Central Book Store, Water Street  
White's Drug Store, Gerard Street  
T. Wren's Drug Store, Water Street  
A. McG. McDonald's Water Street.

Thursday, November, 15th, 1917.

A PATRIOTIC AND PROFITABLE PURCHASE.

Everybody with \$50, \$100, or \$1000 to invest should buy Victory bonds. The Government has the money for war purposes, and every dollar of it will be expended in Canada. It is a patriotic duty to make the investment. And it pays well to do so. The security is not questioned. British dominions never repudiate their obligations. And the interest in, for Government bonds high—5 per cent. The bonds may be converted at any time into cash. The holder doesn't have to wait five, ten or twenty years for their money if they want to use it.

In making an investment one looks not only to security and the rate of interest but to the prospective selling price of the security he buys, and it is absolutely certain that, soon after the close of the war these bonds will sell at a premium of five per cent or better. Why? Because in the demand of money by Government will lower the interest rate, and Government bonds will eventually sell higher on the market. All the financial experience of the past absolutely demonstrates that a 5 per cent twenty year Government bond will sell at from 105 to 110 in a time of peace.

The purchaser is required to pay \$10 on December 1st, and may pay the other \$90, less allowance for interest, Jan. 1st, or may pay it in monthly instalments. The purchaser may have bonds payable to bearer, bonds that he may pay out on a purchase just as if they were banknotes, or he may have them registered at Ottawa so that he cannot lose them by fire, theft or otherwise.

A square in Chatham a few days ago of some fifty moose and deer hides, without government tags, is a convincing proof of illegal slaughter of game on a large scale. Also it is convincing proof that a better method of dealing with the big game problem is desirable. This North Shore seizes calls for a searching investigation, and for the punishment of all concerned in the illegal killing.—St. John Globe

The action of the city council in deciding to seek legislation to exempt Victory Loan bonds from taxation will be generally approved by the citizens, and similar action might well be taken by other cities. It is a patriotic move which will help to popularize the Victory Loan, and every encouragement should be given to the people to invest in these bonds. Canada must do her part in financing the war, and the opportunity is now given. The great nationwide campaign begins next week. St. John Times.

**COBDEN'S PATCHWORK QUILT.**

(By Augustus Bridle.)

Cobden—somewhere in Canada—is going to have a patchwork quilt the like of which never was known. There have been various sorts of patchwork quilts in this country. Cobden—wherever it is—will have such a quilt as any Frenchman, Lieutenant-Governor or would be proud to sleep under, and if ever he does he will want to take a trip off the corner for a good-luck souvenir.

It's all because Cobden is enough like a thousand other such farming communities to want to do something distinctive on his own hook. Maybe the original idea of this coverlet came from some bright woman who has a home fire to keep burning for a boy at the front. Very likely. Well, wherever she is, she deserves the thanks, not only of Cobden, but of all who read this.

A Single Record.  
Cobden's patchwork quilt is going to be an honor roll. Not merely of people who had such ten cents or something else in it, but of people who for the sake of seeing their names on the quilt gave their autographs for the quilt.

**The Popular Favour**  
of "SALADA" Teas has been gained on account of their uniform goodness, and entire freedom from dust.

**"SALADA"**

Black, Green or Mixed. Scented Packets only. Shutting out Contamination.

Cobden's patchwork quilt will be a thing of great and lasting sentiment. It will be the mute story of a hundred high-minded intentions; the simple record in a hundred styles of handwriting, of men and women who knew a good thing when they saw it, and when the chance came to do something worth getting on permanent record—did it.

Cobden's patchwork quilt will be a perfect democracy. It will be a plebiscite; a sort of referendum. Some day a visiting orator will get hold of it and deliver an oration on that quilt. It will go down to history with the old flag that Stonewall Jackson saw flapping out of the window, or Joseph's coat of many colors or the suit of armor hanging in the Abbey.

Cobden's patchwork quilt will be shown with pride to all the boys and girls of that community for a hundred years. If ever Cobden gets a museum that quilt will be the first thing to go into it, because it will express with marvelous eloquence the story of a united effort of Cobden in a common and glorious cause.

Cobden's patchwork quilt will be sold at auction. Somebody will bid a fancy sum for it. He will be proud as Lucifer and as pleased as Punch when he gets it. And if somebody stumps him he will do like Mark Twain, the red bathrobe in the streets of Coventry, wear it in broad daylight.

Why? Because Cobden's patchwork quilt is to contain the autographs of one hundred people each of whom in the neighborhood of Cobden signed up for a Canada's Victory Bond.

Now you have the whole story of Cobden's Patchwork Quilt.

**BETTER THAN DUNN'S.**

A contemporary says that newspaper subscriptions are infallible tests of a man's honesty. They will sooner or later discover the cheat. If he is dishonest he will cheat the printer some way; or sent the money and it was lost in the mail, or he will take the paper and not pay for it on the ground that he did not subscribe for it, or move away, leaving it come to the office he left. Thousands of professional Christians are dishonest in this particular at least, and the printer's book will tell fearful tales in the final judgement. If you need a man's financial and moral rating, ask your local newspapers.

**PROFESSIONAL.**

Dr. A. Pierce Crockett, eye, ear, nose and throat specialist of St. John, will be at the St. Louis Hotel Campbellton, FRIDAY, NOV. 16th, where he may be consulted professionally. Nov. 16th 2-pd.

**SCHOOL BOYS AND BIRDS.**

The little 22 rifle in the hands of the boy is a serious menace to bird life. Give a young lad one of these miniature rifles, and he is at once ambitious to test it out on killing something. If school boys were taught their dependence upon the work the birds do to protect man's food supply from destructive insects, they would place a much greater value upon their feathered friends.

**MAIL ORDER DEAL.**

Down in Oldsdoma the other day a man went into a store to buy a saw. He saw the kind he wanted and asked the price. It was \$2.85, the dealer said. "Good gracious!" said the man. "I can get the same thing from Sears, Roebuck & Co. for \$1.85."

"That's less; ain't it cost me?" said the dealer, "but I'll sell it on the same terms as the mail order house just the same."

"All right," said the customer. "You can send it along and charge it to my account."

and a money order to a mail order house, you know."

The customer, inwardly raving, kept to his agreement and paid the nickel. "Now 25 cents expressage."

"Well, I'll be—!" he said, but paid it, saying: "Now hand me that saw and I'll take it home myself, or be rid of this foolery."

"Hand it to you! Where do you think you are? You're in Oldsdoma and I'm in Chicago, and you'll have to wait two weeks for that saw."

Whereupon the dealer hung the saw on a peg and put the money in his cash drawer.

"That make \$1.67," he said. "It has cost you 2 cents more and taken you two weeks longer to get it than if you had paid my price in the first place."—Squid Dealer.

And this applies to many mail order transactions.

**VEGETABLES SHOULD BE PROPERLY STORED.**

This year, in response to appeals for increased food supplies, Canadians have produced a record crop of vegetables.

That the greater use may be made of these products it is essential that care be exercised in their storage and preservation. A cool, dry cellar is the best place to store vegetables. Carrots, parsnips, beets, etc., if covered with sand, will not dry and shrivel up. Cabbage are best taken up and hung by the roots individually. Green tomatoes, when too late to ripen outside, should be wrapped individually in paper and kept in a dark place to ripen, and, while not taking on the sun, they are otherwise as satisfactory. Tomatoes thus ripened may be used till Christmas.

Potato supplies, for those who have not grown their own, should be secured this autumn. The farmers have grown large quantities, and in many cases losses will be heavy if they find it necessary to store them. In addition, during several of our winter months, it is not safe to market potatoes, which leaves the consumer dependent upon the middleman for supplies, usually at an advanced price. By early distribution, the storage problem can be largely solved and much of the waste due to freezing avoided.

If the same patriotic effort is given to the preservation of the 1917 crop as was exhibited in its production, very little waste will occur.

**Excellent Practice.**

"Little Stanley's writing shows a remarkable improvement," said Mr. Wilber smiling in pleasure as he surveyed his son's lesson book. "His writing was quite his weakest point. I suppose it is the reward I promised him which is making him practice."

"No," said Mrs. Wilber laconically. "But I'm sure he's been practicing and pretty hard, too."

"Yes; but it wasn't because your rewards. He practices for two hours every day now; but it was I who thought out the scheme for making him do so."

"Indeed! What was the scheme?" "I told him to make out a list of everything he wanted for Christmas."

**It Works! Try It**

Tells how to loosen a corn, tender corn so it lifts out without pain.

Good news spreads rapidly and drug stores have been busy dispensing Fraxone, the quick discovery of a Cincinnati man, which is said to loosen any corn so it lifts out with the finger. Ask at any pharmacy for a quarter ounce of Fraxone, which will cost very little, but is said to be sufficient to rid one's feet of every hard or soft corn or callus.

You apply just a few drops on the tender, itching corn and instantly the corn is relieved, and soon the corn is so loosened that it lifts out with one pain. It is a sticky substance which dries when applied and never influences or even irritates the adjoining tissue.

This discovery will prevent thousands of deaths annually from lock-up and infection in hospital wards from the corns which cause so much suffering.

**BUY A BOND.**  
(J. W. Harper, in New York Herald.)

Buy a bond!  
There's a country, fair, behind it,  
It's the fairest one on earth,  
It's the land of your adoption,  
It's the country of your birth,  
It's the mother, proud, of freemen,  
Where a man's soul is his own.  
Do you love its air of freedom,  
Would you love for it be shown?  
Buy a bond!

Buy a bond!  
There's a boy that's marching to the front,  
See its colors streaming wide,  
It waits for your protection,  
As it floats o'er land and tide,  
It floats for world democracy,  
And it floats to see it through.  
A million men have died for it.  
Is it anything to you?  
Buy a bond!

Buy a bond!  
There's a boy that's marching to the front,  
Perfance he may be yours!  
Would you give him protection,  
That preparedness insures?  
Would you give him food and clothing,  
And increase his every chance,  
As he fights for Right and Justice  
On the battlefields of France,  
Buy a bond!

**WHY BUY AT HOME.**

Because my interests are here.  
Because the community that is good enough for me to live in, is good enough to buy in.

Because I believe in transacting business with my friends.

Because I want to see the goods I am buying.

Because I want to get what I buy when I pay for it.

Because some part of every dollar I spend at home stays at home and helps work for the welfare of the community.

Because the merchant I buy from pays his share of the taxes.

Because the merchant I buy from helps support our schools, churches, lodges and home.

Because if ill-luck, misfortune or bereavement comes, the merchant I buy from is here with his kindly expression of greeting, his words of cheer, and if needed, his pocketbook.

Here are some of the articles that we have begun, accustomed to import from Germany and Austria.

Lace, toys, artificial flowers, fruit and leaves, socks and stockings, gloves and mitts, dress fabrics and trim-

ings, woollens and cottons, chinaware, glassware, cutlery, combs, buttons, fancy goods, lead pencils, drugs, dyes and chemicals, tobacco, pipes, pouches and other smoker's requisites, binder twines, musical instruments and parts, electrical apparatus—E.

It was the first week that the Jinkses, who had fallen heir to considerable property, had been in their new home, Mrs. Jinks was given a dinner party with the fond hope that from this occasion she would be fairly launched in society.

"What, Ma'am?" exclaimed the amazed cook, "Mash the peas?"  
"Yes, that is what I said, Lena, mash the peas," repeated the mistress. "It makes Mr. Jinks very nervous at dinner to have them roll off his knife."

A Little Flaky.
