In adapting well-known materials to new uses this age has made wonderful advance, and of no material is this more true than rubber. At one time rubbers and rubber coats represented the principal manufactures, but now columns would be required to enumerate the articles made wholly or in part from this material. The Canadian Rubber Co. are leaders in this line in Canada, and it is well worth while writing them for a catalogue. Mr. J. H. Walker, the manager of the western branch, to whose energy is due the large trade now done in the West, informs us that they will only be too pleased to answer any enquiries or give prices on any article made from rubber. See advt. on outside back cover for further information.

## COUNSEL WORTH FOLLOWING.

"BE stirring as the time" is sound advice that cannot well be followed without a Deuber-Hampden watch, for none keep time so well, last so long, or are so nicely finished. The New Railway at \$40 and the Special Railway at \$50 are specially commended as the best value, either as time-keepers or in material, ever put on the market. They are guaranteed for a quarter of a century, are 17 jewelled, and the cases are 14 karat gold. Keep this for safe remembrance, and when you want a watch write to F. S. Taggart & Co., 89 King st. West, Toronto.
