RESULT OF THE MAY EXAMINATIONS IN ARTS AND LAW.

A Girl Takes Two Scholarships—No Medal in Classics—Heavy Plucking in Second Year.

The results of the May examinations in law and arts were made known last night. The feature of the year is that Miss Lizzie Balmer takes two scholarships (modern languages and general proficiency) and first-class honors in mental and moral science without attending lectures in any of the departments. Her standing is remarkable. The Misses Browns (daughters of the late Senator George Brown) stand well in the third year. Of girls, five presented themselves in the third year, one in the second, five in the first. The rejected men were: 1 in the fourth year, 3 in the third year, 25 in the second, 7 in the first. Failure to get honors in mental and moral science in the second year was the "insurmountable" for the majority of the unfortunate 25. No medals were awarded in classics, and some of the scholarships were not given because the candidates did not come up to the standard. The Blake scholarship goes to a double scholarship man.

Meeting of the Senate Last Night.

At the meeting of Toronto university senate last night there were present Mr. Mulock, vice-chancellor, Dr. Wilson, Messrs. Coyne, Miller, Falconbridge, Gibson, King, Foster, Kingsford, Buchan, O'Sullivan, Moss, Loudon, Galbraith, McMurchy, Houston, Father Vincent, and Drs. Cavan, Ogden and Larratt Smith. Messrs. Coyne, representing convocation, Miller the high school masters, and Moss the law society, took their seats for the first time.

Amongst the communications read was one from an Edinburgh university man, named Alexander McFarlane, who intends to reside in Toronto, asking to be appointed examiner in Toronto university.

Dr. McEarlane sent in a letter stating that he had been compelled to go to Europe, and making certain suggestions as to the improvement of the medical curriculum.

On the motion of the vice-chancellor, the standing committees for the year were appointed.

The committee on the proposed scholarship in memory of the late Chief Justice Moss reported that a sufficient sum had been raised to warrant the senate in proceeding to establish the scholarship, and notice was given of a statute to effect that object.

The statute introduced by the vice-chancellor to enable medical undergraduates under certain circumstances to take two annual examinations in one year was read a first time.

Mr. Houston gave notice that at next meeting of the senate he would introduce a statute providing for the introduction of certain branches of natural science as optional subjects at junior matriculation.

Mr. King gave notice that he would at next meeting move for the appointment of a committee to consolidate the university statues.

The vice-chancellor gave notice of a motion appointing five members to represent the senate on the board of trustees of the university funds.

On motion of Prof. Loudon, acting for Dr. McFarlane, the medical members of the senate were appointed a committee to consider the medical curriculum with a view to its amendment. Mr Loudon also gave notice of a motion to appoint a committee to confer with a committee of the Ontario medical council with a view to securing a common matriculation.

The report of the board of arts studies on texts for junior and senior matriculation, was read and its adoption moved by Dr. Wilson, seconded by Mr. Houston, but the motion was allowed to stand in order that certain suggestions made by members of the senate might be referred back to the board of arts studies, to which Messrs. McMurchy and Miller were added for purposes of consultation. This enlarged committee will meet to-day at 4 o'clock in the university library, and will report to the meeting of senate to-night.

Undergraduates on the Warpath.

A meeting attended by nearly all the undergraduates in the mathematical and physical classes was held on May 23 at the close of the examinations of Toronto university at which the following resolutions were proposed:

We, the undergraduates of Toronto university in the mathematical and physical classes wish to express to the public, or those noticing the reports of the last examination, that we consider there has been no test in the mathematical department, and consequently that the class list cannot be relied on as representing the relative merits of the different men.

Our reasons for making this statement are:

(1) The papers did not cover the work, in several of the most important subjects all the difficult parts were avoided.

(2) In many cases the papers were too short, or where lengthy they merely required rapid writing; no thought or thorough knowledge of the subject was required.

(3) The continual occurrence of mistakes, both in printing and in the problems themselves, caused considerable loss of time and confusion to candidates and must effect the result of examination. The examiners were not in the hall to correct such mistakes.

After considerable discussion from all the years, the resolutions were adopted with only one dissenting vote, and a committee consisting of Messrs. Haight, Mulvey, McKay, Fraser, Gourlay and Keeler was appointed to make a report of the meeting.

A DISASTROUS SPECULATION

Westbrook and Quirk, Brantford Hotel Keepers, in Deep Water.

HAMILTON, June 5.—Early this morning Alex. Dunn of the St. Nicholas hotel and Thomas Armstrong of the Dominion hotel, gave bonds in $700 for the appearance of Fred. Westbrook of Brantford, who has been in custody since Tuesday last, and who was this morning released. He was arrested on the race course here Tuesday afternoon by E. B. Parker, bailiff, at the instance of J. S. Hamilton & Co., Brantford, who have a writ of attachment issued against Westbrook & Quirk, proprietors of the Commercial hotel, Brantford, for $350. Westbrook is a great sporting man, and the fastest bicycle rider in Canada. He was here attending the races and it was understood that he was going to skip the country and make for Philadelphia, hence the arrest. The Commercial hotel was formerly run by Westbrook's father. About a year since he leased the premises to his son Fred and his son-in-law, James Quirk, at a yearly rental of $1600. The young men did a good business, but expenses were high, and both partners spent money with a lavish hand, so that now, according to a Brantford bailiff, they are $4000 in debt, with hardly any assets. Westbrook himself claims that they owe his father $1100 yet on the year's rent. He says that Quirk attended to the finances, and that it is to his extravagance their present embarrassment is due.

L. W. R. Rutland was yesterday nominated a democratic governor of Vermont.

THE GENERAL ASSEMBLY.

SECOND DAY OF PRESBYTERIAN MINISTERS AND ELDERS.

Report of the Hymnal Committee—Home Mission Work—Lively Debate on Mode of Procedure.

The Presbyterian assembly spent an hour in devotional exercises before resuming business yesterday. Dr. McLaren wore a gown and glasses, and made a good appearance as moderator.

In the afternoon Dr. Jenkins reported that the hymnal committee proposed to issue a new tonic sol fa hymnal and also a Sabbath school hymnal, which were now in press, and one for the especial use of teachers and families. By permission of the Free church of Scotland, the committee had made arrangements to publish a church psalter. The report was adopted and the committee reappointed.

A lively debate sprang up regarding the mode of procedure in the case of Rev. Hugh Rose's application to be received into the church, transmitted from the Toronto presbytery. Rev. D. H. Fletcher (Hamilton) asked that a certain paper in the case he read. Principal Grant, with a view to economize time, wanted the matter referred at once to a committee. So did Hon. Alex. Morris, who addresses the reverend fathers and elders as if he were on the floor of the legislature. A commissioner having called for the moderator's ruling, Dr. McLaren decided that a member had a right to call for any paper in the hands of the assembly. Accordingly the paper demanded by Mr. Fletcher was read, whereupon Mr. Morris called for the reading of all the documents, which Dr. Reid proceeded with until a facetious commissioner asked that the suffering be dispensed with, in which request the assembly heartily joined. The case was referred to the committee on the reception of ministers. Papers in reference to several other ministers were also referred to their respective committees.

The moderator was instructed to name committees on addresses of loyalty to the queen and governor-general, on the appointment of standing committees, and to arrange for divine worship Sunday next.

At night the report of the home mission committees of the maritime provinces and the west were received, Dr. Cochrane, Rev. D. J. Macdonnell, Prof Forest (Halifax), and J. K. Blair (Truro, N. S.), speaking thereon. Besides the commissioners there was a large attendance of ladies and gentlemen, and the speeches of these gentle men were listened to with much interest, conveying as they did the impression that great and permanent good was being done by those in charge of home mission work.

The Victim of a Famous Tragedy Found.

NIAGARA FALLS, Ont., June 5.—The body of Thomas Vedder, one of the principals in the Vedder-Pearson tragedy, which was enacted on Goat island on the night of April 9 last, was found under the precipice near the Cave of the Winds this afternoon. The body, although badly decomposed, was fully identified by his relatives. There will be a full examination of the body to-morrow to see if there is any trace of bullet holes, and some light may be thrown on the mystery which has enshrouded the tragedy as to who did the killing.

Loss, $60,000; insured in Guardian for $13,000, British Commercial $6000, London and Lancashire $6000, London, Liverpool and Globe $5000, Phœnix $6000, Norwich Union and National of Ireland $2500 each, Royal Canadian $5000 and Citizens $2000.

NO SEPARATE SCHOOLERS NEED APPLY.

A Painter Refused a Contract Because of Being a Separate Supporter.

A vote of 10 to 8 in the public school board last night laid down the principles, as far as that meeting was concerned, that no tenders of the board were to be awarded to supporters of separate schools. The committee on sites and buildings recommended that the painting and glazing on the new school at Concord avenue and Denison street be awarded to W. R. Murphy at $263, the lowest tender. Trustee Medcalf at once jumped to his feet and asked the chairman of the committee, Trustee Somers, who the next lowest tenderer was. Mr. Somers said A. M. Browne at $303. Mr. Medcalf said he would move that Mr. Browne be given the contract. Some of the members were at a loss to understand the meaning of this motion, Mr. Murphy being the lowest, and Mr. Metcalfe was asked was it because Mr. Murphy was a catholic? Mr. Medcalf said, Not at all, but simply because he was a separate school supporter. Trustee Hamilton said such a motion had never been introduced before at the board. When public tenders were advertised for he did not think it was necessary to inquire what schools a tenderer supported. Trustee Roden maintained that Mr. Murphy was $40 below Mr. Browne and he should get the contract. In committee of the whole Mr. Medcalf's motion was put and lost, but on being pressed again in open board was carried on the following division:

Yeas—Medcalf, Crombie, Meredith, Potter, James, Bell, Westman, Donovan, Somers, Whitesides—10.

Nays—Roden, Brown, Galley, Ogden, Hamilton, Hill, McDonald, Lyon—8.

THE CITY EXECUTIVE COMMITTEE.

Rev. Mr. Melville's Tax Exemptions not Allowed.

Ald. F. C. Denison (chairman), C. L. Denison, Maughan, Moore, Blevins, Lobb, Elliott and Love were present at yesterday's meeting of the executive committee. Commissioner Maughan's report against allowing Rev. Henry Melville the usual ministerial exemption, was concurred in. John Pollard was fined $1 and costs for throwing ashes on Edward street. His appeal for relief from the penalty will go to the police magistrate. F. Rush's application for the position of tax-collector of St. Andrew's ward was considered rather premature as the present collector is still in office. The recommendation that $75 be paid Miss Clara E. Porter was struck out. Engineer Sproatt's report on the pumping engines was ordered to be printed. Ald. Moore opposed granting $2000 to the newly appointed board of health on general principles. Ald. Blevins differed and the grant went to the council by Chairman Denison's casting vote. Ald. Lobb secured the $500 for Riverside park, struck out by the executive in the estimates.

Osgoode Hall Notes.

The well-known copybook case of Gage v. the Canada Publishing company, was argued in the court of appeal yesterday. Judgment was reserved.

A motion was made at Osgoode hall yesterday, in the stock case of Sutherland v. Cox, to set aside the verdict for the defendant and enter one for the plaintiff.

The defendant in the celebrated case of Langtry v. Dumoulin has given notice of appeal from the decision of the chancery division, and the terms of the appeal bonds are now being settled.

The discipline committee of benchers yesterday commenced an investigation into the charges of unprofessional conduct preferred by J. A. Macdonnell against S. H. Blake, Q.C.

A Man in the Crowd's Testimony.

EDITOR WORLD: Before the fire and gas committee yesterday Foreman Charlton of the Portland street hooks, referring to the Mail fire, said he was positive that he had the extension ladder up just as the last of the telephone girls was escaping by the short ladder. This statement is a flagrant falsehood. Fully ten minutes had elapsed after the last young lady had been taken down before the extension ladder was raised to the eves where the young ladies stood. The slowness in working this ladder was generally commented upon by the large body of spectators who were present.—ONE OF THE CROWD.

The Pumping Engine Controversy.

EDITOR WORLD—Sir: In your issue of to-day in a letter by Chas. Martin, C. E., on The Pumping Engine, he says: "I am informed that Mr. Fensom knows how they executed this contract,' referring to Messrs. Inglis & Hunter's contract for the pumping engines for the city of Guelph. These engines were built according to designs furnished them. There was no fault found with the workmanship or material, this part of the contract being well executed, the trouble being in the designs and not the fault of Messrs. Inglis & Hunter.

JOHN FENSOM.

Toronto, June 5, 1884.

Attendance at City Schools in May.

Public School Inspector Hughes' report for the month of May states that the registered number of pupils attending the thirty-four city schools was 13,150, while the average daily attendance was 11,649. There were 30,838 days lost by absence, 14,085 cases of lateness and 481 cases of corporal punishment. There were 53 cases of late teachers, two 4 times, five 3 times, 14 twice and 31 once. The drill instructor was absent five times.

Mr. Morrison, headmaster of the Niagara street school, reported to the board that the attendance at his school during May had been greatly lessened by sickness arising from Garrison creek effluvias.

E. W. Schuch accepted the appointment of musical teacher in the city schools.

Miss Lizzie Anderson has resigned her charge of the eighth division in York street school.

Seven teachers from the new wards of St. Marks and St. Matthews have petitioned the school board for an increase of salary, to be on an equal footing with the other city teachers.

A Desperate Lover.

DETROIT, June 5.—Miss Johanna Coughlan, school teacher of Richard township, was shot and perhaps fatally injured by John Shea while sitting in her schoolroom. Shea visited the lady and proposed marriage, which offer was declined. He then drew a revolver and fired.

CONTINUED WARM WEATHER.

METEROLOGICAL OFFICE, TORONTO, June 6, 1 a.m.

NEW PUBLIC SCHOOLS AND ADDITIONS.

A Batch of Contracts Awarded by the Board Last Night.

The public school board last night awarded tenders for the new school building in St. Stephen's ward and certain additions and alterations to the following schools: Borden, Niagara and Elizabeth street.

New school, Concord avenue and Denison street—

Brick and stone work, J. Jones	$3464
Carpenter work, F. Thorpe	275
Plasterers' work, A. H. Rundle	265
Painting and Glazing, A. M. Browne	303
Galvanized ironwork, Douglas Bros	140
Felt roofing, J. S. Champ & Co	35
Plumbing work, W. J. Burroughs	76
	$7518

Borden street school (addition of four rooms)—

Brick and stone work, Page & Harris	$2900
Carpenter work, Scott & Cross	2653
Plastering, C. R. Rundle & Co	498
Painting and glazing, A. M. Browne	171
Galvanized iron, Douglas Bros	42
	$6264

Niagara street school (addition of two rooms)—

Brick and stone work, Page & Harris	$1347
Carpentering, Geo. Burry	1739
Plastering, C. R. Rundle & Co	256
Painting and glazing, Faircloth Bros	35
Galvanized iron, Douglas Bros	40
Plumbing, W. J. Burroughs	31
	$3448

Elizabeth street school (finishing mansard flat)—

Carpentering, W. Baillie	$425
Plastering, J. Little	380
Painting and Glazing, Faircloth Bros	48
	$853

A lengthy discussion took place on Mr. Jones' tender for the brick work in the Concord street school. Trustee Bell wanted to know if Mr. Jones' tender was a legitimate one, as he understood Mr. Jones was a brick-maker, and not a builder. Trustee Galley asked who Mr. Jones was, he had never heard of such a contractor before. Trustee Roden said the gentleman in question was Ald. Jones. The tender was finally adopted.

The tender for planking the lot adjoining Givins street school was given to C. W. Powers at $175. The offer of Mr. Gray to sell the board the lot adjoining Wellesley school frontage, fifty-two feet and depth same as present lot for $2600 was accepted.

Jimmy Perry, the Yonge street hatter, has a young stallion and he offered the sites and building committee of the board $20 for pasturage on the school lot in rear of Jesse Ketchum school. The trustees from St. Paul's ward raised their voice in indignation at exposing the school children to the machinations of a young stallion and Mr. Jones moved that it be given to Mr. Trimble, who offered $15 for pasturing a very docile animal in the shape of a cow. The matter created a lengthy discussion, and Mr. Trimble's cow was voted more suitable than Jimmy's stallion.

The standing committee on school management reported that they have considered the question of classification in the schools to which additions are to be made during the summer vacation; also in new school to be erected in St. Stephen's ward, and recommended that the following classes be taught in them, viz.:

Victoria street school—One senior fourth book class, one junior do., one senior third do., one junior do., one senior second do., two junior do., two senior first do., two junior do., one kindergarten.

Niagara street school—One senior third and junior fourth (if needed), one junior third book class, one senior second do., two junior do., two senior first do., two junior do., one kindergarten class.

Elizabeth street school—One senior third book class, one junior do., one senior second do., two junior do., two senior first do., two junior do.

Borden street school—One mixed senior third class and junior fourth book classes, one junior third do., one senior second do., one junior do., two senior first do., two junior do.

New school in Stephen's ward—One mixed class.

The committee also reported on further school accommodation in St. Matthew's ward, and recommended that the committee on sites and buildings be requested to secure as soon as practicable a school site north of Bolton street school, and that temporary school accommodation be secured to meet present requirements. The committee also recommend that the following names be placed on the list of occasional teachers: Miss H. Ross, second class provincial certificate, grade B; Miss J. Ross, do.; Miss M. Johnston, do.

The report was adopted in its entirety.

Tenders for Public School Coal Supplies

The supplies for coal and wood required for the public schools, which upon the recommendation of the committee of supplies was to have been awarded to Robinson & McArthur was last night referred back for readvertisement. Robinson & McArthur's tender was as follows:

Hard wood, per cord	$4 10
Pine " "	2 50
Large egg coal, per ton	6 00
Stove " "	6 25
Nut " "	6 25

The board seems to have experienced some difficulty with coal supplies, "on account," as Dr. Ogden put it, "of the coal ring." He alleged that Secretary Wilkinson had given certain information to the contractors. Mr. Wilkinson informed the chairman of the committee, which was considering the report, that such was not the case. The new tenders will be called for separately or combined.

Police Court Points.

Emma McKendry, insanity, remanded for examination. She comes from Oakville. Wm. Edwards, $10 and costs for trespass and 30 days for assaulting Annie Alkins. Wm. Reid, accused of assaulting his father-in-law, was discharged, Mr. Spence testifying that he gave Reid three times as much as he received, which put the case out of court. The Anketell-Atcheson assault case was enlarged for a week, the constable being suspended in the meantime.

A RIOT AT UNION STATION

TWO HUNDRED ANGRY WORKMEN AFTER AN EMPLOYMENT IMPOSTER.

What Tremeling's Insane Freak Led To—He Walks Out of Town and Escapes Punishment.

A man named Tremeling, who did not give his first name, dropped into Scobell & Ryan's employment bureau at 112½ King street west on Tuesday morning and stated that he was looking for railway laborers. He said that he was the authorized agent of J. J. Massey, who has a large contract on the Canadian Pacific railway, on the north shore of Lake Superior to complete this summer. He added that he wanted about 200 carpenters, blacksmiths, rockmen and laborers at once, and asked the employment men if they could get them. Mr. Ryan said he could, and received instructions to offer the laborers $2 and the others all the way up $4 a day. Ryan said "All right," and went to work, and as he had been instructed to employ a foreman at $65 a month and his board, he offered the job to Capt. Wm. Ryan of Jarvis, who was in town. That gentleman accepted at once and went to work, and both he and Ryan flew around the town spending their own money looking up laborers and were very successful.

The men were to pay $1 each, which would secure a free passage to Jack Fish bay, the scene of operations, when the receipt therefor was presented to Tremeling.

The men flocked around in large numbers and were eager to go in, some of them begging the money to pay for the registration of their names. On Wednesday afternoon, however, a stranger came to Mr. Scobell at his office and told him that he knew this Tremeling and believed that there was something wrong. Scobell informed Ryan, who went to where he was staying at the Crosby Hall hotel on the Esplanade, and found him in bed. He immediately accused him of doing crooked work, but Tremeling smoothly denied the impeachment and convinced Ryan that everything was all right. Ryan, however, made him get out of bed, dress and brought him up to Mr. Scobell, to whom he told a plausable tale and the two gentlemen concluded everything was all right. About noon yesterday the engaged workmen began to arrive, and nearly every one was accompanied by a friend. They were all Irish, with few exceptions, strong, truculent and enthusiastic to a degree.

As the Crosby house was Tremeling's headquarters, they surrounded it with their parcels and the bar did a thriving trade. Each of them had a bundle of some sort, all the spare clothing they could rake together by hook and by crook. When one thinks of the fell disappointment which overtook them all there is something touching in the fact that many of them were the poorest immigrants from Conway street, whose only bundle was a loaf of bread purchased for them by the poor wife they left behind. What was more touching still was the eager expression on their faces in anticipation of lots of work at good wages, the first work they had had for months.

For most of them had lived at the soup kitchen, and starved and suffered betimes for many long months.

The time to start was 4.50 p m. by the Toronto, Grey and Bruce division of the Ontario and Quebec, to Owen Sound, where they were to ship by steamer to Jack Fish bay. When the hour arrived they crowded into Union station by hundreds as the train backed in. But there was no one there to receive them. Tremeling did not turn up—nobody turned up. A few gentlemen informed them that they had been fooled by one of those human blood suckers who prey upon poor people. They could not believe it, and boarded the train, but were expelled by the police and railway officers. In another moment the train steamed out without them. Then indeed a howl, or rather a chorused cry of rage, indignation and misery broke from the throng. Many men cast down their wretched bundles and wept; others filled the air with curses and raised threats, while still others stood dumb watching in blank amazement at the retreating train. At this juncture Lawrence Clancy, an employment agent, turned up. It is not clear that he had anything to do with the affair, but he was an employment agent anyhow, and that settled it. With a yell they rushed on him, but he was rescued and a desperate fight with the police followed, and three of his chief assailants, David Hogan, Wm. Carney and Wm. Mock were arrested. After this the crowd poured back to Scobell's office, where whoever had a receipt got his money back.

In the meantime Mr. Ryan was industriously looking for Mr. Tremeling. He found that he had walked out of town and believing that he intended to take the cars either at the Don station or at Scarboro, he boarded a train and started after him. He found that he had been in the Don station and had a drink of water, and Ryan went on to Scarboro, but not finding him, returned by the next train.

"Would you have had him arrested," queried The World reporter.

Ryan smiled.

"Not much," he said, "but if I had caught him I would have given him a drubbing he would never have forgotten."

Tremeling arrived in town on Saturday night and immediately went on a big spree. He had any quantity of money, which he spent freely, and on Sunday presented gold rings to three of the boarders in the house, one of them turning out to be worth over $18. On Monday he wanted Mr. John Scully, the railroad contractors' agent, to go in with him but that gentleman refused unless he put up $100. This he did not do and victimized Scobell & Clancy, the latter innocently acting as his agent.

THE FLIGHT OF FANCY.

Out in the cooling breeze,
Under the shade
Of the old maple trees,
Down in the glade;

Watching the butterflies
Floating around,
Hearing the music rise—
Song birds abound;

Gazing at clouds of fleece
Up 'gainst the sky—
Ve is over realms of peace
Far off on high.

Fancy goes free of rein,
Nothing to check—
Ouch! there's that bug again
Gone down my neck!

W. Bee Ridge.
