Mercantile Summary.

WE learn that a horse-rake manufactory is about to be started in Sherbrooke.

QUANTITIES of poplar wood are being shipped from Highgate to the paper mills.

THE exports of hides from Texas in a single year amounted in value to nearly \$3,000,000.

THE estate of Black & Cheyne of Windsor, has been bought back by that firm at 64 cents in the \$.

IT is said that the carworks in the United States have built in the last 11 months 37,350 railway cars.

A GERMAN chemist claims to have discovered a substance which may be used as a substitute for phosphorus in matches.

THE American Watch Company, Waltham, have received from the British Government another order for 372 watches for India.

THERE were 69,882 cords of hemlock bark, valued at \$259,363.50 imported into the U. S., mostly from the Dominion of Canada, during 1879.

THE pulp mill of the Canada Paper Company, recently destroyed by an explosion, is being rebuilt at Windsor Mills, Que., and is to cost \$30,000.

A COMPANY is being formed at Woodalee, Ont., for the manufacture, purchase and sale of hoops and staves, with a capital of \$5,000, in shares of \$500 each.

SOME people's customers must be a queer lot, and the credits given them prove extraordinary folly on the part of the merchant. For example, the book debts of Wm Colwell, general dealer, of Mitchell, amounting to \$7,124.42, were deemed so bad that they sold at 3c in the dollar to J. A. Givens; and those of R. F. Taylor, of this city, tailor and insolvent, amounting to \$827, brought 7c in the dollar.
