"Dr." Charles C. Faiman, Chicago bacteriologist, who says he sold Wm. D. Shepherd typhoid germs on the promise of \$100,000 which were to be used to kill someone, was employed not so very long ago as a drug clerk. He is, however, one of the products of the U.S. hustle. He is now head of some mail order institute able to issue diplomas for bacteriology. Successively a Minneapolis drug store clerk who experimented with perfumes as a preliminary to being a physician, a "collection expert" who bought a collection agency for \$25, an undertaker's assistant and a grocery store buyer, "Chuck" Faiman, of Hopkins, Minn., finished a three years' course in three months, became a physician in west Duluth immediately afterward and two years later was a pathologist nationally known.

## Neptunite Varnishes

Neptunite Varnishes have the distinction of being the only varnishes made that can withstand the heat from a hot iron on its surface. They will not turn white, crack under the hammer-test or show heel marks. Ice, snow or rain have no effect on them. They produce a remarkably beautiful finish: wear longer and cost less than most good varnishes.

How about changing the color of your Kitchen Furniture this spring. Think how a pretty combination of colors and then varnished would so improve your kitchen chairs, table, etc.
