MATANZAS, 5th April, 1567.

Our last circular was dated 5th March. Since then the Sugar market has been very unsettled, owing to unfavourable news from abroad and a derauged money market. At the close there is more steadiness at prices showing a decline from last quotations.

Fine grades of Clayed are neglected and can be had at rates nearly proportionate to the lower numbers.

Muscovadoss have enjoyed a better demand than clayed and stronger prices. We quote

WRIGHT & CO.

BUENOS AYRES, January 25th 1867

Since dato of our last circular advices of the 20th ult, our import market has been very dull in consequence of large supplies of all goods, and the disturbed state of the interior provinces. In exports the difficulty of obtaining lighters has tended to limit operations, but there has been a considerable movement in sanders produce for Europe

The arrivals from the United States have been eighteen in number.—Importing 4,109,739 ft lumber:
71.121 ft hardwood, 542 mil shingles; 2:0 boxes starch; 165 bxs chairs, 1, 65 pkgs furniture; 220 bxs t bacco; 6,650 bxs petroleum; 300 bxs oysters; 100 bxs lobsters; 56 pkgs hardware, 50 pkgs drugs; 500 bbls sugar; 25 bxs clocks; 199 bbls robin; 116 bxs spirits of turpentine; 259 bbls alcohol, 100 bbls pitch; 16 bxs varish; 1.100 oars, 91 bxs sewing machines; 76 bxs machinery; 7 bxs sgricultural implements; 2 carriages; 22 bxs shotels, 60 bxs hatchets; 28 spars; 2473 beines fire crackers, 80 botts cotton duck; 5 bales twine; 160 kgs butter; 50 bxs cheeses; 4 bales cotton drills; 4 increes hams, 20 kegs cut nails; 20 bbls whiskey 20 bxs bitters, 1 box sperm candles; 12 bxs books; 5 bxs cigars; 2,078 pkgs merchandize.

Leaber.—By reference to our table of imports it

Cigars; 2,000 pigs incremanate.

LUMBER.—By reference to our table of imports, it will be observed that the importations I ave exceeded those of last month by over a million of feet, and are also largely in excess of previous months. Although the market hus felt these heavy supplies, prices have not declined to the extent that might have been anticipated. Arrivals do not cease, and we may look for still lower figures, unless the contrary be the case. As the deficulty arising from the scarcity of lighters at I continues, importers have had to undertake the d'scharging of the vessels themselves for account of the purchasers, running the risk of damages. We have to record the following trunsactions. 184 mil ft. New York pine, at \$40; 742 mil ft ditto, at \$85; \$59
