creek. Fireman Varret, on the job for the first time today, jumped clear of the bridge and the engine, while Engineer Baker, who with his cab, did not fare so arches 35 feet in the air at the corner well. With the locomotive he plunged into the creek, and in the tumble received rather severe cuts on the head but both he and his stoker were pulled were so alarmed that they rushed into much the worse for their experience.

WI B WIE

MELBOURNE, Jan. 10.-Sir James ills, head of the Union Steamship mpany of New Zealand, has arrived here and interviewed the cabinet regard-ng the tenders for the Canadian-Aus-ralian steamship service. After the conference the cabinet ministers made i ntinue its subsidy to the service if Stalled At Many Points On agreed, however, that negotiations with the Canadian government should be re-opened and in this circumstance, the advocates of the claim of New Zealand profess to find some ground for hope.

He says: "The British government recognized and understood that when the second Hay-Pauncefort treaty was ratified it was a matter left wholly to the discretion nary 24, he will confine his activities to of the United States to determine to what extent it would employ military power and resort to fortifications to protect our rights. An explicit stipu- assisted by J. L. Moisslet, Esq., B.A., lation was not insisted upon, because Oxford. Three and a half acres extensilence on the subject in itself left us sive recreation grounds, gymnasium, free to do as we might see fit."

Crushed in Train Wreck

FRESNO, Cal., Jan. 10.-Fireman lacob Brooks, of this city, is dead, Engineer Stokes probably fatally injured, and several others are seriously hurt as the result of an accident on the Santa Fe railroad, a few miles north of here at noon today. Passenger train No. 5, leaving this city at 11.40 a. m., for San Francisco, took an open switch half a mile this side of the San Joaquin river. The engine, tender and baggage cars were crushed into a mass of twisted wreckage, and the passengers thrown in every direction Both Stokes and Brooks were buried n the wreckage. Rescuing automobiles and a special train rushed to the place. Brooks lost one of his feet, and suffered internal injuries which were fatal. Stokes was found in a pool of not oil, which had dripped from the tender.
